

THE MISSING LINK.

Further Information Concerning the Missing Portion of the Grand Jury Report. That portion of the Grand Jury report yet unfiled, is still occupying a prominent place in the minds and thoughts of the people. It was expected that Mr. Carr would promptly file the report, when he learned of the almost unanimous demand made for it by the people of this city.

In order to keep abreast of the popular demand for information concerning this famous Grand Jury report, an EPITAPH reporter, in company with Mr. Alexander Wight, member of the late Grand Jury Meeting, Mr. Wight at Hart's gun shop, the reporter sung out: Mr. Wight, might you have a copy of the Grand Jury report in your pocket? If so, you will oblige me by handing it to me, and I will hand it to the court at the proper time, but certainly shall take no notice as to my actions in the matter, from any one.

Mr. Wight—I am just as anxious as you are to see that report. I was chairman of the committee that investigated the offices named, and turned over the report of the committee to Mr. L. W. Carr, the foreman of the Grand Jury, and have not seen it since.

REPORTER—Do you know the substance of the report? Mr. W.—Yes, sir; it was very favorable to Mr. Jones, the Recorder. His office was found to be conducted on business principles; he took kept in good shape, and everything properly arranged. The Clerk's office was found to be exactly the contrary, and extortionate fees charged in every instance. The committee examined six lawyers, and all of them swore to paying outrageous fees, and it was our opinion that a thorough systematic investigation should be made and the Clerk indicted.

Notes from Bisbee. Bisbee, June 21, 1882. Lieutenant Steever and a small detachment of Company F, Third Cavalry, passed through here about ten o'clock this morning, on their return to camp near Sheldon's ranch, which they would reach early this afternoon. Lieutenant Steever was accompanied on his trip by Mr. Eglauf of this place. The Lieutenant's object was to explore the Swisshelm mountains, principally with reference to the location of water, and also to look out for Indian trails. His party marched across Sulphur Spring valley, but could find no water there, the first day's march being across the mountains, which, Mr. Eglauf informs us, has much more water this year than last, its distance from Bisbee being about thirty-eight miles. From there Lieut. Steever went to San Bernardino; thence to Sand Springs, where the water is low; thence to Solomon's Springs, and back to Bisbee. By the time of his return he will have traveled between 130 and 140 miles. Mr. Eglauf was surprised to find no water in the tanks along the drainage line of the Sulphur Spring valley; but it was found that the heavy rains had been in the foothills of both the Mate Pass and the Swisshelm mountains, but none in the middle of the valley where the water could collect had the rain fallen.

The County Convention. The Democratic county convention for the election of delegates to the Territorial convention, and the appointment of a county committee will assemble at Schellin Hall at two o'clock this afternoon. Last evening Democrats were as thick as Tomatoes, as angels in heaven. The action of the California convention in nominating General Stoneman, met with their hearty approval, and a glorious victory was proclaimed among them from the outside. We noticed Mr. J. D. Dyer and Judge J. D. Britton from Bisbee, Judge Lury and V. H. Izgo from Barbacon, J. C. Fall of Wilcox, W. W. Roman of Benson, David Humphrey of Neptune Wells and M. McDowell of Charleston. The remainder of the Charleston delegation will arrive tomorrow, and Mr. Fall of Wilcox has a proxy from Messrs. Appel and Johnson with colleagues from that town, and from Major Downing of Chiricahua.

Official Records. The following instruments have been filed for record in the County Recorder's office: LOCATIONS NOTICES. G. B. Van Nordin et al. Soft Shell and others. DEEDS TO MINES. D. B. Redd to P. Corbin, the Mammoth, \$169. L. Brock to P. Corbin, one-sixth of Mammoth, \$5. F. Roper to P. T. Colby, one-eighth of Winfield, \$1. F. Roper to F. G. Burke, all interest in the Winfield, \$5. Colby and Burke to J. B. Johnson, all their interest in the Winfield, \$5. R. Tilden to Intervenor Mining Company, the Assurance, \$5. DEEDS TO REAL ESTATE. H. M. Kingsbury to E. Kingsbury, lots, etc. J. S. FOXBURNES. T. D. Byrne vs. R. A. Caley et al. AGREEMENT. J. N. Peck et al. vs. H. G. Horton. R. E. Gray and A. C. Billocke, to J. W. Baker. ORDER OF SALE. Estate of W. Buck.

