

THE FLORENCE TRIBUNE
PUBLISHED EVERY SATURDAY.

FLORENCE, ARIZONA, JULY 1, 1899.

Andy O'Connor was in Mesa this week.

Will Flint goes to Tempe to spend the Fourth.

C. W. Tillman is here from Globe visiting his family.

County Surveyor W. H. Merritt was in Tucson this week.

Alf. Donna, proprietor of the store at the Ray mine, was in town Monday.

Freeborn Mason returned Monday from Phoenix, where he went for an outing.

Phil Welles came over from Tucson Wednesday and will join the Colton surveying party.

Florence had an ice famine for a week, but now the town is being well supplied from Tempe.

Mrs. C. W. Leson is expected in Florence to-day on her way to California to visit her daughters.

Colonel Brodie has been elected president of the Rough Riders' regimental society for the ensuing year.

J. E. Tester, the mining man, was in town Monday, and went up the river to look at some property.

The marriage of two of Pinal county's most prominent young people is positively announced for next month.

Miss Bess Lewis returned Wednesday from Tucson, where she has been visiting friends for the past month.

This section was visited by two glorious rains in the past week, and in all about two inches have fallen.

Miss Anna Griffin expects to leave to-day for Hinton, where she will be the guest of Mr. and Mrs. J. H. Durham.

Judge F. M. Doan and his stenographer, Miss Reed, returned Monday from Globe, where Court has adjourned for the term.

D. C. Stevens is rebuilding the delivery stable and corral adjoining Shields & Price's store which was burned out three or four years ago.

Wm. Sutherland, otherwise known as "Idaho Bill," was acquitted of the charge of grand larceny at the recent term of the Gila County Court at Globe.

Shields & Price have been appointed agents for the San Pedro Lumber company and will carry a complete stock. Several carloads of lumber are now on the way.

The TRIBUNE acknowledges the receipt, from Secretary Akers, of the acts, resolutions and memorials of the Twentieth Legislative Assembly of the Territory of Arizona.

C. D. Beppy is agent for the Sterling Bicycle. He has for more than three years been riding one which is still as good a wheel as there is in town, and it has cost very little for repairs.

In Tombstone Tuesday William Halderman and Thomas Halderman, who killed Officers Ainsworth and Moore, were sentenced by Judge Davis to be hanged on Friday, August 25.

Will O'Conner leaves to-day for Nogales, where he will hang out his shingle and practice law. If he can keep out of the factional fights going on in that unhappy little city he will do well, as he is an affable gentleman and well read in his profession.

There were two deaths from measles in Florence Thursday night, one a 5-year-old daughter of Manuel Rivera and the other a 1-year-old son of Francisco Cruz. There have been quite a number of cases of this disease in town recently, but so far these are the only ones of a fatal character.

George Truman, book-keeper for Shields & Price, has a pet snake which comes out of its hole and drinks water from a cup held in the ex-Rough Rider's hand. As this is vouched for by other eye-witnesses, insinuations about any stronger liquid being involved in the matter are entirely out of order.

A Florence lady was called on recently by a dude hobo while her husband was away from home. "I am a masher," said he, as he refused to saw wood for his breakfast. "Well, I am not exactly a masher," replied the lady, "but I always keep one on hand," and she proceeded to lay him out with a potato-masher.

On July 5 Miss Freda Herrera will be married to Mr. Sparks, of Wyoming, a well-known northern cattleman who has frequently visited Nogales in a business way, says the Oas. The same evening the bridal pair will start for Mr. Sparks, home in the north. Miss Freda is one of Nogales' most charming young ladies, and her loss to the line city will be a great gain to the new state of Wyoming.

He Wanted the "Stuff."
Pinal county was represented in the last Legislature by one of the Murphy breed of Republicans named Doc. Wright. It was notorious that Doc's vote was for sale on any proposition, no matter how questionable, and it is also notorious that he accepted bribes. The Tribune makes this statement with the full knowledge of its responsibility in a suit for criminal libel, as well as the personal responsibility of the writer, if it be not true. It does not make the charge through any personal feeling either, for it has fully as much respect for Doc. Wright as it has for the Pinal county voter who was bought to support him or the Federal official who paid the money.

But this is merely preliminary to a little story told by Mark Smith in Tucson the other day. It seems that some honest old farmer in Mesa had been troubled with what he called "foul brood" among his bees, and he wanted an inspector appointed whose duty it would be to destroy hives in which the foul brood was found. He accordingly went down to Phoenix while the Mule Legislature was in session to see what could be done in the matter. The first man he met was Doc. Wright, and he proceeded to state his case to our Pinal county statesman, but was interrupted with the question: "Have you got any stuff?"

This staggered the farmer somewhat, but he managed to reply, "Of course not, I didn't think it was necessary, and besides it is such difficult material to handle."
"No trouble at all—no trouble at all—leave it with me—very necessary to have the stuff," the Doctor assured him.

"All right," said the farmer, "I will go back to Mesa and see what can be done."

And if it hadn't been that some of his neighbors were more accustomed to the ways of this wicked world the good old farmer would have had half the foul broods in the neighborhood laid on the members' desks, as he was under the impression that "was what Doc. Wright wanted—and doubtless it was."

Hon. I. T. Stoddard has sold to Henry B. Clifford & Co., of New York, the Easy Boss and Governor Teddy mines, located on the south slope of Copper mountain, says the Prescott Journal Miner. These two mines give evidence of great value, being located in the saddle between the two mountains, where all the ledges in the Copper mountain concentrate.

