The best appreciated, the most durable, the most practical gift is a Non-leakable Self-Filling "SHEAFFER" Pen

"It can not leak !"

SHEAFFER

FOUNTAIN PENS are the most satisfactory because

- First—They are Non-Leakable.
- Second—They are Self-Filling.
- Third—They are Self-Cleaning.
- Fourth—The gold points and rubber holders are the best that can be made and are guaranteed against defects in material or workmanship.
- Fifth—The self-filling device is guaranteed by us for three years, and after that time can be replaced for 25c.
- Sixth—The pen cannot be refilled without first expelling the last drop of old ink or sediment, thus automatically and perfectly cleaning the pen.
- Seventh—The filling device is simple, positive, compact, cannot catch on clothing, etc.
- Eighth—SHEAFFER pens always write the instant they touch the paper.
- Ninth—The final proof that we have the best fountain pen on the market is the fact that the largest manufacturers are trying to imitate our pen, but we have no fear of its being equalled.

The SHEAFFER has proven to be the most satisfactory fountain pen we have ever sold. It is the best pen made and is best for this climate. Note the "thread" on the barrel—this screws into the cap and the pen may be carried upside down in one's pocket for months and never leak.

Our stock includes:
Size of point, No. 2..... \$2.50
Size of point, No. 3..... \$3.00
