WHAT IS IT?

If the Strike is not a Success on the Coast,

Strikers Want to Know What to Call It.

The Blockade Nearly as Complete as at the Beginning.

Strikers Subpoena the Switchmen From Sacramento and Tie the Railroads Up.

By the Associated Press.

SAN FRANCISCO, July 18.—The strikers' view of the situation in northern California was tersely given today by one of the strike leaders in Oakland. "Under ordinary conditions," he said, "eighteen or twenty freight trains are dispatched from Oakland daily. During the past few days the company has sent out five freight trains. If this is running the road then we are beaten." It is apparently the scarcity of competent train men that is troubling the railroad officials. In Sacramento almost the same condition prevails. One hundred and fifty workmen were induced to go back into the shops there this morning. The methods prevailing in Oakland were adopted and the men were escorted to and from the railroad shops by a troop of cavalry. The strikers made no attempt to interfere. The railroad company has still to guard against violence and treachery however. This morning a track walker just west of Sacramento discovered that the fish plates had been removed from over 100 yards of track. Troops have been sent to Truckee, as the strikers there are in an ugly mood. The preliminary examination of Knox and Worden, accused of murder in having wrecked a train a week ago, commenced today in Woodland. The strikers attorney summoned as witnesses two switchmen, who were the only ones in the Sacramento yards, thus compelling the company to abandon several trains out of Sacramento. In reply to the strike leaders' offer to furnish men to act as deputy marshals in protecting the railroad company's property, United States Marshal Baldwin said the best service the men could render themselves, their wives and their children was to refrain from unlawful acts and allow others to enjoy their property without dictation. In conclusion he said: "When you refrain from committing unlawful acts there will be no occasion for the presence of the military or deputy marshals."

CLAIM A VICTORY.

Strikers Say the S. P. Has Surrendered.

At Any Rate the Train Service Out of Sacramento has Been Annulled.

By the Associated Press.

WEST OAKLAND, July 18.—The following dispatch from Sacramento has been posted by the A. R. U. strike committee: "Killmore has agreed to take back all the men without prejudice. The company could not withdraw the Pullmans without incurring a law suit. All trains annulled until further notice. "Signed, J. H. Douglass."

The last part of the dispatch greatly pleased the strikers here who interpreted it to mean an unconditional surrender on the part of the Southern Pacific. They say that pending the settlement of the question at issue between Pullman and the Southern Pacific company no trains will be run out of Sacramento.

The strikers are evidently a little premature in their opinions. According to railroad officials the trains were simply annulled today because by a trick of the strikers, the switchmen at work were called to Woodland as witnesses in the case against the men charged with train wrecking.

THE NOBLE THREE HUNDRED. A Hero of Balaklava Existing in Penury.

LONDON, July 18.—The attention of parliament has been called to the fact that there is now living in Dublin an old Irish soldier named Donovan who rode in the Balaklava charge in the Crimean war, and who has only one dollar and a quarter a week upon which to support his wife and himself. He is eighty years old and his sight has failed and consequently he is in no position to help himself. The war department has replied that Donovan is receiving a pension of twenty-five cents a day and that this is the largest that can be granted by the royal warrant under which he served.

WHO BURNED THE CARS?

The Strikers Accuse the Railroad Managers.

CHICAGO, July 18.—Howard, vice-president of the A. R. U. made the following statement at the jail today: "This is going to be a test case. We don't consider ourselves nor the railroads bigger than the law. The case will not be one-sided. We have a letter giving evidence that the freight car burning done in Chicago was the work of hirelings of the general managers

association. We further have pretty positive evidence that the big man who led the mob at Blue Island was a Pinkerton man employed by the railroads."

SILVER COINAGE BEGINS.

Instructions Issued by Director Preston of the Mint.

PHILADELPHIA, Pa., July 18.—Mr. Preston, director of the mint, today issued orders to the mint authorities at San Francisco and New Orleans to begin at once the coinage of silver dollars up to the ordinary capacities of the mints. The silver to be first coined will be blanks and ingots of which there is sufficient to coin about \$15,000,000 at these mints and at Philadelphia. As soon as the supply is exhausted work will begin on silver bars of which there is a year's supply at San Francisco and New Orleans and probably five years' supply at Philadelphia.

Striking Longshoremen.

OSWEGO, July 18.—Resting longshoremen entered the houses of non-union men during the night and brutally beat them and their wives. They threatened to hang any non-union man who should unload barges today. The militia is now protecting property at the barges and preventing the approach of longshoremen.

Buckeye Barristers.

TOLEDO, O., July 18.—The morning boats to Put-in-Bay Island carried a large number of representative lawyers of the state, who will take part in the 15th annual meeting of the Ohio Bar association, which opens this afternoon at Beebe hall. Hon. J. W. Harrison will preside, and Gov. McKinley is scheduled to make an address of welcome. Hon. Randolph Tucker of Virginia, is a guest of the convention and will address it on the subject of constitutional law.

Strikers on Bail.

OGDEN, July 18.—About fifty strikers who are now indicted by the grand jury charged with interfering with United States mails were before Judge Miner today and all pleaded not guilty to the charge. They were released on bonds ranging from \$300 to \$1,000.

LOCAL BRIEFS.

Pompa Vasquez, one of the south side agitators, was acquitted yesterday of a charge of peace disturbance.

The July number of the Irrigation Age, contains an able article by Capt. W. A. Hancock, on "The Law of Water Ownership." The article is supported by copious notes from supreme court decisions within the irrigation belt.

The following transfers of real estate were yesterday entered for record: Jesse H. Root and wife to Romeo Root se 1/4, sec 20, twp 1 n, r 6 e, \$750. Enoch Hadden et. als. to Daniel Batin an individual half interest lot 11, block 49, \$3,000.

