### LOCAL NOTES.

Col. William Herring is somewhat unwell but nothing of a serious nature.

The Los Angeles Times of yesterday publishes the life and adventures of the now famous Kissane.

The chances are very favorable that a mail route will be established between Tombstone and Ochoaville.

For the best quality of bread, pies, cakes and all kinds of first class pastry call on the American Bakery.

It looks as though sheriff Slaughter and his friends would survive the late onslaught, of Judge Reilly.

Postmaster Clark it is thought will not hand in his resignation notwithstanding the opposition of our neighbors.

Joseph Tasker, of the Soldier Holes ranch, is in town. Joe is greeted by a large number of friends upon each visit.

Hon. A. A. Bean, still lingers in Tombstone. The EPITAPH would be pleased to see the colonel take up his residence in our city.

When railroad thieving is found to have descended to the level of larceny, as in the case of the Panhandle employes, it is viewed with much alarm.

California produced 46,000,000 bushels of wheat in 1886, and \$85,665,000 in gold and silver and the state has a banking capital of \$570,000,000.

Mlle. Maria Deraismes is said to be the only woman freemason in France. She is a good speaker, a terse writer, and a strong advocate of suffrage for women.

Mrs. Louisa Knapp who now edits the Ladies Home Journal at a salary of \$5,000 a year, did her first editorial work on the household department of the Tribune and Farmer.

The Knights of "Labor," on making arrangements for their parade which will take place on May 1st. Very wisely concluded to have no banner but the stars and stripes.

The woman who lives with a man three hundred and sixty-five days in a year is not going to be degraded to any alarming extent by voting with him on the three hundred and sixty-fifth.

Officially the Governor of Rhode Island known as "Governor and Captain General of Rhode Island and Providence plantations." For a Democrat this is pretty high.

Following closely on the heels of the first ice cream poisoning comes a report of the initial explosion of a soda water resort. The defective flue and the car stove are therefore out of date and summer, with all its perils, is upon us.

Judge Peel, returned yesterday from Bisbee, at which place he had been on a visit to his friend Captain Heyse. The Judge reports much activity in the copper camp, and predicts a very prosperous future for the canyon city.

There is a strong probability that the time of the departure and arrival of the Bisbee mail will be changed. The change is required by the people of Bisbee, and will be much more convenient for the citizens of that place.

BUFFALO BILL is astonishing our English uncles and cousins. The London Daily News tell it readers that "Buffalo Bill is not a wild Indian, as many of them have supposed, but the Hon. W. F. Cody, a member of the United States Parliament."

The EPITAPH is pained to learn of the serious affliction of little Luis Gasper. The character of her injuries necessitate her removal to San Francisco for treatment. We trust the little patient will soon return to Arizona smiling and happy.

### A LARGE TRADE

In Within the Grasp of Our Tombstone Merchants.

Can merchants and business men extend their trade? In looking over the great mineral wealth of this Southern Arizona country one is apt to forget its other resources. The glamour that attends the delving into the bowels of the earth for the precious metals shown to exist in large quantities, seems to have turned the thoughts of most of the business men of Tombstone to mining as the only source of wealth. The successful men in trade are those who keep an eye single to the advancement of the country in which they reside, opening new avenues, offering greater facilities to outlying districts. Let the business men of Tombstone unite-demand of the general government better mail facilities, show the prospector, miner, cattlemen, rancher, that they are alive and working for the interest of all, trade will increase. How long can Tombstone command any portion of the trade of the great Sulphur Spring Valley, Rucker, White Water and the Upper San Pedro without effort. Look at the future of that great belt of country, east of the Sonora river to the Sierra Madre mountains, one hundred and fifty miles east and west by three hundred miles north and south, cut off from the western portion of the

