

ELEVENTH SUMMER SESSION OF NORTH ARIZONA NORMAL SCHOOL.

Flagstaff, Ariz., June 8, 1915.

Editor Arizona Sentinel,
Yuma, Arizona.

Dear Sir:

It will be greatly appreciated if you will give place in the Sentinel to the following for the benefit of the Northern Arizona Normal school. Thanking you kindly I am

Very truly yours,
R. H. H. BLOME.

For some weeks past plans have been materializing to conduct a large summer school at the Northern Arizona Normal School, Flagstaff, Arizona. Some students have already registered; many reservations for rooms have been made; and, still, inquiries come from all parts of this state and adjoining ones. The prospects are very bright, and there is every indication for a most successful session.

The work will be in charge of a faculty of eighteen members. The thirteen regular members are: R. H. Blome, Ph. D., principal; Edward F. Honn, assistant principal; Grace Caldwell, head of department of Latin and Spanish; Cora I. Botts head of department of history and geography; Clarence D. Thorpe, head of department of English; Earl E. Rosenberg head of department of manual training; Emma B. Jones, head of department of Economics; Nora E. Blome, head of art department; Leslie N. Goodding, head of the science department; Willis E. Berg, head of department of agriculture; Mary G. Boyer, assistant in department of English; Iva Winterfield, substitute in department of English, and Cornelia Luscomb head of music department.

The remaining five members come to instruct in the summer school only. John N. Adams, who a few years ago was head of the department of science of the Northern Arizona Normal school, will be instructor in physics and chemistry. R. G. Stevenson, superintendent of the public schools at Jerome, Arizona, will teach geography and physiology. Leona M. Haulot, of the training department of the Tempe normal school, Tempe, Arizona, will have the Palmer Method of penmanship classes. Alice J. Mead principal of the Sangamon street school, Decatur, Illinois, will have charge of the primary classes in the training school. A. O. Neal, Ph. D., of the department of education, University of Arizona, will conduct the classes in pedagogy and history of education.

During the eight weeks a semester's work is covered in any given subject. All classes in major subjects recite twice a day. All classes in minor subjects recite once a day. Two majors and one minor constitute a maximum amount of work.

As a recreation from work the surroundings of Flagstaff offer many opportunities for picnics, outings for a day, and week-end camping trips.

The session opens on June 21st and, continuing for eight weeks, closes on

August 13th. The Santa Fe, Southern Pacific, and El Paso and S. W. railroads will make a rate of one and one-third fare for the round trip to those wishing to attend the summer school at the Flagstaff Normal school this summer. Rates will be in effect on June 18th to 21st, good to return on August 14th to 17th.

Should any one reading this article wish to know more about the Northern Arizona Normal school summer session, inquiries will be promptly and fully answered.

MANY TRANSFERS IN RECLAMATION SERVICE

Ernest H. Baldwin, U. S. R. S. present supervising engineer of the southern division, of which Yuma is a part, has been appointed assistant to the chief of construction, S. B. Williamson whose headquarters is at Denver.

It is stated on good authority that Engineer Stone, formerly of the Panama Canal has refused the appointment to succeed Francis L. Sellow as project manager here, and that it has been tendered to Engineer Cole of the Idaho project, who has established a splendid record in the interests of the people of Idaho. It is not yet known whether he will accept. It is known that this appointment was also tendered to L. N. Lawson, well known as assistant project engineer here some years ago, but he declined, preferring to remain at El Paso. Mr. Lawson is for the time being, a member of the Elephant Butte project cost review board.

CORONER'S REPORT ON RICHARD HAYNES

IN THE JUSTICE COURT OF THE
FIRST PRECINCT, COUNTY OF
YUMA, STATE OF ARIZONA.

In the matter of the inquisition into the cause of the death of Richard Haynes, deceased—Verdict of Coroner's Jury.

We, the undersigned, having been duly summoned and sworn by J. C. Jones, a coroner of Yuma county, State of Arizona to act as jurors in the matter of the inquisition into the cause of the death of Richard Haynes, having viewed the remains and having heard and considered all the evidence presented, and being duly informed in premises upon our oaths do say that from the evidence before us we find the facts to be as follows:

That the name of the deceased was Richard Haynes, that he was of the age of about 70 years, at the time of his death, in (or near) the town of Yuma, County of Yuma, State of Arizona, at about the hour of 12:30 o'clock p. m., on the 9th day of June 1915; that his death was occasioned as the result of a gunshot wound in-

flicted on his left leg by a rifle in the hands of one John Willis; but we do not attach any criminal responsibility to the act of John Willis as we deem he was justified in the shooting; that the deceased was an old soldier and had served as a private in Co. E of the 123d Ohio Volunteer infantry, and was formerly a member of the soldier's home, at Sawtelle, California; that the deceased left a sister surviving him by the name of Mrs. Jane Haynes, residing at Marysville, Calif.

To all of which we certify by attaching our signature hereto this 10th day of June, A. D., 1915.

J. O. JACKSON,
H. H. McPHAIL,
R. E. BLACK,
F. TAYLOR,
F. G. WALLENBECCK,
JOHN HAYLAND,
JOEL BERRY,
J. C. JONES,

Coroner of the First Precinct, County of Yuma, State of Arizona.

Mrs. J. H. Willis, wife of the man who did the killing is probably a niece of the dead man. Her maiden name was Haynes. Just before his death yesterday afternoon he denied that he was any relation to Mrs. Willis but Byron Gray stated that a year and a half ago Haynes had made a statement to him to the effect that Mrs. Willis was probably his niece.

According to Gray who was the only witness put upon the stand who had heard Haynes make any statement of the shooting, Haynes said just before his death, "I didn't shoot." The Winchester which was found near his body, upon examination, showed that that it had been recently discharged. A shell of the same calibre was found upon the ground near the deceased which also had been recently discharged.

According to the testimony yesterday Willis and Haynes had been constantly quarreling for the past two years. The last serious quarrel occurred some four weeks ago. None of the witnesses know whether the two men had quarreled the night or day previous to the shooting.

One year ago, Willis had Haynes arrested; about that time also Haynes assaulted William Barber—but nothing was done. It was hinted recently that the grand jury would look into the troublesome Mr. Haynes; but, again, nothing was done, and the killing of Haynes occurred the following day. Though Willis has always had the reputation of being a peaceable man, the killing has occasioned no surprise among those who live near him and were familiar with all the facts.

Col. Ed. Fletcher, president of the San Diego & Arizona Highway Association, received a telegram yesterday from the California Highway Commission at Sacramento, saying that the commission has officially adopted the El Centro and Holtville road to Yuma over the sand hills, as the state highway to the Arizona line.

OTTAWA, Canada—A bill has been introduced into the house of commons giving women nurses and all soldiers, whether 21 years old or not the right to vote. It is likely to pass.

HOW DID HE DO IT

HAZLETON, Pa.—Jacob Getski, an armless man, has been arrested for beating his wife. Mayor James Harvey is wondering how the wife will prove her charge when the case comes to trial.

Miss Yvonne Seldon Munroe was given a surprise party yesterday afternoon at the home of her parents, Mr. and Mrs. Squire Munroe, on Fourth avenue, it being the occasion of her four weeks' birthday.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
