TIGHT AS EVER.

The Railroad Strike Becomes Formidable.

All Is Dead on the S. P. and the Santa Fe.

The Rock Island the Last of Chicago's Roads, Engulfed.

Railroad Managers Are Determined to Concede Nothing to the Strikers.

By the Associated Press.

LOS ANGELES, June 29.—The strike is general throughout the Southern Pacific and Santa Fe systems. No trains, local or overland, have left here today. The only wheels that turned today were on the Terminal, which is strictly a local road.

Tied-Up Local Trains.

WEST OAKLAND, Cal., June 29.—At 5 p. m., the railway tie-up is as tight as ever and the only trains running on this side of the bay are one local running to Oakland and a narrow gauge train to the same point. The A. R. U. tried hard to stop these trains and managed to tie-up the narrow gauge train for an hour.

One man, a fireman, quit work but another man was found to take his place and traffic was resumed. One train on the broad gauge was operated by a regular engineer and a tug boat fireman.

Will Fight It Hard.

CHICAGO, June 29.—After the meeting of the General Managers' association, General Manager Earling of the C. M. & St. P., said they proposed to pursue an aggressive policy. "It was determined at the outset," said Mr. Earling, "that we would have to fight this strike. All the roads represented have determined to secure men to take the places of those who have struck. New men are being employed now and they will be put to work under ample protection."

to Pinkerton Men Yet.

FORT WAYNE, Ind., June 29.—The Alton and the Burlington roads reported that some of their men had struck since last night. The shops at Milwaukee were closed today owing to the present trouble. There is no truth in the rumor that Pinkerton men have been employed by the railroads to protect property and employees.

Advised to Stick to Business.

SAN FRANCISCO, June 28.—M. V. Stafford, general chairman of the Pacific division of the order of railway conductors and C. E. Swayn, general chairman of the Pacific division of the brotherhood of railway trainmen, issued bulletins this afternoon deploring the strike on the Southern Pacific system and advising the members of these orders to retain their positions and attend to their own duties regardless of the A. R. U. strike.

The Embarrassing Mail Problem.

SAN FRANCISCO, June 29.—At United States postal headquarters here it was announced this evening that arrangements had been made to forward mails for Sacramento, Napa and Stockton on river steamers. So far no steps have been taken to send mails to the north and south coast points on ocean steamers.

The Rock Island Goes Out.

CHICAGO, June 29.—The Rock Island road, which is about the only one in Chicago to have escaped thus far, will be by tomorrow morning tied up. It is said an order to that effect was issued today by President Debs.

The Reliable Dummy Motor.

COLTON, Cal., June 29.—The motor road running to Riverside and San Bernardino is the only connection Colton has with the outside world, except the telegraph. The motor carries mail and express between these points.

Complete at Portland.

PORTLAND, Ore., June 29.—The tie-up here is complete. Neither the Southern Pacific nor the Northern Pacific took out trains tonight.

ARMOR PLATE INVESTIGATION.

The Care Exercised by Naval Experts.

WASHINGTON, June 29.—Superintendent Corey of the Carnegie armor plate shops, resumed his testimony today before the congressional investigating committee.

He was questioned regarding the care which officers from the navy department gave to the inspection of armor work at the shops. He said one and some times two officers came to the shop every day except on Sunday. They rarely came at night until after the investigation began.

HE MAY BE SAVED.

State Experts Believe that Prendergast is Insane.

CHICAGO, June 29.—The proceedings in the Prendergast trial were interrupted several times today by outbreaks of the prisoner and finally the court was compelled to send him back to his cell.

Several expert witnesses were called by the state and testified that they considered Prendergast insane.

LOCAL BRIEFS.

Clay Leonard's ice cream soda is making a big hit. He has some of the largest apricots on hand that have yet been brought in.

The customers of R. M. Dameron's grocery store at the Five Points have no difficulty in getting just what they want and always of prime quality.

The attractions at Phoenix park are becoming more and more numerous. Not the least among them is the delicious ice cream served by Caterer Dennis beneath the refreshing shade.

There's an interregnum in the office of dog catcher. It is being employed by the owners of canines in the removal of the formal and useless straps which are legally supposed to be muzzles.

The effect of the Pullman boycott because perceptible here yesterday. Neither of the Southern Pacific through trains passed Maricopa on Thursday night. There were neither mails nor passengers yesterday.

