An Efficient Officer.

SILVER KING, August 29, 1900.

EDITOR TRIBUNE: While visiting Silver King last week, Mr. Jacob C. Bates, the venerable livery stable proprietor and constable of Ray, had an exciting experience, and one which he will not soon forget. While going up the Main street of town, he ran foul of a hard character and after a heated altercation it became necessary to use his 44. From last accounts the desperado is running yet, and Mr. Bates returned home for a much needed rest.

We extend to him our heartfelt thanks although all he hit was one of Mrs. Ennis' stray roosters, but we believe he has done much to improve the personel of camp.

Very truly yours,
JOSEPH J. PHERY, Supt.

Mr. and Mrs. L. W. Blinn entertained delightfully at dinner last evening at their home on South Flower street, for Arizona friends. The guests of honor were Mr. and Mrs. S. M. Franklin of Tucson and Mr. and Mrs. C. D. Reppy of Florence. The others present were Mr. and Mrs. W. R. Reid, Mrs. Margaret R. Berry of Los Angeles, Miss Fannie Bartleson of Florence, Miss Alice Morse of Tempe, Miss Berenice Cheyney of Tucson. A pretty arrangement of white asters and maidenhair ferns constituted the table decorations, and asters and ferns were also arranged on the buffet. Mr. and Mrs. Franklin and Mr. and Mrs. Reppy are making an extended stay in California and will be here at least for a month yet before returning home. Mr. Reppy is editor of the Florence TRIBUNE.—[Los Angeles Express,

The Olivas orchestra left Florence Tuesday for Congress, where they will furnish music for the celebration on the 16th of this month.

Dr. David Griffiths has arrived in Tucson from Washington to take Professor Toumeys' place in the agricultural department of the university. Dr. Griffiths will make a special study of the destroyed ranges with the view of reclaiming them for use again. The department is convinced that the ranges of Arizona have been destroyed by herds and experiments have been made which give hope that the barren ranges of the southwest can be made productive once more.—[Republican.

The trial of Bressi, the assassin of King Humbert of Italy, began at Milan on the 29th. It ended on the same day with a plea of guilty of murder and life imprisonment. He said he had killed the king to avenge the misery of the people which had forced them into bread riots, and insisted that he acted wihtout advice or accomplices.—[Public.

A traveler tells the New York Tribune of the actual case of a man whose father was English, his mother Irish; who was born under the French flag, in Turkish waters, christened by a Russian, baptized by a Greek sky pilot, married an American and lives in Cuba. He is what you might call a foreigner.—[L. A. Herald.

At Safford last Monday morning "Tump" Freeman shot and instantly killed an old man named Roach. The coroner's jury exonerated Freeman and he was not even placed under arrest. The preliminary examination took place on the 6th inst. Freeman resided in Globe four or five years ago.—[Silver Belt.

A man by the name of Corn was recently married in Ohio to a lady by the name of Wheat. At the conclusion of the ceremony the fool choir sang: "What Shall the Harvest Be?" and a boy in the rear of the church yelled "Nubbins!" He was forthwith ejected form the synagogue.—[Ex.

A birth notice in the Salina, Kansas, Union, reads as follows: "Born to the wife of Jim Jones, a boy. The boy favors his old dad in several ways. He is bald, has a red nose and takes to the bottle like a bumble bee to a lump of sugar, and makes a heap of noise about nothing.—[Ex.

Bro. C. O. Anderson editor of the Willcox Range News not only has a new press, new dress for his paper, but has lately added a new devil to the office from "Old Missouri." The News is bound to succeed under these changed conditions.—[Flagstaff Gem.

Still More Counterfeiting.

The Secret Service has unearthed another band of counterfeiters and secured a large quantity of bogus bills, which are so cleverly executed that the average person would never suspect them of being spurious. Things of great value are always selected by counterfeiters for imitation, notably the celebrated Hostetter's Stomach Bitters, which has many imitators but no equals for indigestion, dyspepsia, constipation, nervousness and general debility. The Bitters sets things right in the stomach, and when the stomach is in good order it makes good blood and plenty of it. In this manner the Bitters get at the seat of strength and vitality, and restore vigor to the weak and debilitated. Beware of counterfeits when buying.

At San Juan Hill.

