

**A NOTE TO YOU**

FLAGSTAFF, ARIZONA, Feby., 23, 1912.

This space is hardly in keeping with the size of our Drug Store or the volume of our trade, but we would not encroach on the space of others who wish to communicate with you, nor curtail interesting news, which we know you always peruse after reading our notes.

We had intended touching on the object of these notes this week, but the store is filling up with customers and we must postpone it.

Yours truly,  
Hunter Drug Company.

**Local and Personal**

J. J. Granville came in from Los Angeles the first of the week.

J. A. Kellan was in from the Little Colorado the first of the week.

John M. Lane of San Francisco was in Flagstaff this week on business.

C. Dickerson of Ash Fork was among those who registered at the Commercial last Sunday.

Frank Pease of Marshall, Mich., was registered at the Commercial hotel last Sunday morning.

S. T. King of Garden City, Kansas was among the arrivals in Flagstaff last Monday morning.

Miss Sylvia Leigh will render "The Holy City" at the Majestic theatre Sunday evening. A treat for all.

E. J. Brown, the Ash Fork stockman, was transacting business in Flagstaff the early part of the week.

Mr. E. S. Gosney sold the old Wm. Munds place last week to J. A. Fenstermaker of Dos Cabezas, Arizona.

Harry Henderson and Charles Woolfolk have purchased the Lockard residence on Aspen Ave. of the Lockard estate.

Chester A. Black returned Saturday evening from a several weeks' stay in Los Angeles with his mother, Mrs. Geo. Black, Sr.

Gus Bailey, the contractor, is remodeling his home on west Aspen avenue, and will have a fine bungalow when it is completed.

Miss Elsie Dietzman, who has been attending school at Phoenix, is again at home with her parents, Mr. and Mrs. Herman Dietzman of this city.

F. A. Brown of Phoenix was in the city this week on business. He left Wednesday for other parts of the state before returning to the southern city.

Charles Brooks, a temporary resident of Bluewater, N. M., was in Flagstaff Saturday and the Masonic fraternity put cement mortar in his hair.

"Boss" Acker was up from his Apache Maid ranch the first of the week with a load of hogs which he placed on the market. He says the country is quite dry in that section and that they will need rain for both cattle and agricultural purposes in the near future.

John Wagner, the enterprising meat market man, is keeping pace with the improvements in the city and is having a fine cement sidewalk placed in front of his residence property, in the west part of the city. Many others can follow his example with most satisfactory results.

Senator-Elect F. S. Breen, who presides at the editorial sanctum of the Coconino Sun, left last Tuesday morning for Phoenix where he is attending a meeting of the "Shriners." The paper is in the hands of the printers and the public need not expect too much paper under the circumstances.

The flag which waves from the flag pole on the Emerson school building has almost fluttered away, like the declining butter fly. Only a few fragments of what was once a flag remain. Since Arizona and New Mexico have joined the union we will look for a brand new flag with two large new stars to float from this staff as soon as one can be obtained.

Last Tuesday was pay day at the big mill and as a result there was some extra life in town this week.

"The Rosary," an excellent play, endorsed by many of the leading clergymen of the country, will be put on at the Majestic soon. See the announcement later.

Judge Doe has been quite busy this week fixing up and arranging his office fixtures preparatory to resuming the practice of law. He will be located over Babbitt Bros. grocery, where he has very convenient office rooms.

Charles A. Keller was this week appointed as court commissioner of the superior court of Coconino county by Judge Perkins. Mr. Keller has had experience in this line of business and will fill the position with credit. "Judge Keller" sounds all right.

Superintendent Reber of the city water works system has been busy this week looking after the water supply and the condition of the system. The present dry weather has made it necessary that all the water be preserved that the consumers have what is necessary.

A. S. Worthington, who has been living in the southern part of the state for the past year or so, returned to Flagstaff the first of the week and will again make this his home. His old friends will be pleased to welcome him back to this section.

Wm. Beeson, who has charge of the street work in the city, has a force of men at work in the southwest part of the city, near the Normal School, repairing the streets and improving the road. The improvement was very much needed and will be much appreciated by those who live in that section of the city.

