**CHRISTMAS ENTERTAINMENT**—Mrs. and Mrs. C. T. Love entertained on Christmas. Covers were laid for fifteen.

**VISITORS FROM THE COAST**—Mr. and Mrs. T. S. Love and daughter, Madeline of Los Angeles, are visiting Mr. and Mrs. C. T. Love.

**UNDELIVERED TELEGRAMS**—There are undelivered telegrams at the Western Union telegraph office for the following: Miss Helen J. Tunison, Mrs. J. L. Scott, Fred Anderson and John M. Ware.

**CONSERVATION CLUB**—An address, "The Lincoln Highway", by Miss Lucy Terrell Ellis will be the feature of this afternoon's meeting of the Phoenix Conservation club. The meeting will be a regular one, and will be held at the Ellis Kindergarten, 429 West Monroe street. It will open at three o'clock.

**A SIGN OF DEPRESSION**—A Phoenix street railway conductor yesterday morning declared all this talk about returning prosperity to be all bunk, when a well known banker paid for his fair with four pennies and a penny slab of chewing gum. "We're just now hitting bottom," observed the conductor "when chewing gum gets to be legal tender."

**A CHRISTMAS DINNER**—Mr. and Mrs. G. L. Dorell entertained about forty relatives and friends on Xmas day. Dinner was served out on the lawn to Mr. and Mrs. Walter Cross, Mr. and Mrs. Mosier, Mr. and Mrs. Lewis Kohl, Mr. and Mrs. Henry Kohl, Dr. and Mrs. Allen, Mrs. Ida Varney, Mrs. Lena Varney, Mrs. Lolla Raney, Misses Annie May Shamblin, Winifred Waters, Alice Mosier, Grace Kohl, Nelda Thompson, Bessie and Minnie Cross, John Varney, Ada Varney, Leahy, Dorothy and Vera Dorell, Messrs. Howard Morley, Floyd Mosier, Earl Hixon, Robert Martin, Burtes Kohl, Donell Kohl, Thomas and Russell Cross, Claudis Dorell, Ora Varney and Fred Allen.

**NEWS BOYS NIGHT AT THE REGALE THEATRE**

The Newsboy's club will be entertained at the Regale theatre tonight, Manager Davis having opened his house to them. He will follow this practice every Monday, and turn his whole show over to the young vendors of papers.  
 What will constitute the program for the occasion is not known as the water condition has delayed the shipment of reels for the Universal program, but some reels will come undoubtedly by way of the Santa Fe, and a splendid program is assured.  
 In this connection a newsboys benefit is being arranged for at the Columbia for Thursday. Manager Rickards has turned over the Columbia for a vaudeville program in which five acts will be served. The Redmond company will deliver one of the vaudeville numbers.

**AMERICA IS GREATEST SPECTACLE PRODUCED**

When the Hippodrome theater at New York put on the gigantic spectacle "America" some time back, it was at once agreed to be the most pretentious thing in the line that had ever been staged. Thousands of men and women were used in its production and some of the scenes are of the utmost gorgeousness.  
 Six reels are necessary to reproduce this spectacle for the benefit of the lovers of moving pictures. These reels have been secured by Manager Harry nace of the Arizona theater and will be shown again tonight. They were shown last night to crowded houses in spite of the fact that the rain began again to fall just after sundown.  
 It is expected that another great audience will greet the picture again tonight when the time comes for it to be shown.

**TO ADVERTISERS!**

All display advertising copy for The Republican must be in our office by six p. m. preceding morning of publication. This is not an arbitrary rule, but one essential to the intelligent conduct of our business, and one in justice to the employees, responsible for getting out the entire edition of The Republican on time each morning.  
 ARIZONA REPUBLICAN.