The Girard Company.

We are indebted to the Engineering and Mining Journal for the following, which will doubtless interest many Tombstone people: The stockholders of the Girard Gold and Silver Mining Company, held their annual meeting on the 13th inst., at Camden N. J. The report of the board of directors, the superintendent and the treasurer were read. From them it was ascertained that the mill of the company, containing twenty stamps, is in good working order. It worked up all the company's ore in a couple of months, and then stopped for a while. It is now grinding with the ore of other companies in the vicinity, and nets from ten to twelve thousand dollars a month thereby. This company owns the water power in the Tombstone District, and will be able to make a pretty good thing out of it, as the reports said. The receipts of the company last year were \$171,378.92, and there is a balance of \$154,467.12 in the treasury. The entire debt is placed at \$78,121.40. Of the 250,000 shares authorized, only 100,000 have been taken up. The company's claim covers over eleven acres, and of this surface but a small portion in the northwestern section has been worked. It is said the ore in the lower part of the claim is richer. It was stated that the reason why the company was not working its own ore, was that the machinery could not be produced fast enough in paying quantities. It was decided to appoint a committee of three to audit the accounts of the treasurer, and the incoming board was requested to arrange, if possible, to use one third of the net receipts for the development of the mine, and to pay the debt with the balance. The following named gentlemen were chosen directors for the ensuing year: Messrs. Hamilton Disston, William H. Wright, William H. Taber, Wilson Lloyd, J. F. Bailey, William Cochran and Charles Disston.

PERSONAL. Lieutenant Stephen C. Mills, the young Indian officer who so distinguished himself in command of the Indian scouts during the recent unpleasantness, was in town yesterday morning. He will depart to join his company at Prescott in a few days. Jos. Tasker, of the old and reliable firm of Tasker & Priddy, departed yesterday for California. Mr. Tasker will rusticate and enjoy a much needed rest among the orange groves of Los Angeles, and will, we hope, return in a few weeks enjoying more robust health. Captain James H. Tevis, of Tevison, on the Southern Pacific railroad, is in town to attend the Democratic County Convention. Captain Tevis is the leading merchant of the town that bears his name, is an old Arizona settler, a capable man and a thorough Democrat. He will remain in town for several days. Judge Henry C. Dibble, the big white elephant of Arizona Republicans, arrived yesterday from San Francisco, where he had been for the past ten days. P. W. Smith, the senior member of the firm of P. W. Smith & Co., arrived yesterday from New York. The many friends of Mr. Smith were glad to see him enjoying good health. Frank Lowry, foreman of the Transquility, departed for San Francisco yesterday. His report as to the working of the mine is very favorable. Frank returns a lady bearing the same name will be leaning on his arm. Many friends unite in wishing him joy.

OF INTEREST TO SUFFERERS. EDITOR EPITAPH: Please allow me to make known a few facts, though your valuable paper, which it is hoped will prove beneficial to your many readers. What I wish to say is this: I came to this place very sick about two months ago, and with my sickness I was also afflicted with the piles, and have been so afflicted for ten years past. The loss of blood caused by the latter and the excruciating pain characteristic of the former disease, were so great that I became so weak that I could scarcely get about. I have been troubled with piles more or less for ten years, as before stated, growing worse and worse all the time, and have sought relief in many ways, but without success. I was advised by several prominent physicians within the last ten years, unless the knife or ligature were resorted to. But through the advice of a friend I applied to Dr. C. P. V. Watson, of this city, for treatment. He took my case, saying he could cure me without the use of the knife or ligature. So he went to work, and I am proud to say that I am a well man. I make this statement because it is a fact, and in making it I feel that it will be a matter of as much interest to the suffering as it is to me. If I can be of any service to even one poor sufferer the truth that will produce the fruit that will relieve his pains, I will be amply paid for making these truths known. My sympathies for the suffering are the only incentives that prompt me to ask this publication. Respectfully yours, L. J. F. INGER.