### STATE OF SONORA

by ranges of mountains that makes the San Pedro the natural outlet for that whole country. Starting from Tombstone south along the San Pedro valley to Ochoaville, thirty miles, with herds of cattle and acres of agricultural land, pass to the border custom house a little east of south fifty miles will take you to Fronteras with ranches and cattle around about, pass to Nacosari, one hundred and forty miles from Tombstone, will be found the San Pablo, San Pedro, Rosario, Fortuna, Hoody and other mines rich in the precious metals, turn east, sixteen miles, Jesuquepa will appear with its Ygnacia, Avido and San Antonio mines, showing free gold, turn south twenty-four miles to Oputo, and you will pass some of the oldest and richest mines of the Spaniards, being on the Bavispe river, pass to Huasabas and Granadas, rest here. In this district is grown some of the finest tobacco in the world. Turn east by south to Nacosari, seventy miles then fifteen miles south and view the ground that drank the life blood of heroic Crawford pass on twenty miles to the border of the rancho de Nacori, the Grandes valley and stock ranges in all the Sierra Madre, crystal water breaking and bubbling wherever you go. All this time you have been traveling between the Sierra Madres and a range of mountains that extend from near the Arizona line to the Yaqui river, this being not quite half of the country spoken of. Take the road for the

### HEAD OF THE SONORA RIVER

from the custom house traveling south you pass the Ojo de la Agua ranch, thirty miles from the line, Uncle Bill Piaster, further down the river you pass mines and ranches to Bacuachi, one hundred and five miles from Tombstone, then to Campas, sixty miles, there you will find the Beckertons, San Brannan, John Dart, all rich in mines, well stocked with information and take to the ways of the country like a native, genial boys every one. You are on the Moctezuma river pass down twenty-one miles to Oposura, you are in the orange region country, seven miles more and you will reach Tepachi, where oranges grow to perfection. Twenty miles east to the Promontorio copper mine, the Seven Bells at Oposura, those at Sahuaripa, Huasabas, Tepachi, that call the godly to prayer are the product of this mine, passing from Tepachi along the west side of the Promontorio mountains are Lampasas and the Gabilan mines, on the road to Sahuaripa you cross the Yaqui sixty miles south to the La Trinidad. La Trinidad mine was sold by that well known mining expert, Almsa, to an English company, who are turning out a fortune. Tom Corrigan has a mine here down the Yaqui from Sahuaripa sixty miles to Sepachi, where the Mexicans do congregate when they have business to transact with that wily chief, Cajeme, whose possessions are still further west, from the Gulf of California east, Cajeme claims seventy miles of the Yaqui river being protected on the north by a range of mountains, hard to climb, reaching from the Gulf to Syopi. Start from Sahuaripa east up and south of the Yaqui fifty miles and you are at the Mulatos mine, the largest gold mine known on the continent. Think of it men of Tombstone, all this country should draw its supplies from this city. Will you make an effort for this trade?

### The Maxwell Grant.

The EPITAPH don't presume to differ with the decision of the Supreme Court on the famous Maxwell land grant, but we do know that original title papers only call for 66,000 acres, and that through the dishonest effort of land officials has been increased to the enormous limits of 1,714,964 acres. This too is only one instance in the wholesale fraudulent conveyances of government lands, during the past ten years. And to-day all that stands between the settlers of this Territory and their homes is W. A. Sparks, the cranky old land commissioner, C. E. Dailey, of Tucson, and sterling old John Hise, Arizona's Surveyor-General. Every honest effort that could be made to protect our settlers from the wholesale land robbers, has been made by these three men, and the citizens of this territory respect them for their honesty and faithfulness in their official capacity.

### Mail Routes.

The second Assistant Postmaster General, in reply to a letter from P. M. Clark has instructed him to change the schedule on the mail route from Tombstone to Bisbee, to give Bisbee better mail facilities east and west. Here is the result, Monday March 25th, mail will leave Tombstone at 1 p. m. arrive at Bisbee at 6 p. m., leave Bisbee at 6 a. m. arrive at Tombstone at 11 a. m. This change gives Bisbee the east and west mail the same day that it reaches Tombstone, and mail that leaves Bisbee for the east and west will go out the same day with the Tombstone mail. Now Mr. P. M. get a mail route to Ochoaville, correct the delays in the mail between Tombstone and Charleston, Fort Huachuca, Nogales and you will confer a favor upon the community.