**QUEEN ESTER CANTATA INDEFINATELY POSTPONED**

"Off again, on again, gone again. Flanagan" is the best explanation of the combination of bad weather and the Queen Esther cantata for it has again been postponed. This time indefinitely. In order that there would be no possibility of error in the rendition of the excellent compilation, Mrs. R. M. Tafel, directress of the chorus called a rehearsal for this evening at the high school and the intention was to render the music tomorrow evening as one of the features of the entertainment of the State Teachers association, but the possibility of another stormy evening, and the bad condition of the streets especially the crossings, suggested the idea of a further postponement of the event. Last evening Mrs. Tafel announced that until the weather cleared up definitely and the streets dried up no attempt will be made to render the cantata. It is promised however that the piece will be given when the weather and the streets are in their usual shape.

**PICTURES OF DAM GIVE PUBLICITY TO PHOENIX**

Handsome enlarged photographs of the Roosevelt dam are being placed in clubs, libraries and school buildings by the Phoenix board of trade, in pursuance of the scheme of widespread picture-publicity for the Salt River irrigation system. In a report distributed in the Wisconsin state normal school received one of the big prints, and President W. J. Sutherland of that institution writes his appreciation of the gift.  
 "The photograph is highly appreciated here," he says, "we are hanging it in the school library."  
 The picture was made by James McCulloch, the well known Phoenix photographer.

**ANOTHER RAIN SENDS**

by nightfall, but it was much heavier all around the city. Mess reported a right smart shower lasting almost the entire afternoon.  
 Notice of heavy rains and snows is expected this morning when the correspondents of the weather office get busy. In a forecast, made Saturday, Section Director Briggs foretold unsettled conditions for Arizona—with probable rain over the entire state. He explained the recent belt of rain storms as follows:  
 "Storms have been developing somewhere out in the Pacific ocean, and sweeping across the regular course, from San Diego to the mouth of the St. Lawrence. Owing to the fact that we have no weather observatories in the ocean, we have not been able to forecast all these storms. Another condition entered, to prevent us getting a line on the weather, and that was the unusual behavior of the high pressure areas in the North and Central Rocky Mountain region. It was due to these "highs" that the rains lingered so long in Arizona. Under ordinary circumstances, storms of the sort would have swept rapidly on their appointed course, probably giving slight rains to this country. Every day or so, we have noted a storm, come creeping out of the ocean, striking land along about the Lower California peninsula. One of these storms raced the entire width of the continent in twenty-four hours. This is the one which was diverted from its course by contrary weather in New England, and instead of proceeding, as the others did, to the St. Lawrence region, was discovered centered about Florida the next day.  
 "It is impossible to say just how long the rainy period will continue. All that we have had to base predictions on has been overthrown by the odd conditions of the past two weeks. Ordinarily, no storm, or series of storms, would hang on so long as this one. But when they come, one right after another, it is hard to tell how long they will keep it up."

**ESPEE TRAINS**

It is not even known precisely when a train will be made up from Phoenix for eastern points. Mail will continue to go via the Santa Fe, until the regular service can be resumed to the south.  
 The Mail Rush  
 On the trains which will arrive some this morning, are from two to three hundred sacks of mail and parcels for Phoenix. This is the pile that has collected in Tucson for the past three days, and represents a great deal of Christmas mail from the east. In order to handle the extra matter, Postmaster C. E. Wood is holding an extra force of men in reserve. As soon as the pouches are delivered at the post office, a set of clerks will be turned loose on them. As rapidly as possible, this mail will be separated and delivered. In this way, the post office people hope to relieve the congestion almost as soon as it occurs, and to give to the waiting Phoenixians the mail they have been expecting for the last three days.

Save \$4.00 on The Arizona Republican subscription for \$19.15. Five dollars will pay for the full year, including Phoenix only Sunday newspaper. Seven days instead of six. This great bargain offer is made but once each year. Thereafter 75 cents per month only will again be accepted. Offer not good after January 9th.

