Men, Mothers and Boys.

Men like to buy at Goldberg Bros. because they always find an assortment of what they need whether it be a pair of overalls or a fine suit there is always an amply supply of the desired size to select from.

Mothers prefer to trade at Goldberg Bros. because they are always sure of being waited upon by polite attentive salesmen who understand their business, know their stock and how to satisfy the mothers.

Boys say Goldberg Bros. is their favorite because suits bought there wear well and look well, shoes fit and last, and their parents always leave the store in a happy frame of mind pleased with price and quality.

A MAN HUNT.

Bandits Lake and Gordon Captured

After a Desperate Battle With Police.

They Fight Until Their Ammunition Is Exhausted.

The Murderers of Conductor Owens and Officer McGrath Narrowly Escape Lynching.

By the Associated Press.

CHICAGO, Aug. 25.—Two desperadoes, Will Lake and H. F. Gordon, who shot and killed Pat Owens of the Chicago, Milwaukee & St. Paul railroad at Deerfield last night, and a few hours later shot and probably mortally wounded Officer McGrath at Mayfair, were surrounded and captured by the police in Elk Grove woods near Desplaines river at noon today.

The wanton murder of Owens and the shooting of McGrath by these disciples of Jesse James stirred up the entire community from Deerfield to the city hall and not long after the report that McGrath had been shot at Mayfair came in, a genuine man hunt was seen.

Special officers in the employ of the railroads, the city police and a central detail of detectives armed with revolvers and Winchester rifles hurried by train to the place where the bandits were supposed to have taken to the woods, and the scouting parties followed every trail that promised to lead to the hiding place of the murdering train robbers.

Citizens in the neighborhood of the Higgins woods, near Desplaines, piloted bands of armed men across the country and the determined officers with countrymen for guides searched untiringly until the capture was effected.

The arrest was preceded by a veritable battle. The robbers were well armed and when a call from the scouting party revealed their whereabouts they made a determined stand. Cocking their revolvers the two men waited until their pursuers were in view and then opened fire. It was returned by the officers and volley after volley was exchanged apparently without effect.

It is probable the men would never have been taken alive had it not been that their supply of ammunition was short. As their stock of cartridges dwindled away the desperadoes shot more carefully and less frequently, but the officers kept themselves well covered until at last the men's bullets were exhausted. The officers called upon them to surrender but without noticing the command the fugitives turned and began a frantic race for safety. The chase continued until Lake, who was in the lead, was struck by a bullet. Throwing up his hands he turned partially around and fell and a moment later his companion dropped seriously wounded. The pursuers quickly closed in on the fallen men and hand cuffed them.

Within a few moments the prisoners were carried towards the railroad station and were soon brought into the city and locked in the West Chicago avenue police station.

Lake, who is 24 years old, was shot in the neck and his recovery is doubtful. He admitted shooting Owens and McGrath. The conductor's watch and other stolen valuables were found upon the men. Gordon is 24 years old. He was not dangerously wounded, although two bullets had struck him.

The men refused to give any information regarding their identity, but their appearance indicates that both were tough characters.

Block Coal Miners Organize.

BRAZIL, Ind., Aug. 25.—The block coal miners of this district in secret session last night perfected a local organization called the district block coal association of miners. This order is separate and distinct from the United Mine Workers of America and will settle all trouble in the block coal field without recognizing the old orders.

THE WORK IS DONE.

Close of the California Democratic Convention.

It Ends as It Began With an Arraignment of the Pacific Railroads.

By the Associated Press.

SAN FRANCISCO, Aug. 25.—The Democratic state convention adjourned today after making the nominations left over from yesterday. Dwight M. Angier, of Sacramento, was nominated for surveyor general over Harrison Smith.

On the third ballot C. S. Smith, of Hollister, was nominated superintendent of public instruction. The fifth congressional district nominated Joseph P. Kelley, of San Francisco, for congress. The second equalization district nominated Thomas Wills of Alameda, for clerk of the supreme court. John J. Currie was nominated for state printer. The convention then confirmed the nominees by the district commission for congress, state board of equalization and board of rail-

road commissioners, and adjourned sine die.

Chairman Del Valle was thanked by a rising vote and three cheers. He made a partisan speech, congratulating the convention on the fine work and the platform and severely arraigning the Southern Pacific. Kennedy, of San Diego, eulogized Cleveland.