The Elton Empire tells a story of Roosevelt and a Rough Rider from Arizona, who won a commission in the regular army, and is now serving in the Philippines. Here it is:

"During the storming of San Juan hill," said Governor Roosevelt, while remarking on the extreme heat, as he journeyed through Kansas, "I was requested by one of my men to betake myself to the very hottest region, but when it comes a hot day I always congratulate myself that I didn't go."

"There was a young fellow from Arizona, Bugby by name, who was shot straight across the top of the head. I happened to overtake him, and saw the way the blood was streaming down his face that he was in no condition to stay in the front. Riding up by his side I tapped him on the arm and said 'you go to the rear.'

"Well, I'll never forget the face that fellow turned toward me. It was one mass of blood, and this added horrible fierceness to the look he gave me.

" 'You go to hell,' he said as he struck out on a run up the hill.

"I could'nt forget such a fellow, and I got him a commission in the regular army. He's now inthe Philippines."—[Prospector.

A few days ago while looking over the mining field in Aubrey district we had occasion to visit John Doyle's property, and he kindly initiated us in the mystery of his blowpipe assay outfit, in the manipulation of which he is considered supreme past-master. His weights are of his own manufacture as are also his pulp scales and button scales; he makes his crucibles out of bone ash, which he prepares, and moulds them with the neck of a bottle for a mould and shapes them with the round, glass stopper of a perfume bottle. His flux is the same as that used by other assayers, but everything else, except the blow pipe, is original and all his own. The weights are made on the basis of a 25-cent piece for a quarter of an assay ton, and on gold and silver ores he claims he can come within a few dollars of the value of a ton of ore. When water is plentiful in the district he runs a small cyanide plant and makes enough money thereby to keep development work going, in a small way, on his mine.—[Mohave Miner.

This portion of the territory needs a game warden badly. We understand there are several parties from the southern portion of the territory in the Mogollon mountains who are killing deer indiscriminately, while the law says nothing but bucks can be killed. There are several also, we are informed, killing wild turkey, and the time for killing this game is not out. The game law was made for protecting the game and should be strictly enforced. Any person who will not respect it should not be allowed the privilege of hunting.—[Winslow Mail.

Editor B. Valencia of "El Sol," of Hermosillo, who has been confined in the city jail on a charge of libel, was liberated Tuesday morning. His printing plant has not yet been returned to him, but it is probable that the authorities will do so in a few days.—[Border Vidette.

The Morenci & Southern railway, now being constructed from Morenci to Guthrie in Arizona, is already gaining quite a reputation as the crookedest railroad on earth. Besides its crookedness it will be notable for its bridge work and steep grades. In the eighteen miles that it goes to cover a distance of ten miles it will have twenty-eight bridges, one of which will be 104 feet high and twelve of them will have an average height of sixty-two feet. The grades will necessitate the purchase of specially equipped locomotives with drivers less than two feet in diameter. The engines will be of sixty tons weight and enormously powerful though slow.—[El Paso Herald.

Prescott has shown her good judgment and set a good example to other Arizona towns, by the practical unanimity with which her citizens have voted to bond the city for $100,000 for water and sewerage purposes. But nineteen votes were cast against the bonds out of a total vote of 340. Prescott is in the line of progress. They also decided to issue $50,000 worth of bonds for the erection of a new school house.—[Tucson Star.

A curious thing happened at Mesa last week during the electric storm A man was sleeping under a big tree near the town and the lightning struck the tree and entirely obliterated its trunk and top and covered the man with dirt. But strange to say never injured him. This is one of those marvelous escapes from death that we often read about but rarely see.—[Gazette.

The shah of Persia is said to have spent $1,600,000 during his stay in Paris, every day of his stay there meaning the distribution of tens of thousands of dollars among local shopkeepers. No wonder the latter were indignant at the attemp to kill him off.—[Tempe News.

Transfer the attempted conquest of the Phillippines to the conquest of arid America. The cost will be much less. There will be no bloodshed and the results will give us a thousand times more wealth and homes for tens of thousands of families.—[Ex.

L. G. Herring of Florence is in the city purchasing horses and rigs for his livery business in that progressive little city.—[Enterprise.

Cured of Chronic Diarrhoea After Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Halloway, of French Camp, Miss. "I had spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor, could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in reach of all who suffer as I have." For sale by Brockway's Pharmacy.
