## THE INTERIOR OF THE JUNTA

### Disclosed in Trial of the Revolutionists at Tombstone

## THE GOVERNMENT CLOSES

### The Defense Will Begin Offering Testimony This Morning and Most Sensational Developments are Promised Within Twenty-Four Hours

Tombstone, Ariz., May 14.—The prosecution introduced more letters in the Magon, Villareal and Rivera trial today. The translations revealed an elaborate plan for an attack on several Mexican towns near the border to gain a foothold for the Mexican liberal party and work for the overthrow of the Diaz government. Custom houses were to be seized and government buildings occupied. All letters cautioned against attacks on Americans, to avoid intervention which was to be feared more than repulses by the Mexican troops. Much interest is manifested in the trial and many tilts are exchanged between the attorneys.

The prosecution offered much documentary evidence which was admitted only after strenuous objections by counsel for the defense. Telegrams, papers, commissions, etc., seized by the Arizona rangers in the raid on the Douglas junta, were admitted. All dealt with plans of attack on the Mexican border and carefully outlined expeditions to hold the same against the Mexican troops. The circulars were to be secretly distributed among Mexican soldiers who were to enlist in sympathy with the revolution and these "ballets," directed against the invading hosts, were to be aimed high over their heads.

Perhaps the most important and sensational event of the day occurred when Juan Vasquez, a member of the Douglas junta, arrested with the remaining members at the time of the raid in September, 1906, began to relate the history of the secret organization at Douglas, their plans and movements with which he was identified and was one of their most energetic members. He was still on the stand when court closed and his further examination is expected to reveal many sensational features. It is understood that Vasquez has been granted immunity for turning state's evidence. The defense claims that the witness is a Mexican detective and a bitter cross examination is in store for him.

## GOVERNMENT'S CASE ENDS.

Tombstone, May 14.—(Special.)—The government closed its case at 11 o'clock tonight in the case of the alleged Mexican revolutionists on trial here. Witnesses for the defense will be placed on the stand at 10 o'clock tomorrow morning. Vasquez testified to having attended a number of meetings of alleged revolutionists in Douglas, at which several flags for conviction. It was positively asserted tonight that within the next twenty-four sensational developments, the nature of which has been made known to but, will be made.

## A SAILOR'S STORY.

Caracas, May 14.—It has been impossible to verify the story coming from the Island of St. Vincent, that the captain and crew of the American whaling vessel, Carrie Knowles, of Provincetown, Mass., have been languishing in a Venezuelan jail for five years. There is nothing in the records of the American legation or in the foreign office to substantiate the story brought to St. Vincent by the sailor, Elisha Payne.

## MEXICAN FOREST FIRES.

The Extreme Drouth Facilitates the Spread of the Flames. Cordoba, Vera Cruz, May 14.—Forest fires continue to do great damage in this vicinity, with long-continued drouth favoring a rapid spread of the flames. At Isla, a fire eight miles wide is sweeping everything before it, and near Penula the fire has destroyed all the buildings around the big

rock quarry, leaving several hundred people homeless. Great areas of forest are now burning and several big sugar plantations have been devastated.

## ALLEGED CONSPIRATORS

Acquitted of a Three Year Old Texas Murder Charge. Victoria, Tex., May 14.—All the defendants in the famous Guerra case in which Deardo Guerra, sheriff of Starr county, his cousin Juan, county commissioner of Starr county, Gabriel Mores, a deputy under Guerra, and Desiderio Perez, a former ranger of Starr county, were charged with conspiracy in the killing of Gregorio Duffy in Rio Grande City in January 1906, were acquitted today.

## CANADIAN FIRES.

A Hope That a Heavy Rain Will Extinguish Them. Winnipeg, May 14.—Only the heavy rain which is falling throughout the Canadian northwest will check the disastrous prairie fires that have been raging throughout southern Saskatchewan for the last week. The loss of life, it is feared, will be startling and the property loss high.

## TEXAS WILD WEST SHOW.

San Angelo Texas, May 14.—Two dead, a third wounded and the authorities in pursuit of another, are the results of a pistol fight in a tent of a "Wild West" show tonight. The shooting followed the performance.

## GOOD TIMES COMING WITH IRREGULAR MOTION

## THE OPINIONS OF THE FINANCIAL REVIEWS.

Dun as Usual Entertains the More Roseate View.

