The Great Pullman Car Boycott Begins.

Only Local Passenger Trains Running.

Railroad Companies are Standing by the Palace Coaches.

They Declare That if the Pullmans do not Move Neither Shall the Trains to Which They Belong.

By the Associated Press.

SAN FRANCISCO, June 27.—The American railway union men in the employ of the Southern Pacific have asserted their power. As a result of their attempt to enforce the Pullman boycott, passenger trains are tied up at every railroad center in the state. Save by local trains, there will be no passenger service at San Francisco or Oakland tonight and there is every indication that the tie up may be protracted.

An official of the Southern Pacific company declared this afternoon that his people had made up their minds that if they are not to be allowed to run Pullman coaches they will run no trains at all. Local officers of the American railway union declare that the Pullman coaches must be withdrawn and both sides seem to be prepared for a bitter and determined fight. The threat of the Southern Pacific management that if they cannot run Pullmans they will not run trains to which they are usually attached, may be explained in the fact that the Southern Pacific company owns a 75 per cent interest in all Pullman coaches running over its line.

Tied Up at Los Angeles.

LOS ANGELES, June 27.—The boycott by the American Railway union against the Pullman Palace Car company has reached this city and today all trains on the Southern Pacific and Santa Fe routes which hitherto pulled out with Pullman cars attached are tied up at their depots. The first evidence of the boycott was received when the switchmen refused to handle the Pullmans for the Santa Fe train which is scheduled to leave here overland at 7 a. m.

The boycott then became general and all except local trains are lying in the depots idle. The men positively refuse to handle trains with Pullmans attached and the railroad companies are fully as positive that they shall not leave without a complete train. No discharges have yet been made and the policy of the company is not yet known.

Telegraphed a Threat.

CHICAGO, June 27.—Vice-President Hrabhan, of the Illinois Central, telegraphed a bulletin today to be pasted upon all bulletin boards of the road from Chicago to New Orleans and Sioux City. He called attention to the situation in Chicago and gave the details of the company's contract with the Pullman company. He referred to the company's obligations to the public and concluded with an extract from the company's charter which relates to the prosecution and punishment of those who interfere with the company's property.

The Mails Must Go.

WASHINGTON, June 27.—The boycott waged against the Pullman company has not yet resulted in any delays of the mails. In the absence of the postmaster general, Assistant Postmaster General Jones says he anticipates no interference or interruptions from that cause.

Putting in New Men.

CINCINNATI, O., June 27.—Pullman cars were not moved in the Cincinnati, Hamilton & Dayton yards after 12 o'clock. The railway officials are securing new men and propose to replace all disobeying orders.

SUGAR BEETS.

The Experiment in This Valley Concluded.

Reason to Believe that Their Cultivation May Be Attended With Great Profit.

The sugar beets raised from the seed sent here last spring by Dick Gird of the famous Chino ranch have already matured. They are of great size and so far as can be judged without scientific means are rich in saccharine matter. County Fruit Tree Inspector Bettler will send samples back to Mr. Gird for examination on the receipt of the result of which he will make an official report upon the experiment.

The result of the experiment has apparently been very satisfactory. The seed was distributed among a large number of farmers and in every instance the yield has been enormous. It sometimes happens though that a sugar beet may be a sugar beet only in name. Under unfavorable conditions of soil and climate it may be lacking in that saccharine matter which alone renders it valuable.

The most unfavorable condition is cloudy or rainy weather and it fre-

quently happens that even a few days of cloudy weather will so affect the beet as to unfit it for purposes of sugar making. It has been found that the vegetable matures more rapidly in the Salt River valley than in any other locality in the United States in which it has been planted. It has been only three and a half months since the seed was planted and since then there has not been a cloudy day. Mr. Bettler believes that the analysis of beets raised here will show a maximum percentage of sugary matter so that the manufacture of sugar may be carried on here with greater profit than elsewhere.

PERSONAL.

Sheriff Murphy left last night for Tucson.

C. C. Carpenter was in town yesterday rustling business for the Santa Fe. Hugo Tausig, a veteran San Francisco wholesale liquor man, is in the city.

LOCAL BRIEFS.

License to marry was issued yesterday to Christian Stoller and Ella S. Skinner, both of this county.

The wife of a leading professional gentleman of Phoenix who went east last week saved \$27 by buying her ticket at the Sam Drachman agency.

Fred Cocker who returned to his Welch home a couple of months ago in serious ill health, is rapidly improving. He was so ill that when he sailed from New York that it was doubtful if he would survive the voyage. His friends are now hopeful of his entire recovery.