Fred Lynch, who has been with the Babbitt Brothers mercantile company for some time, has been appointed as the official court stenographer by Judge Perkins and has entered upon the duties of that office. Mr. Lynch is a very capable stenographer and will handle the affairs of his office in a very satisfactory manner.

Fred Allen is going into the chicken business on the wholesale plan, if one is to judge from the size of the incubator which he received this week. The reporter does not pretend to know how many eggs the new machine will hold, but several thousand, at least, and the whole country will be alive with little birds pretty soon.

The number of buildings under construction in the city at the present time would indicate that the present year will see much building and improvements in Flagstaff. Really the people of this section would do well to make Flagstaff a summer resort for the other sections where the heated term is burdensome. The money expended in going to the coast would as well be spent in Arizona and the quicker we are prepared to care for those who come to us the better it will be for all concerned.

While other sections of the state are making efforts to secure the auto high line the northern sections should not lose sight of the fact that if we want the line to run through this section it will pay to get right in after the matter in earnest and that at an early date. Notwithstanding that Northern Arizona has the most wonderful natural attractions for those who will travel over the line, we are going to have a fight to get the line. The southern sections of the state are going after the matter in a way that they hope will secure it. Let's beat them to it!

W. L. Arnold of Collinsville, N. M., was an arrival in the city yesterday.

J. F. Derrick of Sedona was in the city this week on business, returning to his mountain home Wednesday. He was accompanied by Mrs. Derrick.

D. W. Thomas had an exhibition of his oil paintings of prominent local people at the Hick's house. His paintings have attracted marked attention and are remarkably good productions. Mr. Thomas will be pleased to show his pictures to any one calling.

Robert, the infant son of Mr. and Mrs. A. Reber, is seriously ill at their home, the result of having eaten a piece of cheese which had been poisoned and placed in a secluded place to kill mice and rats. The little fellow crawled into the room and ate the poison. Three doctors were hastily summoned as soon as he became ill and by hard work his life was saved. He is considered out of danger at this time.

**State Appointments**

Governor Hunt has been busy the past week getting his new cabinet together. So far he has appointed Lamar Cobb state engineer, R. Sims, warden of the state penitentiary.

Joseph Dillen, formerly chairman of the democratic territorial central committee, has been appointed clerk of the supreme court by Chief Justice Alfred Franklin.

**Were Pleasantly Entertained**

Mrs. Will Stoppelworth delightfully entertained members of the Larkin Club at her home Monday afternoon. The house was attractively decorated, and dainty refreshments were served. Members present included Mrs. Bigley, Mrs. Weddle, Mrs. Tyson, Mrs. Springstead, Mrs. Lucas, Mrs. Woodruff, Mrs. Poltson and Mrs. Heston.

**An Opportunity in Showland**

Flagstaff may have an opportunity to see one of the best companies in the land at an early date. This week Manager Ryan received a communication from Los Angeles in regard to the coming of the famous Walter De Leon's latest and greatest success, "The Campus," with Ferris Hartmann, Maggie Davis and Walter De Leon, in company with a cast of something like forty characters. The company has been playing in Los Angeles for the past six months and has met with the greatest possible success. The company is preparing to make a tour of Arizona, New Mexico and a part of Texas. They have asked the management of the local theatre for a guarantee to visit this city. If the people will express themselves to the manager in favor of the company he will be glad to close the contract for their coming. Those who know anything of the play will be pleased to see it.

Sedentary habits, lack of outdoor exercise, insufficient mastification of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach troubles. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will soon be well again. For sale by all dealers.

**Two Hundred Dollars Reward**

The above amount will be paid for positive information as to the identity of the person or persons who has placed poisoned meat within the city limits of Flagstaff. feb. 19-31 N. D. SWARTOUT

**Wanted 100 Warriors**

Company I needs a big bunch of soldiers. There is no telling what may happen shortly and I want more good men to represent Northern Arizona as it should be represented. I want men.

Drill at armory every Friday night where I can be found if you want to enlist.

W. A. CAMPBELL  
Capt. Co. I.

**Babbitt Bros.**

Mr. Edgar Hash, manager of our Dry Goods Department, on his recent tour of the big Eastern and New York markets, made some splendid purchases of ladies' wears in the latest patterns and models. We shall make announcements later in these columns when these goods will be on display.
