MY AUTO, 'TIS OF THEE

My auto, 'tis of thee,
Short cut to poverty,
Of thee I chant.
I blew a pile of dough
On you two years ago,
Now you refuse to go,
Or won't, or can't.

Through town and countryside,
You were my joy and pride;
A happy day.
I loved the gaudy hue,
Thy four white tires so new,
Now down and out for true,
In every way.

To thee, old rattle box,
Came many bumps and knocks,
For thee I grieve.
Badly the top is torn,
Frayed are thy seats and worn,
A cough affects thy horn,
I do believe.

Thy perfume swells the breeze,
While good folks choke the wheeze,
As we pass by.
I paid for thee a price,
'Twould buy a mansion twice,
Now all are yelling "ice;"
I wonder why.

The motor has the gripe,
Thy spark plugs have the pip,
And woe is thine.
I, too, have suffered chills,
Ague and kindred ills,
Trying to pay my bills
Since thou wert mine.
Gone is my bank roll now,

No more "'twould choke the cow,"
As once before,
Yet if I had the mon,
So help me John-amen,
I'd buy a car again
And speed some more!

FACTS FOR FARMERS

Before casting their ballots this fall producers of meat and dairy products would do well to consider economic questions and not permit preparedness and foreign policies to engross their whole attention. A Republican administration can take care of these latter problems in a satisfactory manner, without wobbling all over the continent, and can also establish and maintain economic policies that will promote and conserve the industrial interests of the people of the United States. The Democratic party has failed in handling all these government problems.

Producers of meat and dairy products should give special attention to economic policies because of the effect those policies have upon them and the industries in which they are engaged. The effect of the free trade policy during the first 10 months operation of the Underwood tariff law, when there was no war to complicate trade, will startle those who have not studied the facts.

From October, 1912, to July, 1913, inclusive, 10 months under the Republican tariff law, our imports of meat and dairy products amounted to \$12,460,501, on which duty was assessed at a rate which provided a goodly revenue to the Government.

The Underwood law became effective October 4, 1913, and from that time up to August 1, 1914, when war in Europe broke out, our imports of these products amounted to \$40,545,512, an increase of over 226 per cent, and not a cent of revenue was realized thereon.

A man was fixing his motor car on the Littleton road. "Trouble?" asked the passing ranchman. "Yes," was the laconic answer. "What power is it?" "Forty-horse." "What seems to be the matter with it?" "Well, from the way she acts, I should say that thirty-nine of the horses are dead."

MASS MEETING HELD AT WILLIAMS RESOLVES AGAINST ROAD BOND ISSUE

Whereas, heretofore, and on the 15th day of August, 1915, at Williams, Coconino County, Arizona, a joint meeting of a committee selected at a public, people's mass meeting at Flagstaff, and a like committee selected in the same way by the people of Williams, was held, and that after due consideration, the said committees, at such joint meeting, considering it advisable, and recommended;

That in the matter of bond issue for public road improvements in Coconino county, Arizona, the first moneys realized from the sale of such bonds should be expended in the construction of a road leading from the Eastern and terminating at the Western boundary lines of said County; and that such road should be first constructed, before the construction of others; and,

That the amount of such bonds to be issued should be fixed at \$200,000; to be sold as funds should be required, until needed improvements should be completed; and,

That all work in the construction of such roads, should be let and done by contract; and,

That for the supervision of the construction of such roads, letting of contracts therefor, and the expenditures of the moneys, an election should be held by the people, to elect by them an advisory selection, of three persons, one from each Supervisorial District within said County, all to be resident taxpayers, for the appointment to be made by the Board of Supervisors, with the idea that the Board of Supervisors would appoint such persons so elected by the people; and,

Whereas, on the 8th day of March, 1916, the Board of Supervisors of Coconino County, have called for an

election to be held in said County, on the 2nd day of May, 1916, for the purpose of voting for the issue of Bonds of said County, for the purpose of construction and re-construction of roads and highways, and for the re-construction of bridges in said County, and creating an indebtedness therefore; but,

That no limit is placed upon the said Board of Supervisors, by such call, as to how, where, when, or in what manner any or all of such moneys, proceeds of such bonds, should be spent, but that the entire control thereof is by such call left within the power of such Board of Supervisors; and, if voted, there would be no legal manner of arresting or controlling any such work or expenditures, no matter how unnecessarily or needlessly done; and

That said Board of Supervisors, in the making of such call for election, have wholly ignored each, every and all of the said recommendations of said meeting of said committees, so jointly held;

That the amount of such bonds so to be voted for, is raised \$50,000; and

That there is not any provision for the letting of work by contract; and

That there is no provision allowing the people of the several Supervisorial Districts, to have any say as to the persons who should form such highway commission, who should determine where, or when, or in what manner such roads should be built, or how much of such moneys should be spent, or in what manner;

Now, Therefore, be it Resolved: That it is the sense of this meeting, and that this meeting does, entirely condemn, and heartily oppose, the issuance of any Bonds, or the creation of any County indebtedness, upon

any of the terms or conditions as expressed in the said call for election by said Board of Supervisors; and that we do most urgently resist the handling and expenditure of any moneys by the Board of Supervisors of this County, that might be realized from the sale of such bonds, and their dictation of how, where, when or in what manner such moneys should be expended;

Hereby recognizing, as we do, that the subsequent action of the said Board of Supervisors, apparently appointing a Highway Commission, and naming the members thereof, and the specifying of where the said moneys should be spent, and how much to each place, has not any binding effect whatever, but is simply of a wholly misleading character.—Adv.

Speed

The Stranger—Why are you driving the car so fast?
The American—To get to the ferry. Later, at the ferry:
The American—We have twenty minutes to spare.

The Stranger—I knew it. In this country you will race the car, burn up gasoline, imperil lives, run the chance of being arrested and kill a chicken to gain twenty minutes for which you have no use when you get them.

"Christopher! Did I see you raising your hat to our parlormaid?"

"Yes, my dear."

"Christopher!"

"Well, my dear, if I ignored her she'd give notice. She's too smart to be nodded to; and if I winked at her you'd be annoyed."

GALA DAYS JULY 3 AND 4 Flagstaff Will Celebrate

The Elks Lodge of Flagstaff will offer a Fourth of July Celebration this year, the proceeds of which will help to build their new home. Plans are under way to make these two days something to be remembered in the way of Indian, Cowboy and Lumberjack sports. There will be something worth seeing all the time—not one dull moment in two days. Particulars later.
