TEMPE

FIRST DAY'S OUTPUT AT TEMPE COTTON GIN

All Ten Gins Will Be in Operation Tonight and From Then On

Tempe's new ginney was an out-pout of two bales on its first run yesterday. Four of the gins were turned into running order and the other six will be in operation by tonight, placing the plant at its full capacity.

The first gin was put into operation shortly after six o'clock yesterday morning and gradually as the day wore on others of the gins were turned up and placed at constant work. The new automatic feeders work even better than predicted. President of the Exchange Charles W. Waterhouse, and C. G. Jones, of the board of directors, were constant observers of the gins all day and while occasionally they lent a hand to the feeders in keeping the gins at their capacity, both are more than satisfied. Two men will easily replace the ten that would otherwise be employed were not the automatic feeders on duty.

48,333 pounds of the seed cotton was on hand when work was started yesterday morning, which under the usual circumstances would probably make but a two days' run. Yet, the slight delays that will be experienced in getting the gins running at their capacity, and the many loads that are being added to the supply in the storehouse daily, will provide a plentiful supply.

All possible precautions are being taken against fire at the ginney and Superintendent C. G. Steele is doing everything in his power to impress the idea of caution more firmly on the minds of all. Just a few days ago a load of the seed cotton was ignited from cigarette sparks and practically destroyed. "No smoking allowed" signs are plainly visible and all possible precautions are being taken otherwise, to guard against fire.

WILL WINTER HERE
Mr. and Mrs. G. Cave, for many years local residents, but now of Alhambra, California, arrived in Tempe Wednesday morning to spend the winter with their daughter, Mrs. Geo. M. Frizzell. Mr. and Mrs. Cave have been absent from Tempe for several years so that it seems quite like old times to be once again in the vicinity where they resided for so long a time.

YAQUI PLEAD GUILTY
Two Yaqui Indians are now lodged in the city jail of Tempe awaiting sentence. They were taken into custody yesterday morning at Guadalupe by Constable Estrada, on a charge preferred by neighbors of drunkenness and disorderly conduct. At their trial last evening both pleaded guilty to the charge.

STREET REPAIRS
Twenty-five loads of gravel are now being unloaded on the Tempe streets. The repairs are being made at the order of the common council and add not a little to the comfort of travel. Repairs are also being made to a very good advantage, however.

CONDITIONS IN MEXICO
War conditions still continue serious in old Mexico, according to Ramon C. Estrada, Jr., who returned Wednesday morning from a two weeks' vacation spent in that country. He visited Guaymas, Hermosillo, and a number of other cities in that vicinity, and wherever he went war conditions seemed slightly hazardous. His position became slightly hazardous about the time he started his return for the United States. For his safe arrival he owes considerable credit to a drummer friend whom by chance he ran across.

HAYDEN

Rev. A. W. Adkinson, superintendent of missions for the Methodist Episcopal church in charge of the Arizona field, spent several days with us over the week-end just past and made it the occasion of a formal opening of the new church edifice with a fitting service Sunday evening. Mr. Adkinson's remarks were highly interesting and along lines particularly appropriate to the occasion. The audience was the largest in the history of the church movement here and it is hoped that it marks but the beginning of a much more general interest in church affairs over the community. The occasion of this opening service was also made very attractive by special musical programs by the choir. One particularly pleasing number of this program was a solo rendered by Mrs. E. C. Norman. The church now has a most able choir which will vie with the able efforts of Pastor Thos. H. Dodd in making our church services attractive in every way.

The past Sunday was not only a "Red Letter Day" in the matter of church attendance and entertaining services but the Sunday school also claimed its share of distinction with the record-breaking attendance of almost eighty at the regular morning classes. Superintendent Joe H. Brown of the Sunday school with the able assistance of the other teachers is making an effort to increase the membership of the several classes to a total of at least one hundred. Plans are already being discussed for a big Sunday school picnic later in the fall and this feature should make the movement very attractive to the younger element of the community.

SICK DOCTOR
Proper Food Put Him Right.