New York, May 14.—Bradstreet's tomorrow will say: "Irregularity still characterizes the trade, crop and industrial situation. In industrial lines the consensus of reports is that further improvements have been registered especially in the iron and steel, coal, coke, woolen manufacturing and leather trades. Building is active and lines of trade catering to this industry are feeling beneficial effects. Eastern shoe factories on hand are below normal. Sole leather is active, supplies well controlled and prices firmer. Upper leather are also much active."

## DUN MORE OPTIMISTIC.

New York, May 14.—Dun will say: "Further significant improvements have been made in iron and steel, and as they form a great basic trade this goes far toward establishing the long-desired readjustment of the whole industrial situation. This and the better weather for both agriculture and mercantile interests are the week's most important trade developments. A marked optimistic feeling therefore prevails in most branches of business in spite of the fact of the unsettling tariff debate."

## NO LONGER A JOKE.

Cody's Aeroplane Flies in the Presence of Royalty. London, May 14.—Captain F. S. Cody, an American whose failures in his experimental aeroplane work for the British army have become a standing joke in the London newspapers, now seems to have at last achieved success. In the presence of the Prince of Wales, he flew nearly a mile at Aldershot today.

## NEGRO PROBLEM SOLVED

According to Former Secretary of the Navy Herbert. Norfolk, Va., May 14.—Today Confederate Memorial day, observed in Norfolk was marked by an address by former Secretary of the Navy Hilary A. Herbert. He said in part: "We all agree it is best that there is but one flag. We finally triumphed in all our states over carpet-bag and negro rule. I honestly believe that now we have reached a solution. In its main outlines of the negro problem."

## MEXICAN LAND SUIT

On Trial in the United States Court of Appeals. Cincinnati, May 14.—A suit involving title to 2,500 acres of land in the state of Chihuahua, Mex., was commenced in the United States circuit courts of appeals today. The El Paso Cattle company of Nebraska, sued Oliver M. Stafford of Cleveland and the Broadway Savings and Loan company of Cleveland to collect \$203,456 as alleged damages and money advanced on the purchase of land in Mexico.

## SUPPORTING BREWERY WORKERS

Milwaukee, May 14.—A general strike, involving all union workmen in the Milwaukee Federation of Labor, relating to the building trades and the breweries, was inaugurated today. The strike is to force an agreement with the brewers.

## ANOTHER ARMY BALLOON.

Washington, May 14.—Another balloon to take the place of that destroyed several days ago at Fort Omaha, is to be purchased by the signal corps of the army. The capacity will be 20,000 cubic feet and it will cost \$2,000.

## PARIS SCARE FOR A TIME

### Produced by Threats of a Revolutionary Strike

## BELIEVED TO BE A BLUFF

### The Postal Strike in the Opinion of the Government Officials is Further Waning--The Working Men are Distrustful of Agitators

Paris, May 14.—The striking postal employees adopted resolutions at a meeting today appealing to the workmen's organization to make common cause with them. The meeting was attended by representatives of workmen who delivered inflammatory speeches, promised the postal employees immediate support, and threatened, if necessary, to place themselves under the revolutionary general federation of labor. These threats produced a big scare but there is a strong suspicion here that the leaders in the movement are bluffing. The strike of the postmen itself apparently has lost ground. The rank and file of the men seemingly are convinced that the agitators are acting for their personal end and as tools of the revolutionary proletariat organizations and they hesitate to risk losing their permanent situations and pensions.

At Charters and Dijon today the strikers in view of the attitude taken by parliament, voted to return to work. Government officials say the movement is collapsing and point out that only 48,000 of the 300,000 railway men whose support was pledged the strikers today by M. Guérard, belong to the union, and that these members are mostly track men and artisans employed in the shops. It is reported tonight that the strikers are cutting the wires. This afternoon's meeting was attended by 2000 strikers and delegates from various unions. The strike leaders charged that military precautions taken by the government proved that it was intended to "draw the strike movement in blood." They favored a direct appeal to the workmen's unions for co-operation and amid great enthusiasm the strikers voted unanimously for an alliance with the workmen "with all its consequences." It was declared that the moment had arrived for a solid revolutionary movement under the direction of the general federation of labor. The resolutions as passed pledge the postal employe and the workmen's organization to unite for battle to the death, "in order to obtain liberty of thought and speech and the right of all employes of the state to form a syndicate."

The railroad and the gas men met tonight but neither appeared disposed to give immediate effect to the promises made by their leaders this afternoon. The railroad employes postponed their decision on the question until a meeting next Monday. Philadelphia, May 14.—A suit was begun here today against Emma Eames, who is charged with having alienated the affections of Emilio de Gorzora, a baritone in her company. The complainant is the baritone's wife.

