Will be a race of blood, sweat and gasoline. Also oil. The first Maricopa Auto Club track race will happen at the state fair grounds this afternoon at 2:30—remember the time—2:30. Entries will be accepted or changed up to this morning, so you can't really tell from The Republican's list who isn't going to race. You might see your husband, brother—even your best friend out there grinding off the miles this afternoon. That there will be more than the aforesaid nine entries is probable, seeing as there remain such excitable drivers as Tremaine, Smith, Nauquin on the outside of the fence. The referee of the Vandy race is here, and will act as the main power this afternoon. He is Grand Prize Bullard, the small live wire attorney general of the state of Arizona. He has the following official family: Judges—E. P. Conway and J. H. Kibbey. Timers—Celora M. Stoddard, E. W. Lewis, A. L. Moore, Lyle Abbott. Clerk of the course—Leon S. Jacobs.

Dep. "You wanna watch that Buick. She's fast. I'm tellin' you. Why, I saw her do 55 an hour with the top up."

"I'da put in my car only I saw in the paper that Stan Murphy and Steve Goodwin were going to drive the Mercer."

"Morton's Buick with Hartwell up. Thass the winner."

"Yes, but you're forgetting Charlie McArthur's white Case. You think he put that car in to get it dusty?"

"Well, I'm gonna go broke if Johnny Sabra doesn't show these poor amatures the way."

"Thass me, too."

But Bob Truman is a driver. Didn't he win the Prescott loop race last fourth of July?"

WILL GARRETT SCHULER BUY?

"Major" Must Win or the Cigars and Some Dough Will Change Hands—Sun Fete Matinee Will Develop Large Gobs of Fun

The Sun Fete matinee at the fair grounds tomorrow is going to be worth several times the price of admission, and the races will be all sorts of fun to the general public, as well as to the racing gentlemen. Take the green tree for instance. There is Garrett Schuler's "Major." Garry Schuler is willing to bet any reasonable amount up to and including the Hotel Adams that Major wins in one, two, three order. Major has got to win or his own-er's veracity will be strained to the breaking point and will drop below par after the race. Besides the Major in this race will be Arlie L., driven by Charles Dohry, and Defino by Albert Lopez and Zona B by A. W. Snyder. These three are dependable goers and in their workouts show remarkable form and speed. Schuler's Major will have to go some or the Hotel Adams will pass into other hands after tomorrow.

Besides the horses mentioned there is another and no one knows how slow or how fast he can go, and that is "Scates" which will be driven by that notable reinsman, George Nugent. George says his entry is named Scates alright but that he is not a "scate" however, and that Sunday night he proposes to come down to the Hotel Adams and smoke all the highest priced Havanas that he desires at Schuler's expense. The track boys say, however, that the race will be between Zona B and Defino with Arlie L. near by, and that Geo. Nugent and Garry Schuler are wise about doing their bragging now for they will have nothing to brag about after the race is over.

Open to teams of six men composed of members from the United States army stationed in Arizona, the National Guard of Arizona, the rifle clubs of Arizona, the cadet organizations of Arizona. Teams to be selected by the various organizations.

Distances and kind of fire—200, 600 and 1000 yards, slow fire.

Number of shots—Ten shots for record at each range, and two sighting shots at 1000 yards. Entrance fee \$10.

Prize—Cup, presented by Adjutant General Coggins, (retired).

Arizona State Match
Open to teams of five men.

RELEASE LAKE, IS DEMAND SOLON CAPTAIN STANDS PAT

Unofficial Howl Comes Over from Mesa to Addition of Soubrette to Coaching Staff—Barrett's Joke Brings Big "Rise"

War! Red, reckless war is about to be declared—maybe. Unofficial news received late last evening from Mesa is that the addition of the new utility pitcher to the Phoenix team will so jolly well disorganize the game that their admittedly superior chances of winning will be diminished beyond the point of endurance. So far, Captain Barrett of the Solons, whose idea it was to sign Hazel Lake on the Phoenix team, has received no formal protest. He will act only on a regularly written objection, he says.