An attraction at Chandler's shoe store is a young wild cat brought from the neighborhood of Yuma. It is only five weeks old but nearly as large as a half grown house cat and is as playful as its domestic cousin. A young kitten yesterday strayed into the store and permanently friendly relations were immediately established.

The following transfers of real estate were yesterday entered for record: Charles Goldman and wife to the Maricopa Loan and Trust company, lot 5, block 41. Alma P. Spilbury and wife to John V. Spainhower, n. e. q., sec 30, tp 1 n., r 5 e., \$1,000. C. J. Beauvais to Frank Gilles, lots 3 and 5 in block 37, Linville addition, \$2,000. Jas. L. Patterson and others to Mesa City bank, southwest corner lot 2, block 5, Mesa, \$1,200.

Company I of Flagstaff and Company K of St. Johns had a competitive shoot at the former place last Friday. The result was awaited here with interest of the local company for the reason that members of the northern companies spoke disrespectfully of the performances here of Companies R and C on Memorial Day. Word was received from the north yesterday that Company K's total was 400, Company I 324. On Memorial Day Company B made a total of 408, C a total of 344. It has been suggested that the brethren from Flagstaff and St. Johns come to Phoenix and learn to shoot.

The Young Womens' Christian Association of this city have in course of preparation a program for an entertainment to be given by them, about the middle of July, that promises to be of great merit. The invitations will be limited to 500, and though it will be an invitation affair an admission of 50 cents will be charged. The program will consist of, in part, choice musical selections by the zither club and the young ladies' quartette; a fan and tambourine drill by fifty young ladies. Refreshments will be served during the evening, the whole to conclude with W. D. Howell's laughable farce entitled "The Mouse Trap." The young ladies are already rehearsing at Gardner's hall. Miss Gertie McMullen and Miss Daisy Randal have charge of the arrangements.

The reception held in the Salvation army tent last night to welcome the new commandant, Capt. Logsdon and her aid de camp, Cadet Thomas, was well attended. The usual services of song, testimonies and exhortations took place. A collection for the army brought in \$4.10. But when it was announced that a donation would be asked to help defray the expenses of Lieut. Maitland to California, where she had been ordered, why it was different, when it was intimated that she would have to walk, under her marching orders, if she did not procure a corruption fund to bribe the Southern Pacific company to carry her there. As she has been a familiar figure in the city for some time and has departed herself in keeping with her mission many really felt kind towards her and dug up \$8.00.

Talking Income Tax.

WASHINGTON, June 27.—The senate passed the bill providing for the time and place of holding United States court in the state of Washington. The debate on the income tax provisions was resumed.

Hill took the floor in support of Allison's amendment to exempt corporations having a capital stock under \$100,000. This would give small corporations the same benefits as exempted individuals. Vest said property and income should pay for government protection.

The Uintah and Ouray Reservations.

WASHINGTON, June 27.—A report on the condition of the Uintah and Ouray reservations in Utah by Inspector McCormack, says: "The Mexicans who work on a large portion of the land are squatters, who are very demoralizing and should be driven from the reservation by the general government." The Police, he says, are unreliable and the herders at Ouray can be dropped without detriment to the service.

The Armor Plate Investigation.

WASHINGTON, June 27.—Superintendent Kline continued his testimony today before the armor plate investigating committee. It was a brief corroboration of the details of yesterday's testimony and brought out nothing new.

No Expression of Regret.

SAN FRANCISCO, June 27.—An Italian mass meeting which nearly ended in a bloody riot was held in Garibaldi hall last evening, for the purpose of expressing regret at the assassination of Carnot. Bedlam broke loose when the chairman stated the object of the meeting. Cries of "Down with the French, Italia forever," broke forth. The speaker was cursed and only saved from the mob by the police.

The Matter Will Drop.

SAN FRANCISCO, June 27.—Joseph Colegaris, the Italian who was mobbed last night by his irate countrymen because he attempted to make a speech sympathizing with France in the death of President Carnot, today said that there would be no further attempt to hold mass meetings and that the matter would be allowed to drop.

"Sabe the Burro."

John E. Cocker unites with his other duties, that of correspondent to the Merthyr, (Wales) Times. A copy of the paper was yesterday received by him which contained a recent disquisition he had sent in. He had omitted his signature but the article closed with that inter-mountainism "sabe the burro?" Elsewhere the Times calls attention to "an interesting letter from our correspondent in Arizona, U. S. A., over the nom de plume, "Sabe the Burro."

The marriage of Mr. W. H. Robinson and Miss Grace Perley, recently announced in THE REPUBLICAN, was solemnized yesterday morning at the residence of the bride's parents, Judge and Mrs. Perley. Rev.