A Card. The following card received yesterday morning from Jack Martin, will explain itself. It will be remembered that in our notice of the prospect of the loss of Martin was announced as the Cornish bucker. EDITOR EPITAPH: I see in your paper a card from Mr. Garrett, stating that there is some mistake about the challenge to fight any Cornishman in Tombstone. I wish to state to the public how this challenge originated. Two days after the fight at San Antonio, Mr. Garrett and I were in the party to inform Mr. Garrett to take up his money and I would find a man to fight him. Yours, respectfully, JACK MARTIN.

Popular Science. Sugar cane, when perfectly ripe, contains 16 to 18 per cent sugar. Colored spots on decaying food are caused by animal or vegetable growth. The dazzling effect of the electric arc is a source of objection to its use as a locomotive head-light by the French engineers who have been trying it. Strawberries contain 5.56 per cent of their weight of glucose, and hot-house grapes 15.37. The paroxysms of those suffering from lockjaw are always more frequent and violent by day than by night. Where birds fly very little their feathers never acquire or else soon lose their distinctive quill-like character. Phosphor bronze has an electric conductivity two and a half times that of iron or steel, and one-third that of copper. The ruby, sapphire and topaz are simply modifications of one substance, alumina, which, as clay, forms a greater part of the earth's surface. Scientists now concede that parts of Kansas, the adjoining states of Missouri, Iowa and Nebraska were once covered by a fresh-water lake.

TELEGRAPHIC.

Stoneman Wins.

He is Nominated on the Fourteenth Ballot.

WASHINGTON, June 22.—The following is the vote on the banking bill: Yeas—Aldrich, Allison, Blair, Call, Chilcott, Conger, Davis (W. Va.), Dawes, Ferry, Frie, Gorman, Groome, Hampton, Harrison, Hawley, Hill, (Col.), Hoar, Jones (La.), Lapham, Logan, McMillan, Mahone, Miller (Cal.), Miller (N. Y.), Morgan, Morrill, Ransom, Rollins, Saunders, Sawyer, Sewell, Sherman, Van Wyck, Windom—34.

Naves—Brown, Cockrell, Coke, Farley, George, Grove, Jones (Nev.), Maxey, Pugh, Vance, Voorhes, Walker, Williams—13. Many pairs were announced, with absences. The House, in Committee of the Whole, devoted the entire day to a general debate on the bill to reduce the internal revenue taxation. More than a dozen speeches were made by many members. Little of general interest was manifested. Most of the members have already made up their minds how they will vote on the different propositions involved in the bill and other propositions which it is proposed to add.

The Democratic caucus to-night on the question of party action on the internal revenue bill was of no practical benefit to the party. There was apparently too much division of opinion in the Democratic ranks. A fight may be made to secure the adoption of certain amendments to the bill, so as to make campaign material, but the bill will secure a large number of Democratic votes; enough to pass it by a good majority. WASHINGTON, June 22.—The Senate proceeded to dispose of the amendments to the banking bill without debate, pending a proposition offered by Morgan, which was rejected, 17 to 31, a party vote, except that of Jones of Nevada, who voted eye with the Democrats, and Hampton, who voted no with the Republicans. Davis of Illinois voted no. Vest's substitute directing the issue of Treasury notes in exchange for national bank currency and forbidding the creation of new national banks was voted down, 17 to 31. The bill was reported to the Senate and passed, yeas 34, nays 13.