The following transfers of real estate were yesterday entered for record: Frank Gillis to Rachel Burk, warranty deed to lots 3 and 5, block 37, \$1,200. Mary C. Graham and Louis Graham to W. J. Murphy, w 1/2, ne 1/4, nw 1/4, sec 1, tp 1 n, r 4 e.

There were never fewer lawyers in Phoenix since courts were established. For several days there has been a steady movement of lawyers toward Prescott where the itinerant supreme court is in session. Less than half a dozen attorneys are now in town.

C. F. Barteaux is a recent arrival at the county jail. He was brought down from Tempe at the suggestion of Justice Austin. Barteaux's habit of getting drunk and appearing in public with scanty apparel was adjudged to be demoralizing to the people of Tempe.

The entertainment given last night by the I. O. G. T. at Y. M. C. A. hall was a very pleasant affair. The performance of Mrs. Coolie, the elocutionist, and the young ladies' quartette were interesting incidents of the program. During the evening ice cream and cake were served.

The entire block on the north side of Washington street between Second and Third will soon be provided with an artificial stone sidewalk. The walk in front of the Gardiner property is completed and that in front of the property owned by J. T. Dennis and Dr. Prowell is being laid.

The regular semi-annual civil service examination for the postoffice carriers and clerks will be held in this city on Saturday, August 11. All citizens of the United States are eligible. Application must be filed with Secretary Pierce on or before Monday, July 23. Those desiring blanks and information should apply at the postoffice.

On account of the numerous and recent scraps involving that feature known as the gun-play, the sheriff and his deputies have decided to rigidly enforce the law against carrying concealed weapons. Huze placards bearing a copy of the law have been posted in saloons and other conspicuous places in which they are likely to come under the notice of gentlemen who imagine that personal safety is secured only by loading themselves down with destructive weapons.

A pleasant surprise party was given Mrs. Hugh Monroe last night at the family residence three miles northeast of Phoenix. The affair was managed by the neighbors assisted by Misses Pierson and Henderson, two Nogales young ladies and by Miss Grace Monroe. The grounds about the house were brilliantly lighted. Croquet was a means of outdoor amusement and music and dancing were enjoyed in doors. About thirty Phoenix people were present. Mr. and Mrs. Monroe have lately come from Nogales where Mr. Monroe was engaged in railroading.

Attention is called to the advertisement of Mr. Ben Dettmer elsewhere in this issue. Mr. Dettmer has been a caterer for years and has determined to open in Phoenix the Louvre, a first class establishment, which he will run on metropolitan lines. The gardens are located on the southwest corner of First and Van Buren streets and are to be formally opened on July 4. It is the intention of Mr. Dettmer to furnish his patrons with a cool and delightful garden where they can procure mixed and fancy drinks of all kinds. Beer on draught, ice cream and lunches. The kitchen will be in the hands of a competent white chef and meals of any description will be furnished on notice. The gardens will be conducted in the most orderly manner and nothing rude or boisterous allowed, so that no one need fear to visit them with their families. This venture fills a want in the community that is unprovided for and should receive, as no doubt it will, a liberal patronage.

PERSONAL.

G. A. Kirtley left last night for Fort Grant.

Judge Israel was among the number of lawyers who left for the north yesterday.

Geo. H. Waterbury of Denver, post-office inspector, arrived in the city yesterday on official business.

G. H. Beckwith of Topeka, Kan., and J. M. Stoner and wife, Glendale, are registered at the Lemon hotel.

Hon. S. M. Franklin of Tucson passed through town yesterday on his way to Prescott to attend supreme court.

Thos. E. Farish and E. H. Winters returned yesterday from a week's trip among northern mining properties.

Commercial hotel guests yesterday were A. T. Wislorn and S. M. Franklin, Tucson; G. Krouch, Larned, Kan.; J. W. Allen, Pratt; T. E. Farish, Vulture.

Dr. Price's Cream Baking Powder Most Perfect Made.

IT WAS SHEOL.

A Case of Mistaken Geographical Identity.

The Fearful Surprise of a Nymph du Pavé

Who was Surreptitiously Moved Upon Block 41.

The Hagira from the Ex-Tenderloin District to the New Reservation.

Phoenix is the only city in the United States to which the great Pullman boycott with the consequent general railroad strike and its inconvenient incidents, may be considered a blessing. The strike is exceedingly opportune. It is of course a subject of regret that the rest of the country is annoyed and that ruin and disaster are threatened, but Phoenix is in no shape to receive visitors and the fates have determined that none shall come.

