A MOUNTAIN IS BURNING.

A Lofty Peak of the Cascades on Fire.

Mount Tacoma Sends Forth Smoke and Lava.

Excitement Throughout All the Puget Sound Country.

Thousands of People on the Streets of Seattle Ninety Miles Distant Witness the Wonderful Phenomena.

By the Associated Press. SEATTLE, Wash., Nov. 21.—Great excitement has been caused throughout the Puget Sound country by what is looked upon by many as an eruption of Mount Tacoma or Rainier, 14,444 feet high, and one of the loftiest peaks in the United States.

The mountain has certainly been strangely transformed. The crest of the great monarch of the Cascades has changed, the cone having fallen in and steam can be seen rising from the crater. There is no eruption, it is believed by those most competent to judge, but great masses of rock seem to have fallen. The snow capped cone has disappeared and a sharp pointed peak has risen in its place to the east of the crater.

The changed appearance of the moun-

tain is evident from the streets of Seattle, ninety miles distant, and thousands of people have watched the great peak all afternoon. But few people have ever ascended the mountain and at this season of the year ascension is an absolute impossibility. So there is no way of making a thorough investigation of the phenomenon.

HATCH IDENTIFIED.

Two Witnesses Say That He is the Man.

WOODLAND, Cal., Nov. 21.—In the Hatch trial today Conductor Hill and brakeman Temple testified that they were in the caboose of a freight train side-tracked at Washington during the strike and they positively recognized Hatch as one of the party that drove up to the train in the three seated rig and after securing bars, wrenches and other tools, drove off in the direction where the wreck afterwards occurred.

TWENTY-FIVE YEARS.

Long Sentence Received by an Express Robber.

JEFFERSON CITY, Mo., Nov. 21.—Marion Hedgpath, the express robber, was admitted to the penitentiary this afternoon and has commenced to serve his long sentence of twenty-five years.

To Inoculate Hogs.

ST. LOUIS, Nov. 21.—A special to the Republic from Fairbury, Illinois, says: Hog cholera has cleaned out quite a number of hog raisers around Fairbury. Those whose porkers were marketable, sold them, and now, as a last resort, to save their hogs, those whose pigs were too small for the markets will try inoculation to prevent the disease from spreading. It is entirely a new scheme here, but it is hoped it will do the work as every few years the scourge visits this section and nearly cleans out all the hogs.

THE CAPTAIN NOT TO BLAME.

Inquiry as to the Loss of a Vessel.

The Crown of England Wrecked on Channel Island, but the Accident No Fault of the Captain.

By the Associated Press. SANTA MONICA, Cal., Nov. 21.—The court of inquiry into the loss of the vessel, Crown of England, today exonerated Captain Hamilton, it being evident to their mind that the loss of the vessel was through no fault of his. The Crown of England was wrecked on Channel island several days ago.

INGALLS IN IT.

The Brilliant Kansan Again Enters Politics,

He Wants His Old Seat in the Senate.

His Friends May Push Him Forward This Winter.

A Strong Field to Overcome, but if He Goes in the Other Fellows Will Not Be in It.

By the Associated Press.

TOPEKA, Kas., Nov. 21.—The politicians who have been giving attention to the senatorial matter during the week are uncertain whether ex-Senator Ingalls is likely to be a factor in the contest or not. He has made no positive expression on the subject yet, but there is a general belief that he will enter the race.

It is known that he has had a desire to win his old seat, now held by Senator Peffer, and which will not be vacant until 1897. He has been waiting for and fondly anticipating another test of political strength with Mr. Peffer. In the language of the muscular Mr. Corbett, Senator Ingalls has been training for the purpose of "taking Senator Peffer on" at the close of the latter's season in January, 1897.

This is the match he is most anxious to make. But two years is a very long time to wait, especially in view of the fact that the Republican party of Kansas was never in such good condition for a senatorial combat as it will be in the legislature of 1896. The big Republican majority is a great temptation to Senator Ingalls to sail in and either demonstrate how fields are won or show Peffer what he may expect two years hence.

