

ORGANIZATION OF ARMY CORPS WHILE IN FRANCE GIVEN

(Republican A. P. Leased Wire)

WASHINGTON, Nov. 26.—The organization of American army corps in France, as it existed November 7, four days before the signing of the armistice, was made public tonight by the war department. 282 corps then had been organized, but only the first was at the maximum strength of six divisions. In all twenty divisions made up the corps.

In the first corps were the sixth division, made up of the 21, 22 and 24 infantry regiments, and the 3, 7 and 11 artillery regiments; the 56th division, 141, 142, 143 and 144 infantry regiments and the 131, 132 and 133 artillery regiments; the 42nd division, 125, 126, 127 and 128 infantry regiments and the 119, 120 and 121 artillery regiments; the 17th division, 205, 206, 207 and 208 infantry regiments and the 201, 202, 203 and 204 artillery regiments; the 79th division, 193, 194, 195 and 196 infantry regiments and the 185, 186 and 187 artillery regiments; the 8th division, 317, 318, 319 and 320 infantry regiments and the 313, 314 and 315 artillery regiments.

In the second corps, were the 27th and 20th divisions, headed with the British fourth army. In the 27th division were the 105, 106, 107 and 108 infantry regiments and the 104, 105 and 106 artillery regiments and in the 20th division were the 113, 114, 115 and 116 infantry regiments and the 113, 114 and 115 artillery regiments.

The third corps had five divisions, as follows: Third division, 41, 42 and 43 infantry regiments and 39, 40 and 41 artillery regiments; 5th division, 69, 70 and 71 infantry regiments and 59, 60 and 61 artillery regiments; 23rd division, 127, 128 and 129 infantry regiments and 125, 126 and 127 artillery regiments; 112th division, 112, 113 and 114 infantry regiments and 112, 113 and 114 artillery regiments; and 113th division, 113, 114 and 115 infantry regiments and 113, 114 and 115 artillery regiments.

In the fourth corps were two divisions, the 24th and 25th. The seventh division was composed of the 25, 26, 27 and 28 infantry regiments and the 25, 26 and 27 artillery regiments.

In the fifth corps were four divisions, the 81st, second, 82nd and 83rd. The first division was made up of the 16, 17, 18 and 19 infantry regiments, and the 5, 6 and 7 artillery regiments; the second of the 20 and 21 infantry regiments and the 15, 16 and 17 artillery regiments; the 3rd of the 11, 12 and 13 infantry regiments and the 14, 15 and 16 artillery regiments; and the 4th of the 14, 15, 16 and 17 infantry regiments and the 18th, 19th and 20th artillery regiments.

GERMANY HAS MEANS TO STAND DAMAGES

(Republican A. P. Leased Wire)

NEWARK, N. J., Nov. 26.—In adding Belgium, France and Italy to meet their reconstruction problems, the United States can help them most by insisting at the peace conference that Germany pay the cost of her devastations, declared Francis H. Sisson, vice-president of the Guaranty Trust company of New York, in addressing the Essex County bankers' association today.

"If Germany has lost her credit, she has money and railroads, and ports and many other sources of wealth which could be used to partial advantage of the allies, and to the payment of her indemnity," said Mr. Sisson. Referring to the requisition of the United States and industrial charges in this country, Mr. Sisson asserted "shortage of labor has become a chaotic condition in this country, because of our great resources which have scarcely begun to be developed." He also declared that "there can be no arbitrary reduction of wages to the pre-war basis."

Asked whether the United States should return to private ownership or experiment in state socialism, he declared stringent government control in peace times would constitute a daily menace to industry and warned that "pursuit of economic will-o-the-wisps would bury us into the legs of botchery."

TO HEAD IMPORTANT HOUSE COMMITTEES

Julius Kahn (above) and Joseph Fordney.

Julius Kahn of California and Joseph Fordney of Michigan, old Republican wheelhorses, are slated to head two of the most important committees of the lower house at its next session. Fordney is in line for the chairmanship of the ways and means committee, and Kahn, who piloted the draft bill through the house, will head the committee on military affairs.

CHIHUAHUA TRAINS FAIL TO GET THROUGH

(Republican A. P. Leased Wire)

JUAREZ, Mex., Nov. 26.—No trains have arrived here from Chihuahua City since last Saturday, and wire communication with the south is still cut off. Though 1,500 soldiers are held in readiness for eventualities, officers of the garrison deny that any attack on the town is expected. According to information said to have been brought in from the south, the village bands reported north of Chihuahua City are moving in the direction of Ojinaga, the border town, opposite Presidio, Texas.

