LOCAL NOTES.

Our county officers will rest easy after to-day.

Lou Aubry has returned from his trip to Socorro.

B. A. Fickas will take his departure to-day from Prescott to San Bernardino.

J. R. Johnson, a prominent mining man of New Mexico, is stopping at the Occidental hotel.

Charles Anschultz and John O. White, of Bisbee, are in town, and are at the Occidental hotel.

The Holiness Mission will hold a meeting at their new hall on Fifth street to-night.

Bowen, the well known Tombstone chiropractor, has located in the flourishing town of San Diego.

The Fourteenth will be a well "cussed" body of individuals, if they succeed in passing the fee bill.

Don't fail to attend the special meeting of Cochise Lodge I. O. O. F. this evening, as a full attendance is desired.

The Fourteenth Legislature, is a thing of the past—so is Tom Farish and the office of Commissioner of Immigration.

The Cochise delegation will return to their homes at once. Mr. Blinn will tarry a day or two in Phenix en route for Tombstone.

The eagle eye of our police has been so efficient in the pursuit of that human evil, the tramp, that it has rid Tombstone of every last one of them.

Densmore and Burrell, accused of dynamiting Mercers store out of existence at Tobac, were examined in Tucson, and discharged.

Frank Bulardo returned yesterday from Volcano city, at which place he is doing business. Frank reports everything looks favorable for a good permanent mining camp at the Volcano district.

Thomas Dunbar, of Tres Alamos, is visiting Tombstone on a business trip. The EPITAPH is always glad to greet our worthy brother, whose only fault is his democracy.

Frank Deatherige, of the Democrat, returned last evening from Nogales, at which place he has been in the interest of his paper. Mr. Deatherige reports Nogales as quite a thriving little community.

The blacksmith shop of the Vixen Mining Company, at the foot of Fourth street, burned down yesterday. The fire companies were promptly on hand and did effective service, for so small a fire. Loss about \$100.

Three burglars broke into the house of Rev. Father McEnroe, of Freeport, Pa. the other night, and the plucky priest knocked one down, and as the others ran shot at them with his revolver. All escaped apparently unharmed.

In the college slang of Princeton a perfect recitation is called a "tear," of Harvard a "squirr of Bowdoin a "sail" of Williams a "rake," of Hamilton a "blood," and of Amherst a "cold rush." Failures are called "slumps," "stumps," "Flunks" and "smashes."

It appears that Professor Wiggins predicted the Italian earthquake as long ago as last September. He located it in the Southern States and named a day in October, but a slight discrepancy of three or four thousand miles in distance or of six months in time do not figure much in his calculations.

Senator Fair, of Nevada, during his six years' term has not said enough in the Senate chamber to fill a page of the Congressional Record. Strangely enough his successor, ex-Senator Stewart, was during his former service as a legislator, one of the most loquacious members the United States Senate ever had.

He Come to Stay.

A dashing young Tucson merchant, who, by the way, is very fond of a neighboring merchant's wife, drove up his spanking delivery team to the door of the house of his friend for the purpose of delivering some needed groceries to the family. As the insinuating young grocery man entered, the husband quietly withdrew, thinking he would like to learn how much time his friend would consume on his business errand. The merchant waited patiently for upwards of a half hour. Another half hour slipped away and still the horse stood guard at the door of the waiting husband. After three hours had elapsed he concluded that his friend had come to stay, consequently he approached the horse and unharnessed him from the wagon, and leading him to the nearest stable ordered him put up and cared for during the night. Soon the swain emerged from the premises, and judge of his astonishment at finding the horse had disappeared. Why, d—n the old fool, he muttered, "he has gone away and left me before, but this is the first time that he ever unharnessed himself." The merchant left the premises, swearing that if that family ever wanted groceries from him they would come to his business house.

Sale of Smugglers' Property.

A street sale of a condemned, confiscated smugglers' outfit took place yesterday in front of the United States Custom House in Tombstone. The property for sale were animals seized by U. S. officers, who caught one Jesus, near La Noria, trying to smuggle contraband goods, principally mescal, over the line. Three burros and one horse were sold. The burros were knocked down to the highest bidder for the insignificant sum of \$5, \$8.25 and \$10 each. The horse only brought \$9. Mr. V. C. Wilson, the Custom House officer, was much disgusted at the low price the animals brought. They were worth much more than sold for. All goods or property of a smuggled character is kept for a term of eight days, and if no legal action is instituted to recover the same, the U. S. laws require it to be sold at public auction.

A Cat Story.