LOCAL BRIEFS.

Choice roasts at Tribolet's.

Phoenix epicures and connoisseurs get their table claret of Hans Herlick. License to marry was issued yesterday to Fred Oberman and Etta A. Gray.

Hans Herlick is master of the trade of keeping beer at just the proper temperature.

Wade H. Hulings yesterday bought of M. E. Collins three lots in Capitol addition for \$700.

The new Capitol Bazaar in the Monihon block is daily adding stock. Cheap crockery is the latest.

Dr. Keefer, of the Opera House drug store, seems to have a train load of sponges and oh, how cheap!

S. J. Tribolet is not in the spud or vegetable business, but when it comes to choice meats he is right there.

Cool breezes fan the fevered brow of sensible swains and wise virgins who ride upon the electric cars to Phoenix park.

The ladies never fail to find some handy, useful household article at the cheap Novelty store which they cannot resist.

The beautiful exhibit of Mexican sea shells continues at the old Candy Kitchen to attract lovers of the rare and curious.

The owner of the circulating library at the corner of First avenue and Jefferson street desires to sell before September 1. Price low.

Mrs. Mattie Singleton yesterday caused the arrest of Eva St. Claire on a charge of a disturbance of the peace and a volubility of improper language.

Work will begin in a few days on the W. C. T. U. building at the corner of Monroe and First streets. The corner stone will be laid with religious ceremony.

The brick and adobe property on the corner of First and Adams streets was sold yesterday for \$8,000 by J. W. Walker and George Wilson to D. J. Edwards. It is tenanted by Chinese.

There will be a hack at Center street church this morning at 8:30 to take any Sunday school children who may be there to the camp ground where the Sunday school will be held at 9 o'clock.

Louis Melser received yesterday the first full carload of sweet wine and the first full size 175-gallon puncheons, ten of them, ever brought to Arizona. The value of the lot is \$3,000. Judges of wine are invited to call and sample.

F. L. Brill yesterday bought of N. Marshall, through the Morrill agency, a lot on North Second street. Mr. Brill is one of those keen dealers who believe that the proper time to invest in real estate is slightly in advance of a boom.

John Lyon, a well known miner, died at the Congress mine of a quick fever on Thursday night. He leaves a wife and two children living north of the city. The deceased was a brother-in-law of Robert Hanna. He was for a long time foreman at the Vulture before that famous mine closed down in 1889.

A farewell party was given by the W. C. T. U. to Mrs. G. W. Ingalls at the residence of Mrs. Sturgis on Friday night. The grounds were handsomely decorated and lighted by Chinese lanterns. Sumptuous refreshments were served. The party closed with hearty expressions of good will to Mrs. Ingalls, who will shortly leave for Portland, Ore.

The coming week will hum with politics. The Democratic county convention will be held on Tuesday. Before the smoke and dissatisfaction have lifted from the battlefield the Populists will convene. This will be next Saturday. On the Tuesday following the Republicans will quietly get together and nominate a ticket which will make Democrats and Populists wish they had never held conventions.

Democratic wire-pullers and crafty manipulators are actively engaged working delegates that have arrived in town. From hints dropped it would seem that Orme and Rosson are nip and tuck for the sheriff's office and that Frank Trott will be honored with the surveyorship nomination. Who will receive the probate judge plum is not yet settled as many believe a dark horse will be trotted in.

The following transfers of real estate were yesterday entered for record: John McGoff to Mary Stutz, nee, sec 7, and w¹/₂, nw¹/₄, sec 8, tp 4 s, r 4 e, \$300. Maricopa Loan and Trust company to F. L. Brill, lot 27, Norma place, \$1,400. Frederick Thomas and wife to William Christy, lots 5, 7, 9, 11, 13, 15 and 17, block 27, Grand Avenue addition, \$1,000. Arthur H. McEwen and wife to Sannel A. Dysart, lots 22 and 24, block "N," University addition, and w¹/₂, sw¹/₄, sec 5, tp 1 n, r 1 e, \$2,400.

Dr. Kirby, a physician lately arrived from the east, took offices in the Young block lately occupied by Dr. Norton, fitted them up very elaborately and at great expense and prepared to settle down to the enjoyment of a lucrative practice. One day last week his wife arrived. It was one of those sultry days the like of which no Arizonian had ever experienced. Mrs. Kirby did not get acclimated that day and for that matter, neither did anybody else. She presented a motion for a change of venue and the doctor allowed it. He has dismantled his office and is preparing to move.