Major J. Gomez Tellez, chief of staff today said he was without information concerning the fate of the Villa Anahuac garrison of 80 men, who on Sunday morning were attacked by a superior force of rebels under Epigamio Holguin, who afterward dynamited and looted a freight train on the Mexican central road, 50 miles south of Juarez. Holguin is an adherent of Villa and federal officers believe he intends to attack the passenger train, running a few miles behind the freight, but which was flagged by a Mexican woman, who had been riding in the caboose of the freight, and who ran back along the track and gave the alarm, which resulted in the passengers returning to Juarez.

MAKES SWEEPING DECISION

(Republican A. P. Leased Wire)

INDIANAPOLIS, Ind., Nov. 25.—In overruling demurrers to indictments against 299 men charged with violation of the liquor laws today, Judge Anderson, in federal court, ruled it was unlawful to bring liquor into Indiana by train, automobile, or person, by wagon or airship.

HOW TO WEAR AND CARE FOR THE "FLU" MASK

"The wearing of masks has been much discussed," said Dr. O. H. Brown, state health officer. "My own views on the matter have probably had something to do with the mask-wearing order in Phoenix. A statement of fact may be enlightening to those who are now opposed to the mask. The points to be considered are as follows:

(1) Surgeons wear masks at operations in order to protect droplets of spittle, perspiration from getting on the face to the field of operation. There is no question of the value.

(2) Physicians are apparently a unit in recommending masks for those in contact with patients ill from respiratory tract infections.

(3) The objections raised against masks is that they become infected with bacteria on the outside and then through carelessness the infected areas come in contact with the face, or a thin mask rests against the lips and allows the infection to be transmitted through.

(4) A mask marked plainly so outside, stays outside, and made so it extends well out from the face, removes the objections to the mask.

(5) Such a mask is made by folding a piece of gauze so that it will cover the lower part of the face; put several tucks over the chin and on either side of the nose and gather both ends. This fits about the face and does not touch the lips or nose. Mark it outside. Tapes about the ears will hold it in place.

(6) The mask should be kept fresh. Each should have three or four a day. They may be laundered and sterilized.

(7) If a mask protects a well man when he is in the sick room, it will protect him when on the street or in the office.

(8) San Francisco reports wonderfully good results and no apparent harm from the use of the masks.

(9) If but a single life be saved by this measure the trouble and inconvenience will have been well paid for.

(10) If there is sound argument against the mask the committee of physicians wish to know it, as they feel the responsibility for the lives which may be sacrificed by a mistake."

DENVER LIKES PLAN

DENVER, Nov. 25.—New York's plan for transforming Fifth avenue into an "Avenue of the United States" is warmly decorated as a welcome to the returning soldiers during the coming months, and with one block of the triumphal way turned over to each state in the union, has met with instant approval in Colorado. Today Governor Julius C. Ginter, telegraphed Robert G. Cooke, chairman of the New York committee, having the plan in charge, that this state would willingly cooperate in the project.

The special decorations along Fifth avenue will stand during the long period when American troops are disembarking from Europe. There the men of each state participating in the plan, will find one block gaily decorated with the flags and insignia of their home states.

Governor Ginter has suggested the name of John C. Montgomery, former real estate broker of this city, and now a resident of New York, as chairman of the Colorado committee. Other members of the committee probably will be Henry L. Doherty, Frank W. Pruss, Frank Carstarphen and former Congressman Robert W. Bonyng.

SECURES MOTOR TRACINGS

CHICAGO, Nov. 26.—Letters intercepted by federal authorities led to the arrest today of Ira J. O'Malley, an automobile motor engineer, with offices in Chicago, on charges of having tried to obtain plans of the Liberty motor by bribing an employe of a Detroit automobile company.

According to federal officials, the postal authorities, warned by government agents in Detroit, intercepted letters addressed to the engineer, and found in them tracings of the Liberty motor. The letters, they declared, were written by a woman, who was employed in the drafting department of the motor company.

Federal officials said they did not believe that O'Malley was in any way connected with any government hostile to the United States, but that he obtained the drawings for his own use.

Local Produce Market

Cars of apples from the Hood River district arrived on the local market yesterday. Many varieties of fruits and vegetables as well as local citrus fruits were also received.

Luts will be scarce as well as expensive articles this year. There will be little, if any, foreign nuts received.