### That's Different.

The money is said to be fairly rolling in to help pay for the gold belt studded with diamonds, to be presented to John L. Sullivan by admirers in Boston, and New York and Philadelphia. A little girl started a nickle prize package gift enterprise in New York the other day to help the Grant monument fund. She took in fifteen cents during the first two weeks and then was arrested for running a lottery.

Friday night of this week, is to be set apart by the lovers of fun, for attending the concert of the Peak Sisters, at Schiefelin Hall. And we feel justified in predicting a genuine treat to all who have anything comic in their composition. The ballads and operatic airs will be rendered with a spirit by "the gals" that will entrance the audience. The symphonies to be performed upon costly instruments of rare construction, cannot fail to challenge the admiration of all those who have any music in their souls. td

It is reported that Cleveland has at last decided to make a western trip. He may do it but we rather expect that when he gets to Buffalo, New York, and looks off across the wild and howling wilderness filled with ferocious beasts and lurking savages, that lies west of there, his courage will fail him again, and he'll get no farther. A man who ventures more than a mile or so west of Buffalo does so at his own peril anyhow.

The cashier of a chinese bank tried to leave with the funds for Japan or some place, on the American plan, the other day, but it is not believed that the custom will become popular. The government walled up the cashier in a cell to starve to death and chopped the heads off all his family. And next fall they are going to decapitate every body in the empire bearing his name.

Mary Clemmar once entered into a contract to write a column a day for three years on any subject assigned her. She never failed for a day to fulfill her task, which included every sort of subject from book reviews and political articles to a common advertising paragraph. During the last years of this contract she got a salary of \$5,000.

The regular annual settlement of the Afghan boundry question by England and Russia has just taken place in the usual way, Russia gaining a big step without fighting for it. One of these days Afghanistan will disappear under this process of attrition and then settlements will be somewhat more difficult.

### County Records.

The following documents were filed in the County Recorder's office yesterday:

POWER OF ATTORNEY.—From James Morgan to R. B. Parks to collect money on mail contract.

LOCATIONS.—Mameth, Warren district, F. N. Brady. Ohio, Warren district, P. Johnson.

### Fruit Trees.

The finest two-year old fruit trees, quinces, peach, apricot, apple, pears, plums, prunes, nectarines, (persimmon Japan), chesnut, olives, almond, pomegranates, mount cypress; also fifty different roses, pinks and many other plants for sale by William Brauch, Fulton street, between Second and Third, Tombstone, Arizona. Orders by mail promptly attended. Our motto is honest dealing. Four boxes—pot plants received by express to-day, most all in bloom, wisterias, Lady Washington, heliotrope, primroses, carnation, begonias and many other plants.

We are now prepared to draw drafts direct, issue letters of credit, and transfer money by mail, and cable, on all points of Europe, Asia, Africa and Australia.  
R. W. WOOD,  
Cashier  
Bank of Tombstone

Whiskey brings more misery upon the human family than war, famine and pestilence combined. There is but one rational course to pursue for the inebriate and that is a treatment that destroys the appetite for rum. Such is the Acme. Read their advertisement in another column.

### New Goods.

A full line of Spring and Summer goods have just been received by Harris, the Tailor, and they will be made to suit customers or no pay demanded. Call and examine my stock before ordering elsewhere.  
HARRIS The Tailor.

### Occidental Hotel.

This is the only first-class hotel in Tombstone. It is handsomely furnished with all modern improvements. Travelers who stop at this house will find every comfort and attention. Private rooms for commercial travelers at reasonable rates. A splendid billiard table and a card room. The bar is supplied with pure brands of wines, liquors and cigars.

### Vaccination

Just received from Europe a quantity of pure cow-pox virus.  
W. W. FETTERMAN, M. D.,  
Cor. 6th and Fremont, Tombstone.

Just received at Joe Hoefler's, a car load of the celebrated Stockton crown brand flour and a quantity of fresh groceries.
