

MOTOR TRUCK DRIVERS WANTED FOR RED CROSS

Twenty experienced motor truck drivers, twenty helpers and ten expert mechanics are needed at once by the American Red Cross for service in France, according to a cabled request just received by the Red Cross War Council from Major Grayson M. P. Murphy in charge of the Red Cross mission to France.

The mechanical squad will include master carpenters, body builders, painters, machinists and electricians—two each. The trucks for which drivers are sought are of two-ton capacity and will be used in the rapid transfer of Red Cross supplies from seaports to their destinations, a service made necessary by the congested condition of the railroads in France. Volunteers beyond military age have been asked for this service by the American Red Cross to work without compensation and Red Cross officials are hopeful that employers of motor drivers and the other expert help required will contribute the services of the men, paying their salaries while in Red Cross service.

The Red Cross will pay the transportation and living expenses of the men while abroad. It is the intention when the men are recruited to give them intensive mechanical training, some drill and if possible some preliminary instruction in the French language.

This contribution to the American Red Cross by employers of skilled labor would be similar to the contributions of large organizations to the Red Cross staff at headquarters which includes nearly seventy-five volun-

teers, many of whom are paid by outside organizations while working for the Red Cross.

Offers of assistance along the line of these Red Cross needs should be made to A. W. Staub, Director of the Atlantic Division of the American Red Cross, Metropolitan Tower, New York City, or to the nearest Red Cross chapter.

At the County Recorder's Office

Release of realty mortgage, Citizens Bank to J. E. Hanna et ux.

Waranty deed, J. E. Hanna to C. P. Hanna.

Realty mortgage, C. P. Hanna to Citizens Bank.

Bill of sale, Jose Montoya to John Sinclair.

Chattel mortgage, John Sinclair to Jose Montoya.

Notice of water appropriation, W. F. Griffin.

Satisfaction of mortgage, Williams State Bank to John Klock and wife.

Appointment of deputy sheriff, W. G. Dickinson to Frank Owenby.

Chattel mortgage, Antonio Valdevia to Edgar Hash.

Bill of sale, David Broilner to F. S. Dickinson.

Release of realty mortgage, Arizona Central Bank to W. S. Borum et ux.

Sure of Getting Him

"The first shall be the last and the last shall be the first," quoted the devout citizen.

"It makes no difference to me how you arrange 'em," replied the expert commercialist. "I'll get mine either way. I'm the middleman."

Range and Market News

Items of Interest Pertaining to the Livestock Industry of Arizona, Market Letter for the Past Week.

WEEKLY KANSAS CITY STOCK MARKET REPORT

Kansas City Stock Yards, July 30, 1917.—Cattle receipts were 25,000 head today, a big drop from recent Mondays. Prices opened strong to 15 higher, but later slowed down to barely steady, top \$13.75. Hog receipts were 7,500, market mostly 10 higher, top \$16.10. Sheep and lamb supply was 3,000, market weak to 25 lower, best lambs here \$14.50.

Beef Cattle

Missouri beef steers sold at \$13.75, as compared with a top of \$13.90 for best steers here last week. Weighty grass steers were not as numerous today, sales not much changed from the close last week, 15 to 25 below a week ago, best in this class \$12.65, light grass steers down to \$9. Oklahoma shipped lightly, prices around steady, good steers weighing 900 to 1,000 lbs. at \$9.10 to \$9.75, 750 to 850 lbs. at \$7.50 to \$8.75, lighter steers down to \$6.75. Butcher cattle opened with good prospects but lost their advantage. Striking switchmen at Chicago threw the market off its stride, and the reported settlement of the strike this morning did not quite restore the equilibrium.

Stockers and Feeders

There was a large hold over from last week, 9,000 head, but more country buyers appeared today, and this in connection with receipts smaller than heretofore resulted in a steady market, at recent declines. Some good red Kansas steers sold early at \$8.50 weighing 875 lbs., considered steady. Stock steers range from \$6.25 to \$8.50, including best quality. Some fleshy steers are going out as high as \$11.75, but this trade is not yet dependable.

Hogs

Excited markets closed last week, and buyers asked a quarter higher at the start today. Later the situation settled to a 10 higher basis, with that advance gone at the close. Prime heavy weights sold at \$16.10, highest price since May, medium weights \$17, best lights \$15.60. Dry weather and two dollar corn are too much for some raisers, and a certain number of good breed sows are being sacrificed. Courageous farmers are able to get brood sows worth the money from timid owners now, one Kansas man today telling of his purchase of two good bred sows, weighing 300 lbs. each, at \$30. apiece at his home last week.

Sheep and Lambs

Bad fresh mutton and lamb markets in the East continue, and prices at the sheep house are lower, choice lambs worth \$14.75, possibly \$15.00 with culls at \$10. Two cars of Arizona sold today at \$14.50, with 150 feeding lambs out at \$14. Fancy feeding lambs, weighing 55 lbs, might bring \$15, heavier ones less. Fat ewes sell at \$8, to \$9.50, breeding ewes \$11 to \$14.50, old broken mought ewes at \$6 to \$7.50, this kind being a gamble, with chances against the buyer.

