## Another Hold-up on the Southern Pacific.

At about 11:45 Saturday night the west bound express pulled into Cochise station, eleven miles west of Wilcox. Everything was quiet and the station agent and trainmen were about their business as usual, but in a very short time a slight commotion was noticeable, and one of the brakemen was seen going back to the rear end of the train with a lantern on one arm and the other hand raised above his head; then it was noised around among the passengers that a hold-up was in progress. Two masked men had come upon the scene and had ordered the brakeman to the rear, and he was not slow to obey orders.

The robbers compelled the trainmen to uncouple the baggage, mail and express cars, and pull them a distance of about a mile, or possibly a mile and a half west of the station, when they were stopped, and the work of blowing open the safe containing money and express matter was begun, the robbers using giant powder to accomplish their purpose. Two explosions was all that was necessary to cause the iron boxes to open, when the robbers secured their contents and made good their escape. No one on the train was molested, the highwaymen stating to the trainmen that it was not their intention to molest any one, saying that all they wanted was in the express car. The mail car was not disturbed at all, and but for the delay of an hour and a half, the passengers were not inconvenienced in the least. The only damage being done was to the roof of the express car and to the company's safe.

No clue as to who the men were who did the robbing, or as to the direction they took after leaving the train, has yet come to our knowledge. The amount secured by the robbers is not known, but is thought to be considerable.

The above information was gained from an interview with Mr. Frank P. Powell, a commercial traveler on the train at the time of the hold-up, and who is now in Bisbee stopping at the Queen Hotel.

## A Night Of Terror.

"A awful anxiety was felt for the widow of the brave General Barnham of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. ## COPPER IS THE METAL.

The Cochise Copper Mining Company, Bisbee, Arizona.

This company owns a very valuable group of mines situated in Warren mining district, county of Cochise, Arizona, lying immediately east of and adjoining the town of Bisbee, and adjoining the property of the Copper Queen Consolidated Mining company on the north. The latter company has been in operation for about twenty years, and employs about 1,500 men daily in the operation of its mammoth mine and smelters, and as a result has produced copper to the value of \$4,000,000 pounds during the year 1898, and the net proceeds of such production are reported to have been over \$2,000,000, and it has been said by experienced miners who have been under its employ for years, that the Queen mine now has sufficient ore in sight to keep it in constant operation for the next twenty years without further development.

Is it not reasonable to believe that the property of the Cochise company is fully as valuable, when it is within such close proximity to such a wonderful mine?

The blasts set off in the underground workings of the Queen property can easily be felt and heard at the shaft of our mine, and oftentimes the concussion has attracted marked attention.

The original owners of these valuable mines are local business men, well and favorably known in Bisbee and surrounding vicinity, who are doing their utmost to make this enterprise a success in every respect. The board of directors are original owners, and are donating their services to the company until such time as the mine will pay dividends. They own the controlling interest in this property, and as a protection to stockholders have placed their entire interest in escrow for a term of one year.

The stock books of our company are now open for subscriptions, and a limited number of shares are offered at ten cents per share. No application for less than 100 shares will be accepted.

The company reserve the right at any time to advance the price of shares without further notice, or to reject any application for stock at their discretion.

Every cent received from the sale of stock will be expended toward the development of our property and the erection of hoisting works, and all other necessary improvements, and to make our enterprise a success in every particular.

We invite investigators and their experts or their engineers to closely scrutinize our property.

Applications for shares may be made to any of the directors of the company, or to any of our legally authorized representatives.