The idea of adding Lake to the line up was at first purely for the advertising value it would give the game. The stunt has been pulled off in big league circles before. In fact it remains in the memory of the scribe how the entire Lubin movie outfit went on the field and surrounded First Base man Hal Chase of the Tanks, and all had their moving pictures taken. Hal later appeared in the Lubin drama. But Barrett soon got "off" that idea. He decided it was necessary to strengthen the Solons against the well known hitting ability of Mesa, so the signing of H. Lake became not so much a joke as a necessity. Everybody knows Lake's work. Every office boy who ever ruthlessly slew a regiment of grandmothers during any league season, has her batting and fielding averages at the tip of his tongue.

The word comes out of Mesa that the younger heads on the Cottonpickers aggregation are afraid the fair haired hot spark coacher of the Phoenix team will put 'em plumb off their game. They do not feel like sacrificing a cent to the progress of one high tension soubrette. They regard their so far perfect score in the percentage column as something too sacred to be spoiled.

But, soubretizes Martin, the sub damner and his faithful late at night conferee, Barrett, whether or not Hazel plays, the team will have had all the benefit of the publicity the move received, which is all same dollars and sense.

MESA TEAM HAINT FOR HAZEL; MAY PROTEST

(Special to The Republican)
MESA, April 17.—It's awful. Hazel Lake, the Savoy soubrette who played at Mesa with the Dancing Dolls company, walks out on the diamond in the game Sunday dressed in the natty uniform of the Phoenix club, there is going to be a disorganization of the perfect working machine of the Mesa team. McGowan, the Walter Johnson of the Mesa team, who is under twenty and over six, an awful age and an awful combination for bashfulness, had been selected to officiate on the mound against the senators but with Hazel Lake on the coaching lines he is liable to kill a few Phoenix batters, all of which would be purely in self defense.

Langowski, usually a collected and very calm sort of an individual, is commencing to stutter as he discusses the signing of Hazel Lake. He realizes that he has certain among his stars, lads who are not accustomed to the ways of the new woman, and he trembles at the result. He is going to make a valiant attempt to have the utility player who has been secured for coaching purposes removed on the grounds of exceeding the statute of limitations or some other such complaint. If he does not succeed in that he is going to prefer charges of exceeding the speed limit—a form of complaint which seems to work well against all Mesa automobilists who journey to the Capital City. At any rate the stunt being pulled by the Phoenix team is decidedly out of the ordinary and there is no doubt that a protest will be lodged against such tactics.

A CADET BEATS OUT OLD HEADS

The keen-eyed center-shots of the Phoenix Rifle Club cannot win everything, even from the university kiddies. For the main kiddie shot all around everybody yesterday and grabbed the All-Comers match at 1000 yards slow fire. His score was 42. His name is Lindsley. President Boido was second, with a score of 42, but he didn't make as many "fives" as his opponent so the Tucsonian won. In the same way Gulley won the Governor's Cup with 35. Adjutant General Charles W. Harris also shot 35, but not as well as did Gulley. Gulley is secretary of the Phoenix Rifle Club.

Yesterday's scores and tomorrow's program:

Match	Score
Governor's Cup	35
C. V. Gulley (Phx. Rifle Club)	35
C. W. Harris (Phx. Rifle Club)	35

Huh, you're all looking at those fast cars and those fine drivers. Don't do it. I got Bill Horrell and Vogt picked in that long race. You can have your old fifteen miler."
"Don't overlook those Studies any. That little cuss of Thomas is there. And so it goes. If everybody won who's touted to, there would have to be a stretch big enough for 'em all to come down abreast on the last lap."

[ASSOCIATED PRESS DISPATCH]
KANSAS CITY, April 15.—A discussion of the proposal to lay the Illinois Central and Harriman lines strike of 25,000 shopmen before the industrial relations committee will be taken up tomorrow by the convention of the railway employes department of the American Federation of Labor.

Oh, the car went round With its wheels on the ground! (Well, how did you expect it would go? On its mag-knee-to and its steering knuckle. Huh. That's all fours, ain't it?)

"O Geraldine, O Geraldine, What is a mag-knee-to?"
"It is the brains, the teetric brains That makes the auto go!"

"The carburetor, what is that?"
She asked inquiringly;
"It is the heart, the pumpin' heart Of a motorcar, you see."
