

HAYWOOD JURY IS AT LAST SECURED

Twelve Men Selected Immediately After Defense Uses Its Last Peremptory.

ALL OF JURORS CHOSEN ARE OVER MIDDLE AGE

Hawley Will Open for the Prosecution This Morning and Will Lay Many Crimes to the Federation—Haywood Sick.

By Associated Press. BOISE, Idaho, June 3.—Twelve men to try William D. Haywood for his life on the charge that he murdered Governor Frank Steunenberg have been chosen and bound by oath to honestly deal the laws of justice between the state and the prisoner. Haywood heard the indictment charging him and tomorrow after the state has recited its case and made promise of proof the first chapter of the tale of the Caldwell crime will be retold.

The wearisome work of jury selection ended quickly and unexpectedly this morning. Alfred Eoff, the first talesman examined, was declared qualified after a strong and repeated protest from the defense. Eoff said he had an opinion, one that he would carry into trial, that he could not presume the defendant, and that he would not like to be tried by a man who had his opinion, but despite these conditions he thought that if sworn he could fairly try the case according to the law and the evidence. Four challenges for cause against him failed, but the minute he was passed the defense expended its tenth challenge to get rid of him.

Get Twelfth Man

O. V. Sebern, the next talesman called, proved the last one needed. When a resident of Wyoming, Sebern served as a member of the Tom Horn jury and the defense went into the question quite thoroughly, but in the end the talesman qualified in a manner satisfactory to both sides. The defense had contemplated making a request for permission to reopen the examination of certain jurors, but this plan was abandoned and no objection came from either side.

Hawley Opens Case

Tomorrow morning James H. Hawley for the state will address the court with the opening statement. He prepared a manuscript and today said he would be very brief. Broadly speaking, the state will charge that Haywood conspired with Moyer, Pettibone, Simpkins and others of the alleged "inner circle" of the Western Federation, plotted the campaign of terrorism that had for its double purpose the removal by assassination of those opposed to the organization and the retention and increase of power within the organization. It will allege that the explosion at the Vindicator mine, the murder of Light Gregory, a detective of Denver, the murder of Arthur Collins of Telluride, the alleged blowing up of Fred Bradley of San Francisco and the alleged attempts on the lives of former Governor Peabody and Judges Gabbert and Goddard of Colorado were all acts in a single great conspiracy to which the murder of Steunenberg was identical. It will charge that Haywood and his associates standing together and working in the background planned the long list of crimes and sent Harry Orchard and Steve Adams forth as hired assassins.

JURORS HAVE HOT TIME OVER SUNDAY

After Wrangle Over Nicotich Case Since Saturday Afternoon, Discharged Yesterday

ELEVEN TO ONE FOR CONVICTION THROUGHOUT

Weather Was Hot and So Were the Jurors—McGovern and Munn Found Not Guilty—Trials of Civil Cases Begin.

While the crime alleged was less important than others, the trial of Mike Nicotich, the Montenegrin charged with assault with a deadly weapon, proved to be the feature of the present term of court—but not until after it went to the jury. There have been conflicting stories about the deliberations of the twelve men after they went out Saturday afternoon at 3:30 o'clock, but it is an established fact that they had a hot time, which was due not wholly to the weather, which was very hot. After being out over Sunday the jury filed into the courtroom yesterday morning when court opened and informed Judge Nave that they were unable to arrive at a verdict. There was no chance for an agreement and the court discharged the jury.

McGovern and Munn Freed

O. I. Munn and Matt McGovern, charged with assault with a deadly weapon, were acquitted by the jury, which was out twenty minutes yesterday afternoon. At the opening of the session Attorney French for the defense called the attention of the court to an article in Sunday's Silver Belt concerning the trial, alleging that the newspaper had printed certain facts about the case at issue. As they were facts, with no comment tending to prejudice the case either way, there did not seem to be a way in which the paper could be cited for contempt and the incident was closed without further ado. There was very little evidence tending to connect Munn and McGovern with the alleged crime and the verdict of the jury was not unexpected.

Munn and McGovern Freed

Mario Gardi, the young Italian who pleaded guilty to burglary Saturday, was sentenced to serve nine months in the territorial prison, the court finding the crime to be burglary in the second degree. The case of the Territory vs. J. W. Jenkins for assault with a deadly weapon was dismissed on motion of the district attorney, the territory's principal witnesses having decamped. In the case of Gustavus Heyman vs. P. L. Glumac, debt, judgment was entered for the plaintiff. The case of Campbell vs. Finletter came up yesterday, but was continued until this morning, giving the plaintiff time to amend his complaint. Unless it is decided to again try the Nicotich case, there will be no further criminal trials, as the calendar has been cleared.

LAND SWINDLERS TRIAL IN IDAHO

Motion to Instruct Jury for Verdict of Acquittal Denied by Judge

Canadian Agent Says in a Few Years Jap Labor Will Be Hard to Get

By Associated Press. OTTAWA, Ontario, June 3.—The report received at the department of trade and commerce from Alexander McLean, Canada's agent to Japan, gives the press the opinion that within a short time the United States will have more difficulty in obtaining labor from Japan than it now has in keeping Japanese laborers out. There is a growing demand for Japanese laborers, from almost all the countries of South America and Hawaii, which promises with the demand for men for the development of Korea and Manchuria to absorb the whole of the Japanese supply of laborers. Within the last few months emigrant companies who deal with Japanese labor as an export commodity filled contracts in Mexico for ten thousand laborers.