It is claimed by the friends of Ingalls that his chances will be better for the Martin succession than for his former seat and that he will be likely to respond promptly to the call of "next," rather than to wait for his man.

There is a strong field against Mr. Ingalls, but it is contended that he would start in with a good vote with a reasonable probability that he would gain on each ballot, and that, the enthusiasm once started, it would be sure to carry him through to the coveted goal. This is the assumption on which his friends are working and on which it is believed his candidacy will soon be favorably announced.

CANNERY BURNED.

Fire Breaks Out in a San Jose Establishment.

All of the Buildings of the Plant Destroyed at an Estimated Loss of \$80,000.

By the Associated Press.

SAN JOSE, Cal., Nov. 21.—Fire broke out late this afternoon in Dawson's big cannery, just outside the city limits.

Owing to the great distance to the nearest fire plug all the buildings of the plant were destroyed. The loss is estimated at \$80,000.

DEATH OF GRACE CURNS.

A Life of Lovableness and Promise Goes Out.

Grace Curns is dead. There was none in Phoenix more loved than she and none deserved better to be loved. She was a dutiful daughter, a kind sister and an affectionate friend. She was, too, a young lady of noble purposes and a high order of intellect and an industrious student. No death has recently occurred in this city which is more generally mourned. She was the daughter of Mr. and Mrs. J. W. Curns. She was about eighteen years of age and of the high school class of '95. Ten days ago she was stricken with brain fever. The worst was feared from the beginning, but later hope was felt that she would recover. On Tuesday evening the disease took an unfavorable turn and death came yesterday afternoon. The funeral will take place under the direction of Randal & Davis from the

Presbyterian church at 2 o'clock tomorrow afternoon.

CHAMBER OF COMMERCE.

The Annual Meeting Adjourned to Next Wednesday Night.

Last night was the date of the meeting for the annual election of a board of directors for the chamber of commerce. There was a fair attendance but a larger one was desired in view of all that hinges so much upon the work of the chamber.

There never has been a time since the institution of that body when it has had so much to do or such an opportunity to do it. It was therefore decided to give a fuller opportunity for expression and the meeting was adjourned to next Wednesday night at the city hall. A general invitation is extended to everybody who is interested in the growth of Phoenix at a time when the city and valley seems strictly indigenous to the richest soil on earth.

IN THREE WEEKS

The Cars Will Be Running to the Hassayampa.

Trains on the north and south road are now running ten miles this side of Congress junction. The stage station has not been removed from Congress yet, as the trains this side are used only for construction purposes.

Within three weeks the track will be finished to the Hassayampa and regular trains will connect with the stage line at that point. From the Hassayampa in, the work will be a pleasant recreation compared with the character of it beyond.

It is said that the contract for building the passenger depot has been awarded, but the name of the contractor or the character of the plans has not been made public.

THE CYCLE CLUB WORK.

A Good Advertising Medium for Phoenix.

The Valley Cycle club is making itself heard from to the credit of itself and of Phoenix. The following letter was received yesterday by Chairman Galpin of the racing committee: "To Mr. A. W. Galpin, Chairman Race Committee, Valley Cycle Club, Phoenix, Ariz.

DEAR SIR: I enclose herewith entry for race meet to be held November 29 and 30.

"Accept congratulations for the admirable way in which your club is pushing the matter. We fellows here feel as much interest in your meet as if it were our own. Last night old Morris and I went down town and hung up your posters in prominent places. Just keep up your good work and success will be assured. Let us make this the biggest and grandest meet ever held in the southwest. Here's success to you. Fraternaly,

R. F. BUNTING."

Beside the entry blank mentioned in the above letter others were received, J. A. Bushong and H. Walz of El Paso, all class A riders.

AFTER THE OUTLAWS.

The Cook Gang Must Be Suppressed.

The Marshal of Arkansas Will Be Requested to Quell Lawlessness in the Indian Territory.

By the Associated Press.