J. A. RICKART,
Market Correspondent.

WOOL MARKET

Trading has been fair and a somewhat firmer feeling is noted, though actual advances are few. Manufacturers have been in the market in considerable numbers, but do not appear to be ready to make large purchases. Much of the wool coming forward from the west is already billed to them, hence the actual amount of unsold stock on the market is much less than usual at this season. Developments in Boston center around the wool needed for naval contracts and the possibility that the British government may take over the South African clip. The first of these is already assured, and negotiations are under way between the British authorities and delegates representing the South African wool growers, looking toward the purchase by the former of the wool clip of 1917-18. Neither of these has had any material effect on the Boston market, but the former is expected to eventually fix a maximum price for certain grades of wool. Contracting in South America has been held up to some extent by the attitude of the growers, recent quotations showing a cost laid down at Boston far above a parity with that market. Buying is still going on in Ohio, on about the recent level of prices, but in the far west little is being done, clips remaining unsold coming forward on consignment.

Woolen spindles employed on domestic war orders about doubled between June 1 and July 2, and worsted spindles increased nearly 30 per cent., but the percentage of idle woolen spindles increased from 5 per cent, on June 1 to 6.8 per cent. on July 2, while idle worsted spindles increased from 10.9 per cent. to 19.1 per cent. Wide looms idle also increased.—Brodstreets.

AMERICAN EFFICIENCY

Germany efficiency has been held up as a degree of excellence unattainable by a Democracy. The accomplishments of the United States since April 5th last refute the truth of the claim. In the short space of time since that day the United States has accomplished the following:

Declared a state of war as existing between this country and Germany;

Seized 91 German ships and begun repair work on them;

Authorized unanimously a war fund of \$7,000,000,000;

Appropriated \$600,000,000 for merchant shipping and as much for air fleets;

Agreed to loan our allies \$3,000,000,000 and advanced them a large proportion of that sum;

Passed a selective draft law and in a single day registered nearly two million men for military service;

Enlisted 600,000 volunteer soldiers in the regular Army and in the National Guard of the States;

Sent a Commission to Russia to aid Democracy there and a body of railroad men to Russia and another to France to advise and assist in railroad transportation in those countries;

Began the construction of 32 camps for our soldiers;

Sent to England a fleet of destroyers and to France a detachment of troops;

Authorized and now enforcing embargo whereby our enemies will receive no more food or material from us;

Passed a food conservation law;

Organized many voluntary commissions and boards who are aiding the Government and the people in the speeding up of work, conservation of food, and other national movements;

Drafted by lot 687,000 men for military service;

While the Government was accomplishing these things the American people have loaned the United States \$2,000,000,000 and offered \$1,000,000,000 more, over four million citizens subscribing to the loan.

In addition they have given over \$100,000,000 to the American Red Cross and \$3,000,000 to the Young Men's Christian Association.

All these things were accomplished while our soil was not invaded or even threatened with invasion and without any disturbance of business conditions. All was done with the calm determination and judgment of an earnest, patriotic people performing a service for civilization and mankind and maintaining the rights, the dignity, and the honor of the greatest nation in the world.

The German leaders derided America's entry into the war as a bluff. This is our answer.

The German Imperial Government was nearly fifty years in perfecting its military efficiency. In less than four months the American Republic has made such strides as to indicate that in less than two years' time the boasted superiority of German efficiency will have been discredited. There is such a thing as American efficiency, and time will prove that German efficiency can not withstand it, fighting as it is for liberty, justice, and humanity.

Afraid to Go Home

A policeman found a man leaning weakly against a lamp post one cold night. He was carrying a lopsided load of alcohol. Fearing he would overflow and freeze, the cop gave him a gentle nudge with his night stick.

"Get out of here and go home," he ordered.

"I can't," wept the man with a strong Teutonic flavor. "I wish I was dead. I came from Bavaria, my wife she is French, and her mother, who lives by us, is Swiss. My oldest girl got married to an Italian, and my other one to a Dane, and now, since this country went to war, my three sons say they are Americans. What do I want to go home for—to get killed?"

The cop rubbed a thoughtful finger across his face.

"Well," he said, "it's agin regulations but you got to go somewhere," and he eased him gently into the back entrance of a saloon and put him in a chair.

The wee-begone Teuton wept loudly as the policeman went away.

Cheer for Your Own

Premier Lloyd George of Great Britain was making a speech. He cried: "I stand for home rule for Ireland"—great cheering.

"Home rule for Scotland"—some cheers.

"Home rule for gallant little Wales"—thunders of applause, and a voice.

"Home rule for 'ell," and yells of laughter, hisses and catcalls.

"Right," said Lloyd George, "quite right. I like to see a man stand up for his own country."

Coolness AND Comfort

A refreshing drink at our fountain is a hot weather tonic. We use only fresh ranch eggs and pure milk in making all drinks, ice creams and ices.

Picnic lunches are never complete unless they contain a good variety of confections. Our bakery goods, confections and home made candies are in great demand by picnic parties as well as by the town trade. Try our goods.

Confection Bakery

SAFE

SCENIC

Block Signals mean safety. Oil sprinkled roadbed and rock ballast prevent dust. Oil-burning locomotives eliminate smoke. Moderate altitude assures coolness. Fred Harvey meals leave nothing to be desired.

BACK EAST

Summer excursions will be continued during August and September. Tickets will be sold August 14-15-28-29 and September 4-5. Leave on one of these dates and take advantage of excursion fare.