The Tariff Bill Remains With Cleveland.

Only One More Day in Which to Act Upon It.

It is Believed it will Become a Law by Lapse of Time.

The Appropriation Bill for Carrying the Income Tax Feature Into Effect is Passed.

By the Associated Press.

WASHINGTON, Aug. 25.—By neither word nor sign has the president indicated his course with regard to the tariff bill. Without his approval it will become a law at 12 o'clock tomorrow night, the expiration of the constitutional limit of ten days, not counting the two intervening Sundays.

The fact that nothing has been heard from the White House today is regarded as a sign that Cleveland will take no action on the bill, notwithstanding he has one more day in which to act.

It was feared by friends of the bill that the numerous errors disclosed in it and which render some portions of it ambiguous, if not actually unintelligible, would furnish him with a pretext for stamping it with his disapproval.

THE COST OF COLLECTION.

The Appropriation for Gathering the Income Tax Made.

WASHINGTON, Aug. 25.—While the senate was considering business behind closed doors yesterday, there slipped through an important bill appropriating \$9,000,000 to carry into effect the income tax provision of the tariff bill which has been held up under objection for a few days.

This ends all controversy as to the preliminary arrangements for collecting the income tax.

THE VIPERS' NESTS.

Discovery of Headquarters of German Anarchists.

BERLIN, Aug. 25.—The National Zeitung today announced the discovery of a list of addresses of fourteen secret headquarters of anarchists, including places at Bremen, Lubeck, Metz, Halle, Hamburg and Weisbaden.

From these headquarters it appears the operations of anarchists throughout the German Empire were conducted.

An Indian Messiah.

VALLES, State of Potosi, Aug. 25.—There is much excitement at Abuguenos over the appearance of a young Indian who claims to be the second Messiah. He performs remarkable cures and the ignorant are flocking to him by hundreds.

FRENCHY'S DEATH.

The End of the Hermit of the Cemetery.

The decomposed body of "Frenchy," a character of Phoenix for the past fifteen years, was discovered yesterday morning in a hovel near the cemetery. When and how he died no one knows. The body was undressed and lay on the ground near the foot of a cot on which he slept. A mass of caked blood indicated a profuse hemorrhage as the probably direct cause of death. Vermin crawled over the face and a horrible stench poisoned the atmosphere.

Justice Johnstone summoned a coroner's jury consisting of Andrew Barry, James Rennie, Harry Chambers, T. W. Allen, J. F. Meador, J. P. King, J. B. George and Dos Ray.

After the body had been formally viewed it was buried in the potter's field and the inquest adjourned until tomorrow morning.

Little is known of the dead man's life. His real name was Geo. W. Spences and he was about sixty years old and served through the war on the confederate side. He was given to vagrancy and dissipation but he was an inoffensive character. During the last year he has lived almost continuously in the roofless hovel in which he died. He made a pitiful attempt to raise a supply of vegetables sufficient for his needs.

A Frightened Team.

Mr. J. J. Badilla, a ranchman living north of the city, complains of a free and easy custom in vogue among hunters. A few days ago he was in town and started home on the Cave Creek road. On the bridge over the town ditch he met a couple of young men with a gun, which they discharged. Mr. Badilla's horses took fright and ran away. He saw the uselessness of trying to stop them so he resigned himself to fate and the bottom of the wagon and expected that the outfit would be dashed to pieces among the cottonwood trees which line the road. Fortunately the team was brought up among a lot of mesquites and no harm was done. This is the second occurrence of the kind within Mr. Badilla's experience.

The new Lamson Academy and Business college open Sept. 3. Boarders accommodated.

The Pacific Grotto company are compelled to admit the fact that with their present accommodations, they are obliged to turn crowds of people away from their restaurant every day, and that for several hours each day, people can be found there waiting for seats. These facts they have advertised for some time. But they will soon have more room, the plans for their building are already drawn. In the meantime, every possible effort is being made to accommodate the patrons of the place. The highest prices are being paid for the fastest and most competent waiters and cooks. The proprietors are always in attendance to look after the wants of the people and everything goes to show that the Pacific Grotto is doing everything in its power to accommodate an immense trade with its present limited seating capacity.