WASHINGTON, Nov. 21.—Attorney-General Olney, Secretary Lamont and Secretary Smith held a conference today, relative to sending troops to suppress the Cook gang in the Indian territory. They decided that the matter came under the jurisdiction of the department of justice, and as United States Marshal McAlester of the Indian territory, has been criticised for his inaction, it is likely the attorney-general will instruct the marshal of Arkansas to summon a posse and drive the lawless element out of the territory. There is talk of removing Marshal McAlester.

THE TABLES TURNED.

Practical Jokers Now Wish They Hadn't.

Several Prominent Citizens Employ a Doctor to Pick the Shot Out of Their Flesh.

By the Associated Press.

UKIAH, Cal., Nov. 21.—Three prominent citizens of this city were painfully wounded last night while playing a practical joke on A. Hooklander, a carpet weaver.

The jokers attached a string to a tick-tack arrangement which was fastened to Hooklander's window.

Hooklander discharged a blunderbuss filled with buckshot at the disturbers and each carried off a good load of lead. The doctors were summoned and extracted the shot. None of the injured men are fatally hurt.

A DEEP MYSTERY

Whereabouts of Pitzel Still Unknown.

That He Is Dead Now Doubted.

Seen by a Chicago Man Two Weeks Ago.

His Daughter Says He Told Her That If She Heard of His Death to Not Believe It.

By the Associated Press.

PHILADELPHIA, Nov. 21.—The Pitzel mystery deepens as time wears on. Today many theories in regard to the mystery were knocked in the head by the announcement that B. F. Pitzel, the supposed murdered man, was seen in Chicago less than two weeks ago.

President Fouz of the Fidelity Life Insurance company, said today: "This morning my Chicago representative telegraphed me that Mr. Bryan, who is a business man in Chicago, called on him and said that B. F. Pitzel was in that city less than two weeks ago. Mr. Bryan says he has known Pitzel for many years and had frequent business transactions with him and it is impossible for him to be mistaken. When they met Bryan did not know Pitzel was supposed to be dead, and the two greeted each other cordially and repaired to a near by saloon where they had a drink together. There they separated and Bryan says he does not know whether Pitzel was to remain in the city or not. However, our men there and Pinkerton detectives have taken up the clue and it is my opinion that Pitzel will be produced within a few days."

President Fouz called on Mrs. Pitzel and her daughter at the central station today and received valuable information from the daughter in reference to her father. The daughter said that she remembered while walking with her father one Sunday in Chicago that the latter had said to her: "If you ever hear through the newspapers or any other way that I have been found dead do not believe it. I will be all right."

THE MINERS' CONVENTION.

Early Completion of Nicaragua Canal Asked.

A Resolution Adopted to Work as a Unit on All Legislation Affecting the Mining Interests.

By the Associated Press.

SAN FRANCISCO, Nov. 21.—In the miners' convention a report was adopted demanding the early completion of the Nicaragua canal under government auspices substantially as provided in the Morgan bill.

At the convention this afternoon a resolution was adopted that the delegation from the mining states and territories be requested to take such steps as may be deemed proper to organize, so that they may work as a unit in legislation affecting the miners. The convention then adjourned sine die.

A COOL PROPOSAL.

An Oyster Thief Who Wanted Something for His Honesty.

John Holden, captured on Tuesday night in the act of stealing three cans of oysters from Phillips', was in police court yesterday morning. He admitted the theft and for his honesty asked that he be allowed to leave town within five minutes. Recorder Schwartz is an old and gallant soldier and not easily surprised, but it was sometime before he recovered from the effect of Mr. Holden's proposition. When he was finally restored to consciousness he told Mr. Holden that although he was an undesirable person, there was no disposition on the part of the city to force him out of town precipitately. There was something unique about his curves and his nerve which would make him an ornament to the chain gang. He got twenty days.

Coin and Bullion.

SAN FRANCISCO, Nov. 21.—Silver bars, per oz., 63@63½; Mexican dollars, 52½@53.