## SENATOR'S DESCRIPTION OF THE TARIFF DEBATE

His Allusion to it as "Wind Jamming."

Washington, May 12.—Asking that an interview with J. J. Hill be read to the senate immediately after that body convened today, Senator Scott introduced its advice to congress, that oratory be suspended and that congress promptly pass the tariff bill. "This," Mr. Scott said, "is in line with letters I am daily receiving, begging and praying that these gentlemen (waving his hand over the senate chamber) get through with their wind-jamming and let the country go ahead with its business."

## THE COMMITTEE'S DAILY VICTORY.

Washington, May 14.—Again the committee on finance was upheld when the senate by a vote of 35 to 42 voted down an amendment by Mr. Cummins to lower the duty on round iron and uphold the house rate recommended by the senate committee. Almost the entire day was given to a debate on the profits of the United States Steel Corporation. Mr. Beveridge proposed an amendment to the tariff, increasing the tax on tobacco and its products. He charged that by continuing the short-weight packages of the Spanish war period, the tobacco trust was reaping a harvest of \$21,000,000 a year.

## DYNAMITE WENT OFF.

Key West, May 14.—In an explosion on quarter boat No. 2, at Cudjoe Key, about 20 miles from here, on the Key West extension of the Florida East Coast railroad, three men were

instantly killed and 12 badly injured. It is believed others were blown to atoms, as 700 pounds of dynamite went off.

## A DERRICK GAVE WAY

### Two Men Killed in a Salt Lake Accident.

Salt Lake, May 14.—Two men were killed and another seriously injured today when a large derrick employed in pile driving collapsed and fell across the high tension wires of the Telluride Power company. The derrick of the driver gave way and fell to the ground carrying with it a wire for 40,000 volts. This wire fell upon Morton W. Wheeler and burned him to death while the frame of the derrick caught William D. Freckelson and Andrew Weston who were engaged in driving piles. Freckelson sustained a fracture of the skull and died a few hours later on the operating table. Weston escaped with serious injuries.

## RARE FORM OF DISEASE

### Paralytic Rabies of Which One of Buffalo Bill's Cowboys Died

New York, May 14.—Harry Beebe, of Lander, Wyo., a cowboy with Buffalo Bill's show, died today. Beebe's great toe was severely bruised last Monday, being stepped on by a horse ridden by a fellow cowboy. Partial paralysis developed and death followed. Surgeons at Bellevue hospital said tonight they believed Beebe died of paralytic rabies, a rare form of disease.

## VERDICT OF GUILTY IN PACHECO CASE

## THE JURY AGREES ON CRIME OF MANSLAUGHTER

### The Defendant Having Killed Alice Caine at Tucson.

Tucson, May 14.—(Special.)—The jury in the case of Young Pacheco, son of City Marshal Pacheco, on trial for the killing of Alice Caine last March, returned a verdict of manslaughter, the maximum penalty for which is ten years in the penitentiary. A sentence will be passed upon him next Monday. When the jury retired a vote was taken on the question of the young man's guilt without reference to the degree of homicide. The result was eleven for conviction and one against. On the question of guilt of murder in the first degree the vote stood 10 to 2. Finally an agreement was reached on the degree of manslaughter. The defendant himself took the stand in the course of the trial and stated that the killing was accidental. He said that he intended to commit suicide and that the shot that killed the girl girl was intended for himself.

## FATAL GAS EXPLOSION

### Set Off by Lightning in a Storm at St. Joseph, Mo.

St. Joseph, May 14.—Henry Goodale was fatally burned and his son, Thomas, badly injured by an explosion of gas caused by lightning during the worst electric storm of the year. In south and east St. Joseph, large areas are under water. Train service is crippled by the flood.

## EMMA EAMES SUED.

Philadelphia, May 14.—A suit was begun here today against Emma Eames, who is charged with having alienated the affections of Emilio de Gorzora, a baritone in her company. The complainant is the baritone's wife.

## WELLS FARGO RATES MUCH TOO HIGH

## DECISION BY INTERSTATE COMMERCE COMMISSION

In the Case Instituted by the Maricopa County Commercial Club. Washington, D. C., May 14.—(Special.)—The interstate commerce commission made a decision today in the case of the Maricopa County Commercial club of Phoenix against the Wells Fargo & Company. It is found that the defendants base rates, applying between Phoenix Mesa and Tempe and specified points in California, Arizona, New Mexico, Colorado and Kansas to be unreasonable. Lower rates will be prescribed for the future.