JURORS GOT BUSY

It is said that the first ballot was 10 to 2 for conviction. One of the jurors from northern Gila county voted for acquittal, but afterwards flopped to the majority. The diversion is said to have been furnished by Jurors Barclay and Rodgers, the latter being the one who voted throughout for acquittal and who "hung" the jury. Others became involved and it is said that personalities were tossed about indiscriminately and promiscuously. It is also said that one of the jurors, who is a miner, dreamed Sunday night that he was caught in a cave and tried to jump out of the jury room window, but this cannot be vouched for. Nicotich's attorneys, Weinberger and Elliott, held a consultation with District Attorney Stoenman yesterday afternoon with the view of compromising on a plea of guilty of simple assault, but no agreement could be reached as to the amount of the fine. It is thought that it will be settled today without another trial.

PEOPLE DID NOT WANT TO HEAR BRYAN SPEAK

Calls for Politician Suppressed by General Lee—"There Will Be No Politics Here," Says the General.

By Associated Press. RICHMOND, Va., June 3.—Under a perfect sky, with bands playing "Dixie" and "Maryland," the remnant of the army of the gray passed through the streets of Richmond and out on splendid Monument avenue and unveiled the enduring memorial to Jefferson Davis. The event came as a climax of the reunion of United Confederate Veterans and every member of the body who was able to walk took part. That the great multitude had gathered for one purpose alone was evidenced by the attitude of the people toward William J. Bryan, who was a guest of the reunion. He was given a remarkable ovation as he drove through the streets and cheered to the echo as he mounted the stand just before the program began. At the conclusion of the ceremony there were a number of calls for him to address the people, but these were immediately drowned in a chorus of "No! No! No!" many times repeated. The objections came from everywhere and were led by the women of the Jefferson Davis Monument association, also General Stephen D. Lee, grand commander, who presided at the stand and announced in ringing tones, "There will be no politics here." He turned to the crowd in every direction and shouted the warning, which had the desired effect. During the ceremony Mr. and Mrs. Bryan occupied an inconspicuous position in the rear of the speakers' stand out of sight of the people. As soon as his name was called Bryan made a movement as to withdraw from the stand. He realized that if he appeared before the people a political move would be attributed to him by many, and for that reason he had opposed going on the stand at all. The prompt suppression of the calls by General Lee and others saved an embarrassing situation.

PRICE OF METAL WILL BE LOWER

Expected Sales Will Be Around 23 Cents—Market Will Not Be Affected

Special to the Silver Belt

BOSTON, Mass., June 3.—Copper stock weakness today was influenced by a break in the New York stock market. A break of over 22 in the price of G. B. M. copper in London was also a factor in encouraging pressure to sell stocks. The fact that consumers of copper have not yet entered the market for the metal permits of all sorts of pessimistic talk as to future prices and the best opinion is that the price of copper for delivery later than June 1 will drop from 25 1/2 cents to around 23 cents per pound. Practically all the mines have sold their outputs up to July 1 around 23 cents per pound. Copper production has not yet caught up with consumption, but the reduction in copper prices, it is believed, would greatly improve general trade conditions and prevent general restriction in the use of copper. The copper metal market has reached a dead center in which both buyer and seller are endeavoring to size up each other's necessities with the result that business is flat.

MILLER BOUND OVER TO GRAND JURY IN BISBEE

Joseph Miller, who was apprehended in Globe, was bound over to the grand jury in the sum of \$3,000 at Bisbee last week, being charged with committing a criminal assault on Mrs. Mary Mahtes of Opera drive. He went to jail in lieu of bond. The alleged crime was committed about six months ago, but the woman kept silent until May 22, when she swore out a warrant against Miller, charging him with criminal assault. Mahtes and his family live at the home of Mr. and Mrs. J. W. Smith, and it developed at the hearing that the place enclosed many a disorderly scene. All of the parties in the case are natives of the Baltic provinces and it appears that they drowned their Russian names in the North sea when they came to this country.

SCHMITZ JURY IS HARD TO OBTAIN

By Associated Press. SAN FRANCISCO, Cal., June 3.—Twice during the closing hours of today's session of the Schmitz trial it seemed all but certain that the jury was about to be completed. Each time the twelfth juror escaped through a peremptory challenge, and adjournment was taken with eleven chosen men in the box and one not yet examined. Three veniremen were finally accepted and sworn, the last of the arbitrary challenges being exhausted. There is no apparent reason why the trial panel should not be filled tomorrow, perhaps by noon.

CHARLES H. MOYER, PRESIDENT OF THE WESTERN FEDERATION OF MINERS.

Charles H. Moyer, charged with being one of the men who conspired to bring about the assassination of ex-Governor Steunenberg of Idaho, is president of the Western Federation of Miners, which was organized in 1893. The federation sought to unionize various mines in Idaho, Colorado and other western states. Bloody riots resulted, troops being called out to quell them. It is alleged that Moyer and other officials of the federation employed Harry Orchard to assassinate Steunenberg because of the latter's activity in quelling the riots during his occupancy of the governorship.
