Market Letter for the Past Week.

Kansas City Market Letter

(By J. A. Rickart, Correspondent)

Kansas City Stock Yards, July 6, 1914.—The feature last week was further separation of prices between choice fed cattle, and the lower grades. The same tendency exists to-day, on a small supply of 6000 head, except that cows and heifers of all classes are strong to 15 higher to-day. Choice Missouri blue grass and corn steers sold up to \$9.50 to-day, several droves bringing the price. One 7 car drove sold at \$9.45 and \$9.50, said to be the highest price ever paid here for so many steers in one lot. Grass is a factor in the price cuts on lower grades. Stockers and feeders are 15 to 25 higher to-day, after two or three weeks of very reasonable prices on them. Feeders sold at \$8 to-day, for the country, and other feeders sold to packers at \$8.10, indicating beef hunger among the killers. Kansas will be in the market for cattle early this year, and from now on demand for stockers will exceed the supply constantly here. With beef cattle receipts running so light, considerable competition among killers and feeder buyers will develop on half fat steers. Quarantine supply is 64 cars to-day, largely from North Texas. Some of the steers sold at \$8.50, and a 5 car drove brought \$8.40, newly July prices on quarantine here. Oklahoma cattle are not fat, and as that district has been visited by plentiful rains, and the market is acting creditably on decent cattle, owners naturally desire to put on weight, and feel safe in doing it. Hog receipts today are only 2500 head, and the market is 5 to 10 higher. Top is \$8.50, and bulk \$8.30 to \$8.50. A larger run might have produced some \$8.55 hogs, as the market is very capable, and apt to surprise shippers in a favorable way. Not a single live stock market in the west, beginning at Chicago, and extending to Denver and Ft. Worth, had an increase in hog receipts in June over June a year ago. All show losses, and the total decrease at 9 market points was 200,000 head, or 12%. The sheep market is stronger to-day, after irregularities last week. Arizona spring lambs topped the market at \$8.90, but choice Idaho lambs would exceed that price. Native spring lambs lack quality, and most of them sell at \$8.35 to \$8.85. Yearlings bring up to \$7, wethers \$6, most of the ewes \$4.40 to 4.75, choice ewes worth \$5 or better, breeding ewes \$5.35, feeding lambs \$6.75. Receipts are running light, only 3300 here today.

Hayden Will Distribute New Year Books

Congressman Carl Hayden has asked us to advise the readers of The Sun that he has received a limited allotment of yearbooks of the Department of Agriculture for 1913 which he will be glad to distribute to any of his constituents who will write to him.

The yearbook contains the annual report of the Secretary of Agriculture and a number of well written articles, among which the following are of especial interest to the farmers of Arizona:

"Factors of Efficiency in Farming" by W. F. Spillman.

"The Grain Sorghums" by C. R. Ball.

"Practical Tree Surgery" by J. F. Collins, and "Organization of Rural Interests" by T. N. Carver.

An article entitled "The south American Meat Industry" by Dr. A. D. McIvin will be read with interest by the stockmen of Arizona, while a contribution by C. F. Langworthy on "What the Department of Agriculture is doing for the Housekeeper" should be helpful to the housewives of this state.

Letters requesting the yearbook should be addressed to Mr. Hayden at 406, House Office Building, Washington, D. C.

FOREST SERVICE GETS MONEY BEGINNING JULY 1

The general public knows that its money is used in administering the National Forest in the same manner as it is used in supporting the army, building battleships, reclamation projects, etc. But ordinarily it is not well informed of the details of such expenditures. Thus while the people of Arizona and New Mexico know that their money goes toward the administration of the National Forests within the States, yet very few indeed know of the manner in which it is expended.

The allotment for District 3 of the Forest Service, which includes the National forests in the States of Arizona, New Mexico and Oklahoma, for the fiscal year commencing July 1, 1914, totals \$542,974. On the basis of the net acreage of National forests within these three States, the cost of administration and protection of 1 acre of land amounts to about two and one-half cents. Yet based on actual operating expenses, the cost of administration could be considerably reduced. To further explain, the total allotment received includes \$100,000 which will be expended on work which brings in no direct money returns. For example, \$15,000 will be expended in classifying the lands within the Forests, the object being to definitely ascertain the amount and location of lands chiefly valuable for agriculture, to provide for homesteaders. However, the consumation of this work should reduce the cost of administration to an appreciable extent.

The sum of \$20,000, will be expended in making final surveys of Forest Homesteads; in previous years, the homesteader personally paid from his own pocket for such surveys. For the expenses incurred in actual fighting fire \$10,000 has been set aside, to be used of course, only when needed. Planting trees, the maintenance of two Forest nurseries and one experiment station, and carrying on forest investigative work will cost about \$15,000. To further extend telephone lines, roads and trails, and construct lookout towers, cabins, fences, tanks, etc., will mean the expenditure of \$45,000.

On the basis of straight operating expenses alone, the Forests of District 3 are self-supporting, since the receipts approximately total operating expenses. But operating expenses also include the use of funds on much work that does not bring receipts. For instance, timber is given away free to homesteaders and others entitled to it under the regulations. The fees charged for the grazing of cattle, sheep and goats is not based on the actual commercial value of the forage, but rather on the cost of administration of this activity. The receipts from this source would probably be more than double the receipts now obtained if the charge for grazing was based on the actual value of the forage crop. When prospective settlers apply for a homestead within a National Forest, the examination of the tract is made free of charge. Then too, many permits for occupancy of National Forest lands are issued without charge.

Stops Neuralgia—Kills Pain

Sloan's Liniment gives instant relief from Neuralgia or Sciatica. It goes straight to the painful part—Soothes the Nerves and Stops the Pain. It is also good for Rheumatism, Sore Throat, Chest Pains and Sprains. You don't need to rub it—it penetrates. Mr. J. R. Swinger, Louisville, Ky. writes: "I suffered with quite a severe Neuralgic Headache for four months without any relief. I used Sloan's Liniment for two or three nights and I haven't suffered with my head since." Get a bottle to-day. Keep in the house all the time for pains and all hurts. 25c, 50c, and \$1.00, at your Druggist. Bucklen's Arnica Salve for all Sores.—Advertisement.