Stoneman Captures the Prize. SAN JOSE, June 23.—The Convention at 9:20 a. m. assembled, and in a roll call for the eighth ballot Alameda voted 19 for Stoneman and 1 for Hearst; in Fresno Hearst gained two. Hearst got three votes in Los Angeles; Nevada voted solid for Hearst. Again the San Francisco delegation voted Hearst 19; Taylor 4; Stoneman 9; Johnson 15; Berry 11. The ballot resulted, Hearst 159; Stoneman 132; Taylor 84; Johnson 54; Berry 25. Tenth ballot, Hearst 169; Stoneman 147; Johnson 32; Taylor 93; Berry 11; Murphy 2. Great cheering hailed the announcement of 147 for Stoneman. Hearst, on the tenth ballot, has gained one in Alameda and two in Mariposa; Taylor gained two in Monterey; Hearst lost one in Nevada. SAN JOSE, June 23.—Ninth ballot Hearst 166; Stoneman 133; Johnson 44; Taylor 91; Berry 19. On the tenth ballot San Francisco voted 80 for Hearst; 9 for Johnson; 8 for Taylor; 7 for Stoneman; 2 for Berry; and 1 for Murphy. Stoneman gained two and Hearst lost one in San Luis Obispo. SAN JOSE, June 23.—Eleventh ballot, Hearst 170; Stoneman 166; Johnson 23; Taylor 92; Berry 1; Archer 1. SAN JOSE, June 23.—Twelfth ballot Hearst 174; Stoneman 189; Taylor 75; Johnson 13. SAN JOSE, June 23.—Enthusiastic cheering and confusion followed the announcement of 189 votes for Stoneman. Craig, of Yolo, moved to take recess until 1:30 p. m.

STONEMAN NOMINATED. Stoneman was nominated on the fourteenth ballot. SAN FRANCISCO, June 23.—After the tenth ballot Griffith, of Fresno, withdrew Berry, saying he would vote for Stoneman. Great applause followed the announcement. On the thirteenth ballot, Hearst 170; Stoneman 204; Johnson 16; Taylor 65. Fourteenth ballot Hearst 170; Stoneman 243; Taylor 32; Johnson 1. SAN JOSE, June 23.—On the fourteenth ballot the following broke for Stoneman: One-half of the Amador delegation; one from Los Angeles; Mono, whole delegation; two from Mendocino; two from Placer; seven from Sacramento; one from San Benito; two from San Diego; ten from San Francisco; three from Santa Clara; two from Solano; two from Sonoma; two from Stanislaus; one from Trinity; one from Yolo. The convention adjourned until to-morrow at 9 a. m.

A Destructive Wind Storm. INDEPENDENCE, Iowa, June 23.—A very destructive wind storm visited this place this afternoon. The railroad depot buildings were destroyed, and in the city a large number of residences and business houses unroofed and some demolished. A circus tent was also demolished and three men reported killed. A Hoosier Blaze. LIBERTY, Ind., June 23.—A fire at two o'clock this morning destroyed an eating house and hotel, and endangered the entire block.

Nearing the End.

WASHINGTON, June 22.—Guiteau is reported by jail officers today, unusually serious and uncommunicative. One of the officers remarked, "He has an anxious, haggard look. I think he begins to realize that he is doomed." Warden Crocker stated that the execution will be a private one and only a few members of the press and jail officers be permitted to witness the scene. The gallows was erected some days ago in the east corridor of the north wing. Miss Chevallier of Boston, Secretary of the national society for the protection of the insane, had a short interview with the President yesterday, in reference to Guiteau's case, and arranged for an audience with him to-morrow, when Dr. Geo. M. Beard and others will advance arguments in favor of a short respite in order to allow a proper commission to fully investigate the question of Guiteau's insanity.

Cameron's Stairwars. Harrisburg, June 23.—David Taggart was chosen President of the convention and a resolution was offered directing the nomination of candidates for congressman-at-large, and referring to the state convention questions of the adoption of methods for harmonizing the party. For Congressman-at-large Marriot Brasius was nominated on the first ballot. The convention adopted resolutions empowering the state committee to fill vacancies on the ticket and adjourned.