The food experience of a physician in his own case when worn and weak from sickness and when needing nourishment the worst way, is valuable.
An attack of grip, so severe it came near making an end of me, left my stomach in such condition I could not retain any ordinary food. I knew of course that I must have food nourishment or I could never recover. I began to take four teaspoonfuls of Grape-Nuts and cream three times a day and for 2 weeks this was almost my only food. It tasted so delicious that I enjoyed it immensely and my stomach handled it perfectly from the first mouthful. It was so nourishing I was quickly built back to normal health and strength.
"Grape-Nuts is of great value as food to sustain life during serious attacks in which the stomach is so deranged it cannot digest and assimilate other foods."
"I am convinced that were Grape-Nuts more widely used by physicians, it would save many lives that are otherwise lost from lack of nourishment." Name given by Postum Co., Battle Creek, Mich.
The most perfect food in the world. Trial of Grape-Nuts and cream 10 days proves "There's a Reason."
"Look in pks. for the little book, 'The Road to Wellville.'"
"Ever read the above letter? A few new appears from time to time. They are genuine, true, and full of human interest."

MESA

MESA'S CONTRIBUTION TO THE NEWS OF THE DAY

DR. CRAWFORD CLOSES PRACTICE
Dr. Crawford, who for the past few years has attended to the dental troubles of the people of Mesa, has closed his practice and Dr. G. R. Light, lately of Bisbee, will serve the people of this vicinity. During Dr. Crawford's residence in Mesa he has made many friends for himself and will regret the necessity of his withdrawal from practice. He feels however, that in Dr. Light the people of Mesa will find a man of high qualification in the profession and one in whom they can have the utmost confidence. Dr. Light is a graduate of the Chicago Dental College, and came to Arizona about the same time as Dr. Crawford did. He visited Mesa at that time but finding the field already located went to Bisbee and has practiced there since. Since the copper camp has been slack the doctor, who is a firm believer in keeping going, has been looking for a more genial location. His attention was turned to the Gem City, with the result that the transfer has been made. Dr. Crawford will probably spend the winter in Arizona and return to the town of his birth, Studentvale, Ohio, in the spring.

MUST STOP RIDING SIDEWALKS
A number of boys were brought before Justice Irwin and were given some sound advice upon the riding of bicycles on the sidewalks. It has been a condition of frequent occurrence since school started for some of the boys to ride on the sidewalks away from the center of town. Many complaints have come in from the fact that smaller children have been crowded off the walks to permit the boys to pass and there is some likelihood of accidents occurring. After the law concerning this was explained to the boys, they were released.

The city ordinance will be enforced by the officers, and it should be brought to the notice of all bicycle riders, by parents and others interested, and thereby avoid unpleasant and annoying conditions to arise.

Kellog has been placed in charge of the Mesa office, the change taking effect today. Mr. Harris will remain a few days in Mesa, to help in getting Mr. Kellog acquainted with some of the affairs before taking his position at the Phoenix office.

JUDGE KINGSBURY SEES IT
Judge Kingsbury is the only man so far that has reported seeing the comet of this year. As the judge was engaged in conducting the water over his place along about 3 a. m. Thursday morning he looked over toward the northeast and seen something unusual in the sky. He rubbed his eyes and looked again but with the same result. To convince himself still farther, he went to the house and called the attention of the family to the object, they also viewed it. The comet appears directly in the northeast, looks about three feet long from here, and is headed in a southern direction.

It was a surprise to the judge, for according to his memory, the comets discovered this year are not supposed to be visible from Arizona. The question now that is puzzling the judge is whether this is the comet referred to

or whether it is a stranger to the scientific world thus far.
Any one who is interested in these appearances may by rising at 3 a. m. see this one by looking toward Granite Reef and about one hundred feet above the land line.

INDIANS SLOW IN COMING
Commissioner Santee reports that Indian laborers are slow in arriving in Mesa, only 200 being at present employed in this vicinity. There is great demand for labor, and he has had enough started for this district to number 700, but it seems that they have been induced to labor in the fields farther south. He thinks, however, that it will only be a few days now before all the labor that is needed can be supplied.
