Almost Three-fourths of Increase in Assessors' Valuations is Assigned to the Cattle on a Thousand Hills

That almost seventy-five per cent of the \$3,000,000 increase made by the state board of equalization over the county assessments was obtained by raising the valuation of all range cattle, \$2.00 per head is shown in a detailed statement of the increases by counties recently issued.

The report of changes in the figures submitted by the county assessors also shows an increase of \$301,534 in the valuation of sheep, the increase being fifty cents a head. The remainder of the increase appears in the capital stock of a number of banks of the state, and in the valuation of mines and mining property.

In Cochise county the valuation on non-producing patented claims of the Calumet and Arizona company was increased by \$145,457.

In Maricopa county nine items were raised in valuation, the only decrease in assessor's figures being made in the case of the Pacific Gas and Electric company, which was reduced \$86,262.44.

Yuma county has the largest increase in valuation, the increase being \$1,112,244. The increases and reductions made in the county are as follows:

OPEN FORUM FOR DEBATING STATE WIDE PROHIBITION

The very important issue of state-wide prohibition has been raised. A campaign in favor of a constitutional amendment will be shortly instituted.

The Republican has decided to provide for a reasonable discussion of this issue in its pages, allowing to each side at least a half column daily for signed articles, for which there will be no charge.

It is only stipulated that the communications for and against prohibition be just and fair and that in no case shall there be any wild and extravagant statement that will in any way reflect upon the reputation of Phoenix for good order.

It is suggested by The Republican that either side, desiring to avail itself of this offer of space, name a committee through which all matter relating to the issue shall be transmitted. In such case, all communications received at this office from other sources will be rejected. We believe that this arrangement is necessary to keep the discussion within reasonable lines.

No paid advertisements from either side will be accepted.

while corn was worth 20 to 25 cents per bushel then, it easily brings 70 cents per bushel now. It was urged that whiskey, wine and beer were necessary for the health of the people, but we had a death rate annually of seventeen per thousand then and only seven per thousand now. Kansas has 105 counties, of these 94 have no common drunkards, 87 counties have no insane, 37 with no paupers, 65 with no prisoners in jail, 54 with no feeble-minded persons, and these few feeble-minded are made up largely of those who opposed prohibition. Kansas has the greatest per capita wealth of any state in the union, and more miles of railways than any other state or territory of equal population on the face of the globe.

GERMAN WOMEN RESENT CRITICISM

Have it Out With Editor of Newspaper.

BERLIN, August 16.—German women are beginning to take a leaf out of the suffragette book, or at least it would appear so from a Stuttgart incident. A conservative paper in that town, reporting a socialist meeting convened to protest against the ill-treatment of soldiers in the army, spoke of "the hysterical exclamations of females without character."

This was regarded as a reflection on all the members of the sex who had been present, and two of them determined on revenge. Either by accident or design they called at the offices of the paper at an hour when the managing editor was in sole charge, and the moment they were shown into his room they set upon him with dog-whips and flogged him unmercifully for several minutes.

Their victim was so prostrated by the fury of their attack that he could do nothing to have them stopped as they left the premises, and they got clear away without their identity being discovered.
