French Fried Potatoes "Cottolened"

DID YOU ever eat French Fried Potatoes made with Cottolene? If not, you've never eaten French Fried Potatoes at their best.

Cottolene makes them rich and crisp and appetizing, but never greasy.

If you have been frying and shortening your food with butter, try

Cottolene

It is every bit as good, at less than one-third the price.

If you are using lard for shortening and frying, we would simply suggest that Cottolene is recognized and recommended by leading physicians, domestic science authorities, and culinary experts generally, as being more wholesome, digestible and producing better food.

Cottolene is a vegetable product—pure in source and making—and is bound to be better and safer than lard.

Try this Recipe

Pare the potatoes, shave in very thin slices, or cut in straws, 1/2 in. strips, dice or crescents. Soak in cold water, drain dry on a napkin, and cook few at a time in basket in deep hot Cottolene. Drain and season with salt.