A tremendous commotion has been caused in Philadelphia by a lawsuit between two wealthy families growing out of a dispute as to a cat. One family was fond of cats and the other detested them. The family which doted on tabby had a choice mouser, and one day not long ago, as he was promenading in the back yard, a member of the other family shot him dead. First there were arrests for disorderly conduct, trespass, etc., and now both sides have damage suits pending. For the information of Western people it may be explained that old cats cut more of a figure in Eastern society than they do anywhere else on this continent.

No Doubt About That.

General Lord Wolseley asserts that General Lee would have captured Washington after the first battle of Bull Run if he had not been controlled by the political leaders of the Confederacy. Such a claim is questionable to say the least; but there can be no doubt whatever that El Mahdi would have captured General Lord Wolseley in Egypt if the latter had not been controlled by a pair of legs which took him out of the country with a rapidity never surpassed in the annals of military rearward movements.

A Mayor of the Right Kind.

It is impossible not to admire the pluck of the Mayor of Nice, who undertook to restore the confidence of the frightened people by giving his official assurance immediately after the earthquake that the worst was over and that they had nothing to fear. A Mayor who can guarantee a city against an earthquake shock is a Mayor worth having.

The most extravagant stories of the heroism of the Prince of Wales, who was in the earthquake region at the time of the shake, are told in England, where the people shed tears of joy. Albert Edward was in bed when the shock came and valiantly refused to move. Entreaties were in vain. The walls trembled, but he closed his eyes and bade his friends depart. No one but a prince of blood or a bloody prince who had been up late the night before, could have shown such nerve.

With fifty-five feet of water in the Ohio River and half of the inhabitants of Cincinnati living on the roofs of their houses, it is in order for the genial M. Halstead to remark again that the Prohibitionists are "white bellied skunks," seeking to destroy the country and restore Jeff Davis' Confederacy.

EPITAPH CULLINGS.

The new Duchesse de Dino, formerly Adele Livingston and then Mrs. Stevens, of New York, owns a castle near Paris, for which she paid \$175,000.

The late Henry Ward Beecher and Mr. Bowen, of the New York Independent, have not spoken for fifteen years, although they lived within a block of each other.

Senator Wilson, of Iowa, was in 1853 a journeyman harnessmaker in Ohio, and his wife was the daughter of Alpheus Jewett, a blacksmith of Newark, O.

Thomas Nast's young daughter cooked the entire dinner the other day for a dozen of her father's caricaturist friends at the family's home in Morristown, New Jersey.

John Harrigan and his rope have become famous in San Francisco. With the same piece of rope he has pulled twenty-eight people out of the water in the last three years.

Theodora Thomas walks ten miles every day and the Boston Herald thinks that this gives his legs about the same amount of exercise that overture gives his arms.

John Whittaker, the colored cadet, who was charged some years ago with mutilating his own ears while at West Point, is now a member of a successful law firm in Charleston, S. C.

It is said in Washington that General Viele, of New York, will probably be sent as minister to Turkey, and that General Lawton will receive the mission to Austria.

Congressman J. Thomas Sprigg is quoted as saying that before July 1st, President Cleveland will leave a letter in the hands of the National Democratic Committee declining to be a candidate for re-election.

Edward DeLong, a nephew of Gen. Beauregard, and a son of the late Gov. DeLong, of Nebraska, turned up in Louisville recently, a total wreck in health and fortune and wild with delirium tremens.

Edwin Arnold, author of "The Light of Asia," who was compelled to retire from his duties as editor of the London Telegraph some time ago and take up his residence at the seaside, is reported in better health.

During all of Congressman Cox's illness nobody at the White House has ever sent over to inquire about him—and it is only three blocks from the President's office to the distinguished Democratic statesman's sick chamber.

A letter from Missouri has been received at the Interior Department at Washington addressed to "Hon. Robt. McClelland." Mr. McClelland was Secretary under President Pierce from 1853 to 1857.

The body of Frederick Morris, who claimed to be a brother of Clara Morris, the actress, who fell into the river at Huntington, Pa., last Saturday while in a state of intoxication, has been recovered and identified. He had lived for years under an assumed name because of his dissolute habits.

Attention I. O. O. F.

There will be a special meeting of Cochise Lodge, I. O. O. F., at 7:30 this evening. All brothers are requested to be in attendance. W. C. JOHNSON, N. G.

W. D. MONMONIER, Secretary.

W. L. Whepley, Grand Master of the Arizona Lodge of I. O. O. F., and one of the leading merchants of Phenix, arrived in Tombstone yesterday. Mr. Whepley comes on a fraternal visit to Cochise Lodge, which will meet this evening in honor of his arrival. He is one of the foremost men of the Territory, a deserving, popular gentleman, and the EPITAPH bids him welcome to our city.

