Dr. and Mrs. Stroud yesterday moved from their rooms in the Tibbodo building to their elegant new home just completed on North Center street.  
A fifty-ton cyanide plant is to be set up at the Union mine in a few days by Denver parties to work the old tailings which runs \$7.50 to the ton.  
The rainfall for August 1882, was 6.32 inches, the largest on record for any one month in Arizona. The rainfall thus far for the year has been 5.21 inches.  
Sheriff Greenleaf of Yuma county yesterday arrived with a young man booked for the insane asylum, who imagines he is a greater tragedian than Booth.  
Ed. Daugherty, colored, for being drunk and exercising his fighting proclivities, was yesterday assessed \$3 by the recorder, which amount he generously paid.  
The well known Marlow Jersey butter is on sale at Buxton & Co's. This butter is the best sold in the city, having been thoroughly tested and found by far the best.  
Marshal Clark has completed beautifying Montgomery's addition and has taken his chain gang to Churchill's addition to make some needed street improvements in that locality.  
The Commercial hotel arrivals yesterday were the following: E. Greenwood, Prescott; J. E. Kelly, Willcox;

Mal Greenleaf, Yuma; J. H. Carpenter, Yuma; Mrs. L. Perry, Los Angeles.

Horace Sleator was not "in it" in the class B bicycle race at Petaluma. The race was won by Foster in 2:22 4-5. Sleator will return to Southern California to ride the circuit starting at Pasadena.

Antonio, an Indian, was yesterday arrested on a charge of stealing a horse from another Indian on the reservation up the river. He pleaded guilty to the charge, but was remanded to jail until his trial comes off today.

If every man, woman and child, who failed to see the petrified man when on exhibition at the Gregory house, will take a look at the show windows of Green the hatter today, they will have their curiosity fully gratified.

The trustees of school district No. 45 have awarded the contract to erect the handsome school building to the old reliable contractor, Thos. Poole, who furnished a certified check of \$500 as security for the completion of said building.

Mr. E. Randolph, who is to succeed J. S. Noble as superintendent of the Tucson division of the Southern Pacific railroad, comes from the Chesapeake and Ohio railroad and is said by those who know him to be a very pleasant gentleman.

The best evidence of a bargain in what you buy is the article purchased and the price paid for it. Now you can go to Alkire's today and get the best goods for less than ever before because they have to make way for fall and winter goods.

Wm. Evans went to Maricopa last night to complete some business negotiations with A. J. Monihon, who started Monday for Stanford University but had stopped over one day to await Evans' arrival. Evans returned by this morning's train.

The following real estate transactions reported by Coggins and Brown, abstractors, were yesterday entered for record: Chas. A. Morrill and wife to Fannie E. Cole, lot 8, block 28, Neahr's addition, \$1100, and lot 7, block 28, same addition for \$250.

Chas. Wolsey and Juan Escandon, well known printers of this city, left Monday night for New Orleans, where they will join the expedition going to Cuba to aid in the emancipation of that republic. Wolsey's cousin is in command of one of the companies.

It is reported that a young woman belonging to the Salvation Army of this city lost her mind Monday night. She went out horseback riding and upon her return was seized with the hallucination that she was a broncho and has since been biting and kicking like an untrained colt.

Alkire's buyer has laid in a tremendous line of fall and winter goods and must have room. They must get rid of the present stock and to do so will have to let them go at cost. Now is your chance to get bargains in this stock. Call today and look over the goods and see what you want.

The stores that remain closed after 6:30 o'clock in the evening should retain the support of the people. A few of the merchandise stores are beginning to waver on account of the reluctance of a certain store to close at that hour. The stores that remain closed however, are not the losers thereby.

Henry Walters was arrested yesterday and taken to the county jail to serve out an unexpired sentence. He was sent up in March last from Tempe to serve twenty-five days in jail. He paid \$10 of the fine which reduced his sentence to fifteen days but he skipped without going to jail, but he came back thinking everything had been forgotten.

Nicholson, the tailor, has had workmen for the past few days remodeling and papering his tailoring establishment, and it now presents one of the neatest in the territory. Mr. Nicholson has a fine idea about how to arrange an attractive store as well as cut and make gents' clothing, which gives no small credit to him.

From a letter received in this city from Los Angeles, it is learned that Geo. T. Johnston (Monte Cristo) has so far evaded the officers who are after him on a warrant sworn out by Murphy Grant & Co. It is said that Johnston hired a yacht and with several invited guests is on a cruise on the ocean towards Alaska and is as yet unaware of the fact that he is wanted by the officers.

Citizen: There are a number of cases of smallpox at Arivaca and all attempts to isolate them proved unavailing till Sheriff Leatherwood made his debut in that vicinity. Among those who refused to recognize the quarantine was a darkey who declared that the disease was a "visitation of God" and he would visit the afflicted just as often as he saw fit. "That's all right," said Bob, "by blank, I'm sheriff and have the first say in Peemo county," and then he jailed the colored kicker.

Owen Kippel, the young man who was arrested on a charge of stealing \$28 from L. J. Wilkerson, was on trial yesterday before Justice Johnstone. The previous day he has placed under \$150 bonds to wait his appearance yesterday but not having that amount he left with the justice a certificate of deposit on the Phoenix National bank of \$90. He retained Attorney Kellum for

his defense and was cleared; when the attorney turned over to him the certificate of deposit he requested that he would like a settlement. The young fellow denied that he owed Kellum anything for defending him and refused to pay a cent. The attorney took out a writ of garnishment on the bank but as the certificate is negotiable it is very probable the young fellow will again get the best of his attorney.

**Save Assessment Work on Mines.**

The new law requires annual work on every location or relocation. This is saved by obtaining a United States patent. Five hundred dollar's worth of work or improvements on one mine, or scattered over a group of adjoining mines, is sufficient to ensure a United States patent to any number of mines so grouped, or for a single mine. Further information cheerfully given by letter or personally. Terms of survey reasonable. Apply to  
LEWIS WOLFLEY,  
Civil and Mining Engineer and U. S. Deputy Mineral Surveyor, Phoenix, Arizona.