## NEW YORK POLICE STOP FIGHT.

New York, May 14.—The police stopped a boxing bout between Johnny Glover of Boston and Johnny Murphy of New York at the Olympic A. C. at the end of the first round tonight. The fighters, the president, secretary and doorkeeper of the club were arrested.

## A SUSPENSION OF WORK

On the Reclamation Project of Grand Valley, Colo. Grand Junction, May 14.—The order of Secretary of the Interior Ballinger suspending work on the high line canal has brought consternation to the farmers of Grand Valley. In response to a telegram asking the reason for a suspension of operation Mr. Ballinger replied that he desires to familiarize

## TORNADO DAY IN THE BELT

### Three States Ravaged by a Series of Storms

## FIVE KNOWN TO BE DEAD

### On Account of Deranged Communication Only Meager Reports From Storm Swept Regions of Kansas Missouri and Oklahoma.

Kansas City, May 14.—A series of tornadoes in Kansas, Missouri and Oklahoma late today, killed at least five persons, injured fifty-five, laid waste one town, wrecked a train and did great damage to property. Twenty-five persons were injured by a storm that swept over Mount Washington and Fairmont Park, in the suburbs of Kansas City. At least two of these are thought to be fatally injured. The town of Hollis, Kas., near Concordia, was swept away. Here three persons were killed and ten injured. The dead are: Fred Jearde, John Cyre and George Eckert. The Eckstrom family, consisting of five persons is missing. Their house is in ruins and it is thought all are dead. Near Great Bend the tornado killed two and injured twenty. All the wires are down in that vicinity and it is feared the death list may be greater. William Ackerly, a Santa Fe engineer, and Frank Nicholson, a conductor were killed while with a bridge gang between Great Bend and Kinsley. A tornado wrecked the work train of which Ackerly was engineer and blew it into a ditch. Several members of the crew were blown 100 feet. The pile driver toppled over, crushing Ackerly to death in his cab, where he remained with his hand upon the throttle. The following are those injured in the Great Bend storm: Lester Preston, Ransom Middaugh, Porter Thomas, R. E. Rucker, R. M. Brown, T. E. Fulkerson, Clarence Avery, Brakeman Murray and twelve unidentified. Most of the victims in this case were members of the crew of the wrecked train. The wind spread over a wide area, however, and injured many whose names could not be learned tonight. Many conflicting reports have been received. One had ten killed. At Holington, Kas., a tornado injured a number and greatly damaged farm property. It was not so severe however as that passing over other portions of the state. At Pond Creek, Okla., a severe windstorm slightly injured four persons and unroofed several houses. A blinding rain and hailstorm accompanied the wind in all these states. Many washouts demoralized railroad traffic. The Missouri Pacific main line was washed out at Vailcott, between Leavenworth and Kansas City. The Burlington and Santa Fe were forced to annul some of their trains. Electrical disturbances crippled the telegraph and telephone wires and on this account only meager reports from the storm swept area could be obtained.

himself further with the situation before continuing work. Horace de Long and D. W. Apperloo, representing the Water Users' association left tonight for Washington.

## AN OPEN BRIDGE.

### Several Trainsmen Missing as Result of a Wabash Accident.

Kansas City, May 14.—Wabash passenger train No. 9 ran through an open bridge into Bull creek near Randolph, twenty miles east of here, tonight. The engine and the baggage and mail cars fell into the water. A telephone message said that several trainmen were missing but no bodies have been found. The accident was caused by a washout.

## GOVERNMENT TAKES UP

### The Coal Mining Dispute in Western Canada.

Winnipeg, May 14.—Steps have been taken by the department of labor at Ottawa for the establishment of a board of conciliation and investigation to inquire into matters of dispute between members of the Western Canada Coal Operators association and the employes.

## NATIONAL FARMERS' UNION.

Springfield, Mo., May 14.—A plan to establish closer relations between the grain-growers and cattle growers of the west and southwest was further considered at the session here today of the National Farmers' Union. The meeting was executive.

## A PRACTICAL MINER INSPIRED THE CIRCULARS

## WHICH DIRECTED SPECULATIVE ATTENTION TO THE TWO QUEENS

### A Los Angeles Assayer Found the Ore to be Worth Handling.

Kansas City, May 14.—Testimony for the defense was introduced today in the case of the government against the Horn brothers, Raymond P. May, and S. H. Snider, charged with using the mails to defraud in promoting an Arizona mine. The first evidence introduced by the defense was the deposition of C. G. Werner, a practical miner of Arizona who was vice president and director of the first company organized to develop the Two Queens mine. The defense asserts that it was upon the representations of Werner as to the value of the mine that they were induced to become interested sufficiently to promote it. In connection with Werner's deposition, which was taken in Phoenix, Ariz., a circular was read, alleged to have been inspired by Werner, the contents of which indicated that the mine contained valuable ore. A deposition given at Los Angeles by R. L. Perry, an assayer of that city, stated that assays of ore from the "Two Queens" mine, examined by him, showed a range of value from \$6 to \$7,000 per ton.

