**Adams Street Garage**  
229 East Adams Street.  
Smith & Dewey, Proprietors

**NATATORIUM FOR PHOENIX**  
Skating Rink to Be Improved So That Floor Can Be Removed in Summer Where Plunge Pools Will Be Located  
Announcement was made last night of a big improvement in the city of Phoenix that will be hailed with delight by the people of Phoenix, and very particularly by the younger men. Phoenix is to have what has long been wanted, a big, clean, modern natatorium. E. C. Eastman, who owns the big skating rink at the corner of First and Polk Streets, has now completed all plans and has let the contracts to the various artisans for the construction of this natatorium, which will begin about the first of the month or immediately upon the close of the Brown-Curry meetings which are now being held in the skating rink. Mr. Eastman has arranged to use this big piece of property for a double purpose--natatorium in the summer time and a skating rink in the winter time. The big floor will be removed in sections and stored away ready to be replaced for skating in the fall. The en-

tire building will be used for the natatorium, a natatorium that is to be 62 feet by 140 feet. The pool will be built of concrete and will be from 18 inches to nine feet in depth. A large sum of money is to be spent to make this place a thoroughly sanitary one, one with every possible comfort. There will be a steady flow of water so that it will be fresh all the time. The big tank will be drained and washed daily. The plans call for 250 dressing rooms. Eastman has placed an order for 1000 bathing costumes which will insure plenty of dry and clean suits at all times. He has also placed an order for 2500 special bath towels. An orchestra balcony has been planned for there will be music every night. The natatorium will be open from eight in the morning until eleven at night. Mr. Eastman announces that it will be his strict endeavor to give the people of Phoenix not only a thoroughly sanitary place, but one that will be conducted with thorough order at all times, and no sick people will be allowed. Plunges, spring boards and various athletic apparatus will be installed. An expert swimming instructor will be engaged to teach swimming. Another thing that will be of interest is the fact that there will be a separate pool partitioned from the main one where only women will be allowed. There are promised many exhibitions and feature attractions during the summer, and the big Eastman natatorium doubtless will prove to be one of the several new factors tending to keep more people in Phoenix during the summer season.

Mr. Eastman intends to have the natatorium so built so as next fall the roller skating floor will be replaced. This he has arranged to do on the first day of November, so as to be in good running order before Fair week. He has already placed an order for an additional six hundred pairs of skates with the Richardson Skate Company of Chicago. These skates will all have fibre roller which are considered especially fine.

**FEDERAL COURT TERM IS ENDED**  
One of Longest Terms is Over--Judge Sawtelle to Remain in Chambers Until April 6, When April Term Opens  
One of the longest federal court terms on record ended yesterday when Judge Sawtelle adjourned the United States district court's October sitting shortly after three o'clock. It has been an interesting term. Many criminal and civil cases have been disposed of. The length of the docket will probably never again be equaled in the Arizona district court, for this one was the last term under the new provision of the federal law cutting the state into four divisions. The next regular term opens on April 6, and will be entitled the April or spring term of the court. From this date until April 6, nothing will be considered outside of chambers. Few cases remain uncompleted, or untouched. The dismissal of some admittedly weak indictments by United States Attorney Thomas A.

Flynn has left the criminal record about clean. The court attaches will by no means drop their activity of the past few weeks. Although the next term will not comprehend such a mass of cases as the last one, there still remains much to be done in preparation.  
**WOMEN AND BANKS**  
"You've heard a lot of stories about the fool mistakes women make when they come to a bank," said a well-known paying teller, "and some of them are true. I've seen 'em all--the woman who gets mad when we call her attention to an overdraft, and then wants to write a check to make it up; the woman whose indorsements are weird--all of them. "But the worst came a few weeks ago. She shoved a check through the window without looking at me. I said: "Madam, you will have to get someone to introduce you before I can cash this check for you." "Sir," she answered haughtily, "I am here on business, and not making a social call. I do not care to know you."--Bankers' Journal.  
Brown--I'm going to buy a revolver and kill myself.  
Jones--Save the money. Go over and congratulate Harduppe on his triplets.  
Doctor--Always eat the skin of the fruit. What is your favorite fruit?  
Patient--(frightened) Coconut!