**VARSIITY FOOTBALL IS STILL POPULAR**

CAMBRIDGE, Eng., Dec. 27.—Although there probably will be no official college sports at either Oxford or Cambridge until after the war, the men in college still find time for a certain amount of athletic amusement, particularly at football, soccer, golf and boxing. There is scarcely any rowing, although the coxches are giving a little preliminary training to some of the veterans.  
 Rugby football has been given a sort of official sanction at Cambridge through the presentation of a cup which is being competed for by teams from the four companies of the university military training corps. At Oxford there have been several football matches between scrub varsity teams and teams from some of the nearby public schools.  
 Soccer football is a favorite with the military men, who consider it a valuable building-up exercise for the varsity recruits. Matches are frequently played at both Oxford and Cambridge, although there will be no matches between the two universities. The Oxford freshmen's lawn tennis singles and the Oxford handicap tennis tournament have been decided, with "overseas" players taking all the honors. The freshmen's singles were won by Hopkins, an Australian, and Clayton, an American, as the runner-up. The handicap tournament went to Rissik, a South African.

**BRITISH PRESS NOT**

(Continued from Page One)  
 lished a pointed protest recently. "A censorship is a wholly new experience for English newspapers. They have quickly adjusted themselves to the possibilities of defying it in the spirit while observing it in the letter. The Daily News and Leader did not mention the Audacious, but it said and everyone understood its meaning.  
 "Rumors of an event of very great importance to the British public have been circulating for a very long time in this country. Very full accounts of the event in question have now been published in the Swedish, the Dutch, the American and finally the German papers. There is scarcely an important public in the world, that is to say, which has not now received a full report of the alleged occurrence, except that one which is most directly affected by it.  
 "The truth or falsehood of the reports is a matter on which judgment may, and indeed for the moment must, be suspended. It is intelligible that the authorities may have good reasons for delaying the publication of news, favorable or otherwise, until a time when in their judgment its publication will be most effective or least prejudicial to the public interests. The sincere study and understanding of national psychology may be of important assistance in a struggle such as that we are now waging. But it is surely a psychological blunder of the first order to conceal from the British public news, which good or bad, is the common property of their neighbors."  
 The Times dwells editorially upon the same matter, saying:  
 "Our office is littered with German newspapers containing news we are forbidden to publish. We have also many American newspapers containing the same news, which was further sent broadcast in the German wireless messages. The present position, therefore, is that the whole world is acquainted with news this country is not permitted to know; and the ridiculous feature of the situation is that very large numbers of individuals in these islands know it quite well."

**R. B. BERRYHILL**

(Continued From Page One)  
 in all its details. He usually spent his summers on the coast and there he kept his finger on the pulse of the Berryhill company.  
 Mr. Berryhill was educated at Iowa City and was a member of the Sigma Chi fraternity. He was a most lovable character. Under the handicap of a most painful illness from which he knew he could not recover, looking forward only to hours, days or years of pain, he was always courteous and cheerful.  
 Mr. Berryhill was a Mason, and it was stated last night by an associate of Mr. Berryhill that the business of the company would be continued without change.

**AMUSEMENTS**

**The Lamara**  
 Francis X. Bushman appears at the Lamara theater today in "The Private Officer", a picture of a story appearing in Munsey's magazine recently. A double exposure, that is the appearance of Mr. Bushman in two roles simultaneously, in this case the hero and the villain adds greatly to the interest of the picture. The picture is one of the best that has been shown by the Essanay people and is away ahead of "One Wonderful Night" which was the most popular leading man prize picture in which Mr. Bushman appeared here recently. There are other good pictures on the program.

**ZEPPELINS PREPARE TO ATTACK BRITAIN**

LONDON, Dec. 27.—A correspondent of the Turin Stampa who claims to have had access to the Zeppelin sheds at Friedrichshaven says that eighteen super-Zeppelins will take part in an attack on Britain and its fleet in the spring.  
 The correspondent says that every three weeks an airship leaves the works for a secret destination.

**STATE TEACHERS IN**

(Continued From Page One)  
 this year is expected to be fully up to last year's mark.  
 In addition to the teachers from many sections, who are now enjoying the annual holiday vacation, a large contingent of students and instructors from the Tempe Normal school are expected to attend the sessions. Features of the meeting this year will be the discussions of desirable changes in the existing school laws, and other questions relating to legislation. The meetings will be held in the new Monroe school, which beside being the finest grade school in the southwest, is admirably adapted for just such a gathering.