John E. Horn, 22 years old, testified in his own defense. He said he had bought 75,000 shares of the Two Queens merely as an investment, and was not connected with his brothers in a business way. "You organized the Keystone Investment company, capitalized at \$10,000. What other men are interested in that?" he was asked. "I am the whole thing," replied Horn. "My father holds one share and my wife holds one." It is expected the case will be closed on Monday.

## NEW HUNTING GROUNDS.

### Col. Roosevelt and Son Move Their Camp.

Nairobi, May 14.—Theodore Roosevelt, accompanied by Kermit, arrived at the Juja ranch of George McMillan today. They came from the camp at Machakos. They will remain at Juja from four to six days, according to the buck they have in hunting impala, buffalo, the wart hog and the water buck.

## MURDERED IN HER BED.

Hartshorne, Okla., May 14.—Mrs. George Poole, wife of a restaurant keeper, was found slain in her bed at her home today. The body was backed by a butcher knife and one arm was broken. Her husband found her. There is no clue.

## The Racycle

Is the largest selling, easiest running, strongest and fastest bicycle in the world. Sold only by Graveland, the Bicycle man. 25-27 East Adams St. We sell a good Bicycle for \$20. With Coast Brake for \$25. Special attention given to repairing Phonographs. Pneumatic and Solid Tires.

## REDUCTION ON WATCH REPAIRING.

Best Main Springs—elsewhere \$1.50. Our price—\$1.00. Thorough Cleaning—elsewhere \$1.50. Our price—\$1.00. Correspondingly low prices on all Jewelry and Watch Repairing. All work is done by EXPERT WORKMEN and absolutely guaranteed for one year.

## N. FRIEDMAN, Manufacturing Jeweler.

33 West Washington St. Prompt attention to Mail Orders.

## SHOOK FIST AT DR. OSLER

### Speaker Cannon on the Chloroform Proposition

## TUBERCULOSIS CONGRESS

### The Famous Physician Unable to Say That the Plague Will Be Eradicated But the Progress in That Direction Inspires Hope.

Washington, May 14.—Speaker Cannon is not afraid of Dr. Osler and his old age theory. He told Dr. Osler so today during an address before the national association for the study and prevention of tuberculosis. "Dr. Osler, I have reached 71, and I shake my fist in your face," he said. Dr. Osler laughed heartily at this deft. The speaker harked back to the days of his childhood when both tubs were almost unheard of, and the snow would sift in and cover those lying in bed. "We had plenty of fresh air then on the Wabash and everywhere on the frontier before the railroads," he said. Mr. Cannon favored more play grounds for children but urged that the legislator be dealt with gently if he did not do everything wanted of him. Dr. Osler in his address said that tuberculosis no longer was the problem of the doctors and that it probably would take two or three generations to reduce its ravages to the present rate of typhoid. Dr. Osler congratulated the association on having awakened the public, legislatures, philanthropists and physicians. Three things remained to be done, said Dr. Osler. The first was to keep the public awake; the second, to obtain more money; and the third, to arouse the interest of more men and women, because the campaign was no longer one entirely for the doctors. "Whether tuberculosis will be finally eradicated," he declared, "is ever an open question, but when we think of what has been done in one generation, how the mortality in many places has been reduced more than 50 per cent, indeed in some places 100 per cent, it is a battle of hope with victory in sight."

## NORTHERN RESERVATIONS

### Plans For the Opening of Them in Three States.

Missoula, May 14.—Under a Washington date line, the Missoulian says that at a conference of officials of the general land office, a tentative scheme was decided upon for the registration and opening of the Flathead reservation in Montana, the Couer D'Alene in Idaho and the Colville in Washington. The reservations in all, contain 2,000,000 acres. The registration period probably will begin July 10 and end August 15. At the close of registration the drawing for numbers will take place for all three reservations at Couer D'Alene city.

## WEATHER TODAY.

Washington, May 14.—Arizona: Fair Saturday and Sunday.

## GENUINE

Glendale loess, four miles from Glendale, all into alfalfa. Yours on easiest terms at \$120 per acre.

## DWIGHT B. HEARD

S. E. Cor. Center & Adams Sts.