Passengers Passing Colton. COLTON, June 23.—Eli Perkins and wife, San Francisco; Henry C. Dibble, Tombstone; Mrs. E. Juman, El Paso; Mrs. M. J. Puffer, N. Y.; Mrs. L. B. Nolton, Chicago; P. Robinson, London; M. K. Miller, N. Y.; M. Norton, Chicago; Geo. M. Ford, Los Angeles; B. Morris, San Francisco; G. H. Williams, Benson; Chas. Luedke, Los Angeles.

Indians on the War Path. A Fort Stanton special says the Mescalero Indians have broken out. The Indian police killed some prisoners who tried to escape from Fort Union. Montezela, the war chief, is fighting the other Indians. The agent was fired on and wounded twice. The Indians killed much stock. The troops are going to the spot immediately.

A New Idea. CLEVELAND, June 22.—Mrs. Scoville, Guiteau's sister is here to try to see Mrs. Garfield to tell her a peculiar circumstance connected with her brother's birth, as only one woman can tell another, and ask her to intercede for a reprieve for him till October. Arrival of the Corwin. SAN FRANCISCO, June 23.—The United States revenue cutter Corwin arrived here to-day from Sitka with the crew of the steamer Rogers and proceeded at once to Mare Island.

A Cowboy Fete. CALDWELL, Kansas, June 23.—City Marshal Geo. K. Rown was shot and instantly killed, while trying to arrest two turbulent cowboys. The murderers escaped toward Indian Territory, and are pursued by a posse of citizens. Gone to Join the Angels. DENVER, June 23.—George N. Woods, who shot and killed M. G. Buchanan May 12th, was hanged by the Sheriff at Durango, Colorado, at 11 o'clock this forenoon. The execution was public and witnessed by a large crowd.

New York Notes. NEW YORK, June 23.—Failures for the week, 95. Eastern States, 10; Western, 20; Southern, 22; Middle, 18; Pacific, 9. The freight handlers' strike continues and there is a dead block of freight at most of the piers. The strikers paraded this morning. A Total Wipe. CLEVELAND, O., June 23.—There was a heavy tidal wave from the lake at six o'clock this morning. Some damage is inflicted, and one man drowned. Money loss estimated at \$300,000. Burned to Death. CINCINNATI, June 23.—A child was burned to death in a tenement house in East Front street this morning.

No Prize Here. HAMILTON, Ohio, June 21.—G. O'Brien and Mrs. Forbes were shot to-day by the latter's husband, from whom she had been separated six years. Forbes then shot himself. All are dead. Governor Blackburn Gets Religious. FRANKFORT, 23.—Luke Blackburn professed religion last night. The regatta of the National Association will be held at Detroit, August 8. Green Morris has bought Creosote for \$5,000. Elias C. Laycock and Robert Watson Boyd row about three miles and a half for \$1,000 a side, on the Tees, July 5. The second deposit of \$50 a side has been made by Flick and Galanagh for their three-mile scull race on the Delaware river, July 20. Joseph Acton, the English wrestler, has not covered the \$250 forfeit Bibby has posted with the Police Gazette, to wrestle in New York for \$500 a side and the championship of the world, Graco-Roman style. The annual cruise of the New York Yacht Club will take place August 2. The races for the prize offered by D. Cook will take place at New London, while the schooner races for \$500 and \$1,000 prizes will be decided at Newport.

The Democratic convention meets to-day, and it is to be hoped there may be nothing but harmony. The EPITAPH has no suggestions to make, except to urge upon the delegates thoughtful action and deliberate judgment. Particular care should be rendered the selection of members of the County Central Committee, for from that committee must emanate all that goes to make up a perfect organization of the party. Representative and responsible Democrats should be chosen—those entirely free from selfish motives, and whose judgment will not be warped by any feeling except for the general good of the party. We advance no opinion as to men, leaving all questions of choice to the will of the convention.

