FINANCES AND MARKETS

[Republican A. P. Leased Wire] NEW YORK, Oct. 25.—The most obvious effect of the step taken yesterday by the local money committee to reduce bank loans was a further curtailment of operations on the stock exchange today. Active selling at the outset was attended by declines of one to four points in the most vulnerable issues, but much of this loss was quickly recovered while here and there a few noteworthy gains were established. Next to United States Steel, which moved in a narrow groove and closed at one point loss, the most active stock was Mexican Petroleum. From its initial decline of almost four points, rapid recovery was made, ending at a gain of 6 points.

Other oils, American Smelting, some of the motors, Sumatra Tobacco, and low grade coals finished at advances, but the general list developed heaviness later, rails and equipments again yielding to pressure. Total sales amounted to 690,000 shares. Foreign issues reacted moderately with Liberty bonds and the general domestic group on more contracted dealings. Total sales par value aggregated \$8,270,900. Old United States bonds were unchanged on call.

BRADSTREET'S REVIEW

NEW YORK, Oct. 25.—Bradstreet's tomorrow will say: "Trade at wholesale has receded at many eastern points, and conservatism born of peace talk has set in. Without, however, abating the government's war-directed energies. Distribution from the hands of retail dealers has been adversely affected by the effects of influenza and warm weather, while industrial outputs have been curtailed by illness among workers. With the epidemic of influenza waning, discussions about peace are receiving more attention, perhaps the most attention, and superficial prospects in that respect tend to deter merchants from operating freely for 1919, while also super-inducing a disposition to affect cancellations—although complaints of insufficient supplies of merchandise still are numerous. The central fact is that merchants, especially those in the east, seem more content to trade in accordance with current requirements and to let developing events shape their future course."

"GO TO HELL" HE TOLD HUN OFFICERS

Major Charles M. Whittlesey, a former New York lawyer, and his battalion were surrounded for five days by a German force and cut off from all assistance. The Hun leaders sent Whittlesey a note telling him that his men were surrounded and ought to surrender to save themselves. Whittlesey crumpled up the note and said, "Tell them all to go to hell." The battalion repulsed three strong attacks and finally was rescued by Col. Eugene Hutton's regiment.

GRAIN. CHICAGO, Oct. 25.—Close—Corn, Nov. 1.37; Dec. 1.22; Oats, Nov. 7.18; Dec. 7.0. Pork, Nov. 8.61; Jan. 40.00. Lard, Nov. 24.70; January, 24.50. Ribs, Nov. 21.25; January, 21.97. METALS. NEW YORK, Oct. 25.—Lead unchanged. Spot 85.5, Spelter steady; East St. Louis spot, 87.0@8.90. COTTON. NEW YORK, Oct. 25.—The cotton market today closed steady at a net advance of 33 to 45 points. INVENTIONS. A craze for invention is sweeping the country. Many a man who has never been able to invent an excuse to hand the wife for getting home late is now accomplishing wonderful things. Already 2,000,000 appliances for the destruction of U-boats have reached the patent office. One man has evolved a brick boat, built entirely of brick from the keel to the crow's nest. The chief value of this construction is that the brick boat will fool the wiles of U-boats. It sinks as soon as it is launched and the U-boats are never able to find it.