Our sister county, Pima, like Tombstone, seems to have prospects ahead. The San Xavier mines are improving right along; they are about twenty miles south of Tucson. Mr. Hinke, of this city, is mining there. He reports considerable chloriding going on and all doing well. Quajotos is looking up and the prospects are that it may become a live camp in the near future.

John S. Wise, of Virginia, on his annual announcement that his state is to be Republican from this time forth. The trouble is that Wise and Virginia are two different and distinct institutions. The Republicans carry Wisconsin, but the Democrats have been carrying Virginia.

The Italian earthquake came along just in time to help the scientists out of a dilemma relative to the Charleston upheaval. They had carried their arguments on that disturbance to a point where personal hostilities were in order, and they might have taken place if the subject had not been changed. It is presumed that the investigation of the European quake will busy them until the opening of the cyclone season.

In his recent paper on General R. E. Lee the English General Wolfeley set himself on record as of the opinion that the American states have a right to secede. Up in Dakota there are some state-builders who believe that territories may secede. The mass of the American people will agree with both of these propositions under one condition. The seceders must whip their way out.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. HAMBURG FIGS were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. Mack & Co., proprietors, S. F.

Notice.

The Board of Supervisors of the County of Cochise will receive bids for carrying the insane to the Territorial Asylum at Phenix. The contract to be awarded will run to January 10, 1888. The bids must be accompanied with a good and sufficient bond in the sum of \$500, conditioned that the bidder will enter into a contract within ten days should the same be awarded him, the same must be filed with the Clerk of the Board before April 4th, 1887, at which time the bids will be opened. The Board reserves the right to reject any bid.

Dated March 2nd, 1887.
By order of the Board,
A. R. ENGLISH, Clerk.

The Western Settler's Chosen Specific.

With every advance of immigration into the Far West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural or mining emigrant soon learns, when he does not already know, that the Bitters afford the only sure protection against malaria, and those disorders of the stomach, liver and bowels, to which climate changes, exposure, and unaccustomed or unhealthy water or diet subject him. Consequently, he places an estimate upon this great household specific and preventive commensurate with its intrinsic merits, and is careful to keep on hand a restorative and promoter of health so implicitly to be relied upon in time of need.

A cold may be a dangerous thing or not, depending upon the means at hand to combat it. It is a wise precaution to provide against emergencies that are liable to arise in every family. In sudden attacks of cold, grip, asthma, etc., Ayer's Cherry Pectoral will prove the quickest and most effective cure, and your best friend.

A Pretty Woman's Secret.

Fear of discovery, when she resorts to false hair and dye, is a source of constant anxiety to her. The very persons from whom she most desires to hide the want of her charms are the ones most likely to make the discovery. But there is no reason why she should not retain and retain all the beauty of hair that was her pride in youth. Let her use AYER'S HAIR VIGOR, and not only will her hair cease to fall out, but a new growth will appear where the scalp has been denuded; and locks that are turning gray, or have actually grown white, will return to their pristine freshness and brilliancy of color. AYER'S HAIR VIGOR cures.

Hereditary Baldness.

GEORGE MAYER, Flatonia, Texas, was bald at 23 years of age, as his ancestors had been for several generations. One bottle of HAIR VIGOR started a growth of soft, downy hair all over his scalp, which soon became thick, long, and vigorous.

Ayer's Hair Vigor

is not a dye, but, by healthful stimulation of the roots and color glands, speedily restores to its original color hair that is turning gray.

Mrs. CATHERINE DEAMER, Point of Rocks, Md., had her hair suddenly blacked by fright, during the late civil war. AYER'S HAIR VIGOR restored it to its natural color, and made it softer, glossier, and more abundant than it had been before.

Scalp Diseases

Which cause dryness, brittleness, and falling of the hair, dandruff, itching, and annoying sores, are all quickly cured by AYER'S HAIR VIGOR. It cures HERBERT BOYD, Minneapolis, Minn., of intolerable itching of the scalp; J. N. CARTER, Jr., Oceanport, Va., of Scald Head; Mrs. D. V. S. LOVELACE, Louisville, Ky., of Tetter Sores; Miss BESSIE H. BEDLOE, Burlington, Vt., of Scalp Disease and Dandruff. Topicality of the roots of the hair, which, if neglected, may result in incurable baldness, is readily cured by AYER'S HAIR VIGOR.

A Toilet Luxury
AYER'S HAIR VIGOR has no equal. It is colorless, cleanly, and perfectly perfumed, and has the effect of making the hair soft, pliant, and glossy.