The Republican is paying considerable attention to Gage and Farrell. We have an idea that those gentlemen can see through a thin sheet of paper. Flattery suits a woman, but don't fit a man. Neither Gage nor Farrell can be coaxed into putting up a cent, except upon a solid proposition. In the selection of members of the County Central Committee, a fair share of representation should be given the city and country. If possible each precinct should be tendered a quota, so that all portions of the county may be fairly represented. We are being continually importuned to publish the Grand Jury report, but it is impossible to do so until the fragments are gathered up. We must wait until the wind of public opinion blows them into the clerk's office.

The last number of the Yuma Sentinel has a very sensible editorial upon the question of Guiteau's insanity, for which we may credit the Bodie Free Press. As yet there is no provision made for the place of meeting of the Democratic convention. The city delegation should attend to the matter. The Star truly states that country journals are often premature in their choice of candidates. Country people are also fond of Punch and Judy. We join the Courier in suggesting W. B. Horton of Tucson, for nomination as Superintendent of Public Instruction. He is a good teacher and a consistent Democrat. There should be more policemen to patrol the city during the night time. Residents living in the outskirts of town are complaining bitterly of their unprotected condition. The Star advocates the nomination of Granville H. Oury, by the Democratic party of Arizona. The Daily Republican has made its appearance, and its first number presents a good appearance and is well edited. Stammering may be produced by sudden fright suffered during childhood. A healthy frog will remain alive for days after the whole of its blood has been withdrawn from the vessels and replaced by common salt. Lately in London, England, a medical society obtained evidence of severe lead poisoning having been caused by the use of fashionable "hair washes."

Workmen employed in nail manufacturing are liable to contract a disease known as nailers' consumption, caused by the deposit of iron in the cells of the lungs. If the English amateur regatta committees continue to refuse to allow the Hillsdale amateur four to enter their regatta, the latter had better remain at home. It looks as if the English amateur oarsmen were afraid of the American champion crew. Arthur Chambers has matched his racing dog Let-Her-Come against George Barlow's Let-Me-Go for \$250 a side, the match to take place at Pastime park, June 24. The dogs are to run 200 yards, and it has been agreed to give or take 1 1/2 yards to the pound. At Boston, Massachusetts, John S. Prince allowed Miss Louise Armando five miles' start in a fifty-mile bicycle race. Prince won by about one-third of a lap. Prince's time for the fifty miles was 3 hours 12 minutes 38 1/2 seconds; Armando's, 3 hours 13 minutes 4 seconds. Prince made the first 23 miles in 1 hour 19 minutes 36 seconds, which beats the American record—that of D. Stanton—by 8 1/2 seconds.

Notice. GALEVILLE, COCHISE COUNTY, A. T., June 23d, 1882. NOTICE IS HEREBY GIVEN TO C. A. A. Miller, his heirs, assigns or representatives, that we have performed the assessment work on the Ophir mine, situated in the California Mining District, County of Cochise, Territory of Arizona, for the years ending December 31st, 1881, and December 31st, 1882, and the same having been done by us in accordance with law, this is therefore to notify you if you fail to pay your proportion of said work, amounting to \$100, and cost of publication of this notice, within the time prescribed by law, your interest in said mine will cease and become the property of the undersigned, by virtue of Section 2724, Revised Statutes of the United States. FRANK M. DODGE, G. W. NEICHER.

Parties residing at the centres of capital, East or West, who wish reliable information in regard in actual developments in the great Southwest-erm Mining region, should not waste their money on the so-called Mining Journals," issued in their respective cities by people who probably never saw a mine. Subscribe for the WEEKLY EPITAPH. Its mining news is full and complete, and verified by the personal examination of disinterested and reliable experts.

