Fresh From the Wires from All Points.

Hermosillo, Sonora, Aug. 19.—Advices from Santa Domingo say the government there is growing desperately apprehensive of the arrival of Jiminez, leader of the revolution, who is momentarily expected. His arrival, it was added, will completely turn popular opinion which has been partly undecided. Consequently the chief object of the government is to intercept Jiminez, and a number of armed vessels are patrolling the coast with orders to stop every strange vessel and to capture Jiminez under any flag, armed or not.

New York, Aug. 19.—With Sir Thomas Lipton's signal, a shamrock on a gold ground bordered by a broad band of green, flying at her topmast truck, the challenge yacht Shamrock swinging at anchor here a striking resemblance to the Columbia. Straight as a reed and very strong is the Shamrock's mainmast. It is held by three steel wire shrouds on each side set up with turnbuckles. The deck itself is of steel covered at present with tarred canvas. The crew are a sturdy looking lot of sailor men.

San Francisco, Aug. 19.—The death of Pugilist Jim Franey will doubtless cause a great reaction in the carnival of pugilism with which this city has been surfeited during the past eighteen months. Popular sentiment is rising against the sport and seven members of the board of supervisors have expressed themselves as individually against granting any more permits for boxing contests of a character prompted by the National Excelsior and other clubs.

Denver, Aug. 19.—At the conclusion of the deposition of Colonel Picquart, Generals Mercier and Boisdeffre and asked to be confronted by the witness. Confrontation, however, lasted only a few minutes and did not prove at all sensational. After Colonel Picquart had reiterated his statements the court adjourned until tomorrow. The entire day of Colonel Picquart occupied the entire session.

Los Angeles, Calif., Aug. 19.—The Santa Fe officials who are now here stated today that the work had been begun on the railroad from Williams to the Grand Canyon. The road will be known as the Santa Fe Grand Canyon Railroad, and will be 62 miles long. Lombard, Goode & Co., of New York, have financed the company. Twelve miles are already graded.

A Mother Tells How She Saved Her Little Daughter's Life.

I am the mother of eight children and have had a great deal of experience with medicines. Last summer my little daughter had the dysentery in a severe form. We thought she would die. I tried nothing seemed to help her. I saw an advertisement in the paper about Chamberlain's Colic, Cholera and Diarrhoea Remedy and concluded to try it. I did so and it proved to be the very best medicine we ever had in the house. It saved my little daughter's life. I am anxious for every mother to know about so excellent a medicine as this. Had I known it at once it would have saved me a great deal of anxiety and my little daughter much suffering.—Mrs. Emily Moscrop, P. Bridge, Liberty, N. Y. For sale at Bisbee Drug store. A

SHOE NEWS.

....Here's the first hint of Fall in the Shoe Store.

A Shoe for Women, made of Velour Calf. A leather as soft as vici, and yet superior to vici in that it will not peel. It's a hand welt shoe, made on a man's last—a "mannish shoe," so popular now. The broad toe and flat heel combine to make it a sensible, comfortable shoe, especially where there are hills to climb. The graceful and stylish appearance so essential in women's shoes, is not lacking either.

$3.50 a Pair.

....Same the same last, in vici kid for those who prefer it.

$3.50 A PAIR.

....Infant Moccasins made of a silk striped cloth sewed on to soft leather soles, fur tops and tied with ribbon. Cute little foot coverings for cute little feet.