The fact is that Phoenix is an undesirable as to her front gates. "Block No. 41" is frowzy and ragged, in a state of transition. The prostitutes must be on that reservation by July 1 and between that date and the date on which the city council finally decided that they must go, they have really not had a great deal of time for moving but they are working night and day now to have everything in readiness and to enable the city to present a respectable appearance against the close of the strike.

Beside the great brick barracks-like structure especially designated for them the western half of the block is covered with frame houses set without reference to the points of the compass or to each other; they look as if they had fallen from heaven, but on second thought heaven had nothing to do with it. They were brought from the ex-tenderloin district and were unceremoniously dumped, to be arranged at leisure after July 1.

Most of these building belong to Mr. C. J. Beauvais, who owned them when they were in Linville addition. He is an accommodating landlord. When the council decreed that prostitution in Phoenix must be shifted Mr. Beauvais decided to shift not that he inferred that the council was aiming at him. But he determined to retain his tenants if he had to move with them.

The moving has been done principally by heavy truck wagons but when buildings have been unusually large and cumbersome trucks and rollers were employed. The agility with which the moving has been carried on is surprising.

It is related that in one instance the transition was so sudden that one prostitute was installed on "block No. 41" before she could say "scat." It happened in this way: On Thursday night this particular girl had a gay time. From gaiety she passed into a stupor, and when Mr. Beauvais returned flushed and victorious after the exercise of his "pull" with the council he decided to move that building. The slumbers of the occupant were undisturbed by the elevation of the house upon a truck wagon and by the subsequent creaking journey. Neither was she awakened when the house was somewhat roughly deposited at its destination. She slept on until late yesterday forenoon and when she awoke and looked out of the window she feared that no time had been given her for repentance. She had always intended to be a better girl some time, but alas, "Block No. 41" is paved with good intentions.

At length a friend dropped in. "How do you like the city reservation?" he asked. "Oh this is block No. 41, is it?" she replied and added with a sigh of relief, a very little relief, "I thought it was something else, but as long as it ain't hell I don't have to stay. I've got another show for my white alley."

But her things were all there and she staid.

HURTS IN TWO WAYS.

The Probable Effect of Thursday Night's Work.

The effect of the turning down of the Masten franchise is likely to be an active as well as a passive disaster to Phoenix. The plan regarding the road on the south side has been changed and preparation is being made to carry it into effect at once. The plan is to construct the line between Tempe and Mesa and run it entirely independently, so far as Phoenix is concerned, of the Maricopa & Phoenix. That is, only the regular trains between Maricopa and Phoenix running as they do now will reach here. A different and more frequent service will be conducted on the south side so that either Tempe or Mesa will become a rival of Phoenix for the growing business on the south side and Goldfield. Mesa will become the natural entrepot for all supplies for the big mining camp.

There are now three carloads of rails at Maricopa for the new line and it is intended to begin work on it shortly. The accommodation train between Phoenix and Tempe has been ordered off, the order to go into effect tomorrow.

MRS. BURY'S KINDERGARTEN.

Close of the Term of a Favorite Preliminary School.

Yesterday was the last day of the term of Mrs. Helen Bury's Kindergarten school. It would have been impossible to have continued the session

so far into the heated season were it not for the peculiar natural advantages which surround the school. These were revealed yesterday afternoon when Mrs. Bury was discovered seated in a rocker upon the bright grassy lawn under the dense shade of friendly trees and surrounded like Plato of old by her little swarm of academicians. Their knowledge of capital cities, largest cities and principal rivers of all the states of the union was, considering the tender years, wonderfully accurate. Especially gratifying was the information possessed by them of the location and resources of the counties of Arizona.

This year there were two scholars who had merited the annual prize of a gold pen with which Mrs. Bury never fails to reward the most deserving scholar. So handsome gold pens were given to both Master Francis Shaw and Master Colin Bury.

AZOFF MUST HANG.

The Murder of Len Harris to Be Avenged.

SANTA CRUZ, Cal., June 29.—The jury in the trial of Azoff for the murder of Detective Len Harris on May 17 last was out one hour and twenty minutes and returned with a verdict of murder in the first degree and fixed the penalty at death. Sentence will be passed on Tuesday.
