

BAKING DAY--Oh! What A Difference

Difference in the bread, difference in the time, and difference in the work. The old-fashioned way of kneading bread by hand was tedious, and unsanitary and uncertain as to result. The UNIVERSAL BREAD MIXER does the mixing in three minutes making better bread than you can possibly make by hand in half an hour. Perfectly sanitary because your hands do not touch the dough at all. In various sizes at

A SACRIFICE SALE OF NATIVE COPPER

Another Line of Balke's Big Curio Going Below Cost.

Among the lines which are being ruthlessly sacrificed in Balke's Big Curio Store retirement sale is that of Arizona copper articles. These articles have been made of native copper and have a value as souvenirs. But they also, every one of them, has a useful value. They include paper weights, paper knives, jewel boxes, stamp boxes, collar button boxes, smoking sets, match-safes and many others.

This copper is as brilliant as gold and will never become any duller, for its gloss has been perpetually preserved by a peculiar metallic lacquer. The people have been admiring and buying this native copper for years. A considerable part of the stock was destroyed in the fire, but what remains was part of a surplus stock and was in storage. It contains all the varieties of the large stock, but the line is likely to be broken, so that those who call early will be sure to get what they want. Grab while the grabbing is good.

Like everything else this native copper is being sold at a great sacrifice, far below the cost, for the entire stock of the Big Curio Store must be disposed of before January 1, when the rooms must be vacated. (Advertisement.)

OSBORN PARENT TEACHERS ELECT

Interesting Session of Association is Held at Osborn Schoolhouse -- Mrs. Parker Woodman to Head Organization Next Year

OFFICERS FOR 1915

Mrs. Parker Woodman, president; Mrs. N. E. Nelson, vice president; Mrs. D. B. Weissiger, secretary-treasurer.

The above named comprised the list of officers elected at the annual business meeting of the Osborn Parent Teachers association held yesterday afternoon.

Following the election an interesting program was presented. Miss Murna Wieberg discussed "Little Folks at School." She emphasized the value of the use of pictures in the schools as a means of quickening the perceptive powers of the child. She declared illustrations trained the mind to observe and to draw its own conclusions. Miss Wieberg advocated games and exercises under proper supervision with "fair play" for the slogan of all sports.

Mrs. E. N. Phillips favored the school house as a social center and suggested that the building be kept open on Saturdays under the chaperonage of the mothers. She cited several suitable pleasures for boys and girls.

Mrs. C. M. Gandy and Miss Studley contributed the musical numbers.

CATTLE QUARANTINE GREATLY EXTENDED

On Account of Foot and Mouth Disease Only Shipments from California Will be Allowed to Enter State

Acting on the recommendation of the live stock sanitary board, Gov. Hunt yesterday issued a proclamation of quarantine forbidding the importation of cattle into Arizona from any state, with the single exception of California. This drastic action was taken on account of the fact that the foot and mouth disease has spread to a number of states not named in the former quarantine proclamation, and because of the danger that it might be introduced into this state at any time by means of infected cars.

The proclamation follows: **Proclamation of Quarantine Executive Department, State of Arizona**

WHEREAS, the contagious malady known as the foot and mouth disease has been found by the secretary of agriculture of the United States, to be prevalent among the live stock of the states of Kentucky, Delaware, Connecticut, Indiana, Illinois, Massachusetts, Rhode Island, Washington, Maryland, Iowa, Pennsylvania, Ohio, Montana, New York, Wisconsin and New Jersey; and

WHEREAS, in addition to the provisions of the proclamation of the governor of Arizona, issued on November 12th, 1914, special restrictions and regulations are required for the protection of domestic animals within the state of Arizona against contagion from live stock imported from the states above mentioned; and

WHEREAS, it is believed by the live stock sanitary board of the state of Arizona, that the full extent of that portion of the United States in which the foot and mouth disease is prevalent has not as yet been wholly determined, and, in view, furthermore, of the fact that live stock within the states above enumerated, and railroad cars used in the transportation of domestic animals afford direct sources of contagion;

NOW, THEREFORE, I, Geo. W. P. Hunt, governor of Arizona, do hereby order that all members, agents and employees of transportation companies operating in and through the state of Arizona, and all stockmen and officials having duties relating to live stock, and every other person, company, corporation, and their employees shall be prohibited from bringing into the state of Arizona, any class of live stock originating in any state of the union, other than California; provided, moreover, such stock as may be imported from California into the state of Arizona, must be transported in cars which have been thoroughly cleaned and disinfected under the supervision of the proper authorities.

This proclamation supercedes the one issued from the executive department of the state of Arizona on the 12th day of November, 1914, and shall remain in full force and effect until further notice shall be issued by the governor of Arizona.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the great seal of the state of Arizona to be affixed.

Done at the City of Phoenix, the Capital, this 2nd day of December, 1914.
GEO. W. P. HUNT,
Governor of Arizona.

Attest: SIDNEY P. OSBORN
Secretary of State.
