RANGE AND MARKET NEWS

Items of Interest Pertaining to the Live Stock Industry in Arizona—Market for the Past Week.

D. H. Jones left last Friday with a shipment of cattle for Los Angeles.

Babbitt Bros., shipped four cars of beef to Riverside, California last Sunday.

Fenton Jones bought two car loads of feeders of Babbitt Bros., which he shipped to Phoenix Tuesday.

A. A. Allen, on Monday, shipped 320 head of choice beef cattle to the Kansas City market. The cattle were from his Black Tanks ranch and were in fine condition.—Williams News.

Babbitt Bros., outfit came in Saturday with four car loads of beef from their northern ranges. They will leave soon on another drive which they expect to make from Fort Valley.

Cattlemen are endeavoring to secure an extension of time to June 15th, before they are required to reduce their herds on the forest ten per cent as ordered by the Forest Service officials. June 15th would be a rather short time in which to gather and dispose of their surplus stock.

Kansas City Stock Yards, December 7. There were liberal runs of cattle after the middle of last week, causing a sagging market, and the advance the first of the week was wiped out by the close, prices finishing about steady with the close of the previous week.

The supply from the range country was liberal for so late in the season, but quality is not so good as formerly.

Run today here is 15,000 head, and heavy at other points, market weak to a shade lower. There is a liberal supply of Colorado and other western cattle here today, and the bulk of it has sold nearly steady with the close of last week. Beef steers show some loss, but as quality in this class is not as good as a week or two ago, sellers can not complain much. Colorado beef steers today brought \$3.60 to \$4.65, stockers \$3.75 to \$4.20, feeders \$4.00 to \$4.50, cows \$3.40 to \$4.50, canner cows around \$2.60. The Panhandle country is about through

shipping, but a good many New Mexicos are still coming, mainly cows and canners at \$2.25 to 3.40, and stockers and feeders at \$3.25 to \$4.25 veal calves up to \$6.50. A feature of the cattle market in November was the large number of stockers and feeders brought here to go out to the country, 75,000 head, against 55,000 head same month last year.

The sheep and lamb market made a gain of 15 to 25 cents last week, although receipts were heavier than in recent weeks, at 37,000 head. Supply today is 8000 head, market a shade lower, under the influence of a big run at eastern points. Fed lambs sell at \$6.00 to \$6.50 today, yearlings \$4.75 to \$5.25, wethers \$4.25 to \$4.75, ewes \$3.90 to \$4.25.

Quite a number of sheep and lambs are still coming from the range country, mostly from Arizona and New Mexico, and about all of it on the feeder order, lambs at \$4.25 to \$5.25, wethers and yearlings \$4.00 to \$4.40, ewes \$2.50 to \$4.00, including breeding ewes around the latter figure. Fed stuff is being marketed earlier this year than usual.

Monday, Nov. 30th, Pollock Sheep Co., Flagstaff, Ariz. 913 wethers 91 \$4.15. Tuesday, Dec. 1, A. & B. Schuster, Holbrook, Ariz. 447 wethers 104 \$4.35. T. E. Pollock, Flagstaff, Ariz. 594 wethers 93 \$4.25. J. A. RICKART.

Ten Per Cent Cut Causes Loss.

There was a large gathering of cattlemen in Flagstaff Monday for the purpose of conferring with Supervisor Pooler relative to the ten per cent reduction ordered by April 1st, next. The cattlemen feel that it is working a great hardship upon them at this time and will entail a considerable loss to them financially. They are asking for more time to dispose of their stock when it can be gathered easier and sold to a better advantage. Rounding up at this season of the year and in the spring is practically impossible and it hardly seems just under such conditions to compel them to make the cut. The cattlemen are anxious to make as close a clean up this year as it is possible for them and had hopes of selling all stuff that was marketable before cold weather. The early snow prevented many of them of rounding up close and if the order is not changed will have to dispose of surplus stock at whatever they can get for it.

Frank Bennett, alias "Montana Frank", a young man that can take the stutter out of the gait of the most fractious broncho that ever bit bunch grass, was in town from his range in the Canyon Diablo country the first of the week.