SOCIETY NOTICES. Solomon Lodge C. D. F. and A. M. The officers and members of the above named lodge are hereby notified to attend a called meeting thereof, on the evening of July 4, commencing at 7 o'clock for 11 o'clock. All sojourning brethren in good standing are cordially invited to attend. By order of the W. M. M. S. CART, Secretary.

The Baffle for the elegant Irish Lace Dress and Shawl to take place at the Oriental Saloon in preparation for the coming evening of July 4. Committee of Management: Jos. Tasker, E. A. O'Connell, Sam. Pugh, M. D. Dyer, and H. H. O'Connell. Sole agent, H. F. Price. 114 E. Second St.

County Recorder's Office.

EDITOR EPITAPH.—I see that considerable talk is being made regarding the report of the Grand Jury regarding the County Recorder's office, and lest an injustice be done to an innocent man, I will state that by an oversight on my part the report was left out and not attached to final report made to the Court. I did not discover it until after my return to this place. I will further state that the report on the Recorder's office was flattering indeed to that officer and no one regrets more than I do its having been omitted. As I said before, it was an oversight on my part and I alone am to blame. Yours, LARKIN W. CARR. Benson, June 16, 1882.

Doane & Henshelwood, San Francisco, California. Importers and Retail Dealers in Foreign and Domestic Dry Goods. DOANE & HENSHELWOOD, 1015 N. Market Street, San Francisco, California.

Notice of Sale of Real Estate. NOTICE IS HEREBY GIVEN, THAT IN pursuance of an order of the Probate Court in and for the County of Cochise, Territory of Arizona, made on the 20th day of June, 1882, in the matter of the estate of Louis A. Daves, deceased, the undersigned, the administrator of the said estate, do hereby offer for sale, to the highest bidder for cash, and subject to confirmation by said Probate Court, on Wednesday, the 23rd day of July, 1882, at 11 o'clock, a. m., at the Cochise County Court-house in Tombstone, in the said county of Cochise, all the right, title, interest and estate of the said Louis A. Daves, at the time of his death, and all the right, title and interest that the said estate has, by operation of law or otherwise, acquired other than or in addition to that of the said Louis A. Daves at the time of his death, in and to all that certain lot, piece or parcel of land, situate, lying, and being in the said county of Cochise, Territory of Arizona, bounded and described as follows, to-wit: Being lot (34) twenty-four, of Block (18) eighteen, in said city of Tombstone, said lot (34) twenty-four, being (30) thirty feet front on Fourth street, between Allen and Washington streets, in said city, and running back same width (120) one hundred and twenty feet. Terms and conditions of sale: Cash; lawful money of the United States, ten per cent of the purchase money to be paid to the auctioneer on day of sale, balance on confirmation of sale by said Probate Court. P. E. DAVES, Administrator of the Estate of Louis A. Daves, deceased. Dated June 20, 1882. J 621-3m

SAVE MONEY. By buying at dealers' prices. We will sell you any article for family or personal use, in any quantity at Wholesale Price. Whatever you want, send for our catalogue (free), and you will find it there. We carry in stock the largest variety of goods in the United States. MONTGOMERY WARD & CO. 227 & 228 Wabash Avenue, Chicago.

WATER JACKET FURNACES. 1850 RANKIN, BRAYTON & CO., 127 First St., San Francisco, Cal. BUILDERS OF Mining Machinery.

PLANTS FOR GOLD AND SILVER MILLS, embracing the latest and most improved machinery and processes for base and free ores. Water Jacket Smelting furnaces for silver, lead and copper ores, with new and important improvements, superior to any other make. Blasting Furnaces, Pumping Machinery, Chloridizing Furnaces, etc. We offer our customers the best results in thirty years' experience in this special line of work, and are prepared to furnish the most approved character of Mining and Reduction machinery, superior in design and construction to that of any other make, at the lowest possible prices. We also contract to deliver, in any quantity, all kinds of Blasting, Hoisting Works, etc., in any of the mining States and Territories. Send for illustrated circular. J 621-3m