The Courier reporter talked with a very reputable citizen of Jerome who says he saw very good ore in the properties of the United Verde Copper Company Junior. Another practical mining man said he was in the mines two weeks ago and considered that they were very promising properties. These are some of the properties attacked by Gov. Murphy in his mining proclamation.—Prescott Courier.

Hon. T. G. Norris has been in the east for some time. It is stated that while at Taylorville, Ill., he took a bath, and complained that the more he tried to wipe himself dry with towels the wetter he got. The proprietor of the bath house listened to his complaint, and replied, "You must come from Arizona, where they lay in the water fifteen minutes before they get wet."—Courier.

Mr. Edison and Signor Marconi are said to be doing wonderful work in wireless telegraphy, but if they wish to be of real value to the state, what they should experiment in is wireless politics. We think this would turn out to be the greatest invention of the age.—Harper's Bazar.

In the case of J. M. Gardiner vs. J. J. Gardiner, a judgment was rendered for the plaintiff, the court holding that both the farm and the city franchise were community property.—Herald.

An American Railroad in China.
Moneyed men from the United States have secured a franchise for building a railroad from Hong Kong to Hoo Kow, China, a distance of nearly 700 miles. While railroads are necessary to a nation's prosperity, health is still more necessary. A sick man can't make money if there are a thousand railroads. One of the reasons why America is so progressive is the fact that in every drug store is sold Hostetter's Stomach Bitters, that celebrated tonic for the weak, appetizer for the dyspeptic and sedative for the nervous. It is taken with great success by thousands of men and women who are run down, pale and weak. It increases the weight, and the gain is permanent and substantial.

ARIZONA AIR.
Evidence of the Clearness of the Arizona Atmosphere.

(Prof. Cleveland Abbe, in Monthly Weather Review, March, 1899.)
The early astronomers of Persia, who were of course unacquainted with the telescope, and are credited with sharp vision and great persistence in the accumulation of astronomical observations, were greatly facilitated by the purity of the atmosphere in that part of the globe. The observations made at Mr. Lowell's fine astronomical observatory at Flagstaff, Arizona, have during recent years established the fact that no region of the globe can offer a clearer atmosphere for the observation of the stars than is to be found in that territory. An independent confirmation of this fact is found in an observation noted in the March report of the Arizona section. Mr. G. O. Scott, voluntary observer at Tonto, in Gila county, notes that on the morning of the 7th he observed a star before sunrise, closer to the moon than "any I have seen in years." Dr. W. E. Day, voluntary observer at Prescott, Yavapai county, northwest of Coconino, noted "a star traveling along with the moon all day, plainly visible until 2 p. m. of the 8th."

The bright star seen by these two observers was undoubtedly the planet Venus.
It usually requires a combination of favorable circumstances to see the brightest star with the naked eye in the day time, but we understand these observers in Arizona detected the planet without any special effort.

Charges Against Prof. McNaughton.
[From the Phoenix Herald.]
From the coast papers it is learned that very serious charges have been preferred against Dr. James McNaughton, formerly of the Tempe normal school, but recently elected principal of the San Jose normal school. As given to the press the charges seem to be the same old straw that was threshed over here two years ago, when an effort was made to prevent the re-appointment of Dr. McNaughton to the position he afterward creditably filled for a couple of years.

The charges at that time were thoroughly investigated by the Arizona normal school board and found to be malicious and without any reasonable foundation. Since that time Judge Reed, of the land court, has stated that he was in Council Bluffs at the time the charges were brought there and he states that they are utterly false and should not be recognized.

The Yacht Columbia.
New London, Conn., June 28.—In the thirty mile boat to windward today, the new yacht Columbia beat the old champion cup defender eight miles, besides giving her a two minutes' handicap.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Hall's Family Pills are the best.

An Epidemic Diarrhoea.
Mr. A. Sanders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He had a severe attack and was cured by four doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says he also recommended it to others and they say it is the best medicine they ever used. For sale by Brockway's Pharmacy.

Excursion Rates.

On account of the annual meeting of the National Educational Association at Los Angeles, July 11th to 14th inclusive, the Southern Pacific will place on sale June 27th to July 10th inclusive, round trip tickets to Los Angeles at one fare plus two dollars. The return limit will be September 4th. Reduced rates will be made to all points of interest from Los Angeles.

The first excursion leaves Casa Grande Friday, May 26th, at 8 a. m., and the same time every Friday during the season to the following points: Santa Monica, Long Beach, San Pedro, San Buenaventura and Santa Barbara. Rates from Casa Grande will be \$24.40 for the round trip, good for ninety days from date of sale. Stop over privileges will be allowed only at Colton and points west thereof. Rates to Avalon, Santa Catalina Island, will be \$2.25.
J. MOORES, Agent,
Casa Grande, Arizona.

Money to loan on good security. County certificates of indebtedness and jurors' certificates bought. Address J. B., TRIBUNE office.

They handle them rough in Yuma, judging from the following from the Yuma Sun: "There was an initiation at the regular meeting of the A. O. U. W. last Tuesday night, and before it was over Donald McIntire, who holds an important office in the lodge, had to have the services of a physician to take a stitch or two in a deep gash in his scalp. When asked about it the next day Donald said the candidate was a pretty tough customer, but they got him initiated all right."