Articles of incorporation of the Arizona and New Mexico Live Stock Land and Investment company were filed yesterday in the recorder's office. The incorporators are J. F. Dags, J. A. Dines, R. E. Dags and Melvin Jackson. The capital stock is \$50,000, divided into shares of \$100 each. The objects of the incorporation are indicated in the title. The principal place of business is Phoenix.

The board of supervisors sitting as a board of equalization, heard objections yesterday to the revised assessment roll. The changes this year have been less extensive than usual. The supervisors also changed the boundary line between school districts 20 and 13 to conform to an earlier and partially recognized description of it, which differs from the apparent boundary line described by the map. The discrepancy gave rise to a dispute at the last school election in one of the districts.

Geo. B. Perkins and John Baggione yesterday sold to the W. C. T. U. of Phoenix a plot of ground 60x90 feet at the corner of Center and Monroe streets and fronting Center, for a cash consideration of \$6,000. The purchasers will immediately cover the whole property with a handsome two-story brick building for business and W. C. T. U. purposes. Messrs. Perkins and Baggione as a further consideration reserved the right to erect, just north of and adjoining the W. C. T. U. property, a two-story brick 50x90 feet in dimensions. The transaction is favorably commented upon by business men in general as being an excellent investment as regards price and location.

AN OUTRAGEOUS ACCUSATION.

A Charge Against a Young Girl Placed in the Lion's Mouth.

A complaint was made in police court against a girl named Frankie, living in the vicinity of the depot, charging her with occupying a house for immoral purposes. She was brought into court but her accusers failed to appear and could not be found. The girl was not recognized as a member of the demi monde and an investigation of her case showed that she was living with her parents. It was also shown that her reputation was not bad.

A Hay Ride Party.

John Burger gave a party of his friends a pleasant hay ride on Tuesday night. The party left town about 8 o'clock and drove to the Mesquite school house three miles west of town. The night, or the early part of it, was spent in dancing. Choice refreshments were served. The members of the party were: Misses Burger, McCullough, Kurtz, Wilson, L. Rembert, R. Rembert, Kahrs, Miller, Brawley and Hutchinson. Messrs. Burger, Belden, Stewart, Fleming, McCullough, Fitzpatrick, Branch, Kahrs, Monihon, Sutherland, Dudenhoff, Vaughn and Buckley.

GATHERING IN.

Territories on the way to Statehood.

New Mexico and Arizona on the Horizon.

Both Bills Will be Favorably Reported to the Senate.

The Territorial Area of the United States Narrowing Down to Oklahoma.

By the Associated Press.

WASHINGTON, July 18.—The senate committee on territories today decided to recommend the admission of Arizona and New Mexico as states and instructed the committee having the bills in charge to make a favorable report.

Amendments will be recommended to both bills similar to that of the Utah bill requiring a new constitutional convention. The convention is fixed for March next and the constitution then adopted to be submitted to the people of the territories for ratification in the November following.

Both bills will likely be reported this week, and as there is a lull in business in the senate they will be quickly passed and returned to the house for concurrence in the amendments.

The president's approval has been assured. It appears therefore, that at the close of the present session, the only territorial area in the United States for which no provision for admission will have been made, will be confined within the narrow boundaries of the new territory of Oklahoma.

DOLOROUS HOGG

Utters Predictions of Early and Dire Disasters.

He Foresees the Vitals of Chicago Citizens Employed as Architectural Ornaments.

By the Associated Press.

AUSTIN, Tex., July 18.—The officers of the state militia today presented Governor Hogg with a gold watch. In response the Governor predicted that within six weeks martial law would be declared in California, Kansas, Colorado and Illinois, and that the anarchists of Chicago would use dynamite and spatter the lofty building of the city with the hearts, lungs and livers of citizens.

He said that President Cleveland's act, ordering the troops there, was an invasion of state rights. He predicts a great revolution soon, unless a foreign war diverts attention from national dissatisfaction.

PERSONAL.

EX-Governor Wolfley and Hon. Jos. C. Perry returned to Tucson last night. Chas. Ingalls, of Boston, Mass., representing the W. L. Douglas Shoe company, is in the city. He is a brother of ex-Senator Ingalls of Kansas.

OUT OF CONTEMPT.

The Editor of the Republican Pays a \$300 Fine.

The trial of T. J. Wolfley, editor of THE REPUBLICAN, for contempt of court, began yesterday morning at 9 o'clock. The defendant was represented by his attorneys Messrs. Kibbey and Perry, and the court by Attorney Chalmers. The testimony on behalf of the court, was furnished chiefly by employees of THE REPUBLICAN, who were examined as to the authorship of the objectionable article. This feature of the prosecution was, however, more directly disposed of by the testimony of Mr. Wolfley himself, who unhesitatingly admitted the authorship.

The only testimony offered by the defense was a disclaimer already published, of any intention to impede or embarrass the court. The defendant himself took the stand and further explained the purpose and meaning of the editorial to which the court objected.

The arguments were brief, consisting on the part of the defense, of the theory that the criticism contained in THE REPUBLICAN editorial related to a part of the proceedings in court already passed upon and decided, and further that the disclaimer had purged the defendant of any constructive contempt. Judgment was passed upon the defendant and the case was adjourned until half past five.

The sentence of the court at that time was that the defendant should pay a fine of \$300. The money was paid and, barring the effect of the recent great railroad strike the country stands in the same prosperous condition of a month ago.

WHITECAP OUTRAGES.

Their Victims Shot, Whipped and Ordered Away.

COLUMBUS, Ind., July 18.—Whitecapers in Brown county have terribly beaten Perry E. Bloomfield, his wife and father and three brothers and their wives.

The youngest brother, Stephen, attempted to escape but was shot through
