

TO COVER PLANE PROPELLER BLADES

(Chicago Tribune) An aluminum plating for airplane propellers has been devised for the purpose of protecting the wood from the influence of the weather, which has been a serious problem heretofore. The plating is a thin leaf which is incorporated in the finish of the propellers.

and the idea was developed by the forest products and laboratory at Madison, Wisconsin, and placed in production by the war department. The process is practically 100 per cent effective in preventing absorption of water, particularly in the storage stage. A French authority states that 50 per cent of the French propellers produced are rejected by the pilots mainly because they are out of balance. This

CONSOLATION FOR WORN SHOES

(Ontario Post) Private Maynard, ruefully surveying his shoes—"I never wore a pair of shoes down so thin in civilian life." Private Jensen—"You should worry. You'll be on your feet again soon."

# Texas Eagle Now Drilling Among the Wonder Wells

## 10-WELLS-10

CONTRACTED FULLY FINANCED  
**\$15.00 Per Share NOW**

THESE ARE THE OFFICERS OF THE TEXAS EAGLE OIL COMPANY  
Frederick A. Cook, President, Arctic Explorer.  
Col. J. O. Williams, V. Pres.  
Hon. F. P. Sizer, Treasurer, Pres. Monett State Bank, Monett, Mo.  
W. E. Clark, Sec'y & Mgr. 1/4 century in oil business.  
Capitalization \$300,000.00  
Par Value, \$10.00.

Many are gambling, not investing—Consider Texas Eagle holdings.

WICHITA COUNTY—5 acres out of the Waggoner tract one-half mile from Burk-Waggoner well which sold recently to a New York syndicate for two million dollars also quarter mile from King Eight well and an offset to the Burkley Well, Block 72.  
50 acres 5 1/2 miles southeast of Burkburnett townsite. At the present time there are eight deep tests being made around this property, one of which is within 500 feet of our land. Shallow wells immediately surrounding this have proven the existence of five sands, some of which produce as high as 100 barrels per day. It is upon this property that the contract for drilling operations has already commenced. Very recent developments leads one to believe that this 50 acres alone is worth more than the amount for which we are capitalized.

CLAY COUNTY: Two blocks 40 acres each—one location near the central part and the other in the south central part of the county. Deep tests are being made very near to each of these blocks.

MONTAGUE COUNTY: 75 acres in the southwestern part, directly between two deep tests, one being two miles and the other being three miles distant from this holding.

WISE COUNTY: 150 acres in the southwestern part, this is two miles west of the cottondale well which is unfinished but now making oil.

PALO PINTO COUNTY: One-sixth of 50 acres in the central part of the county about 400 yards from the Johnson well.

HOOD COUNTY: 80 acres in the southeastern part near several deep tests—one being about one-half mile distant. The Benedict & Tree well, just over the line in Somerville County, is reported to have a fine showing of oil now.

EARTH COUNTY: 135 acres in the south central part or two and one half miles from Clarietta. This property lies between the Davis, The Laney, the Cottonwood and the Fouts well all of which are attracting the attention of the oil fraternity. Two or three of these wells have already blown gas and oil.

BROWN COUNTY: 50 acres in the southeastern part. The Magee well which is now producing about 15,000,000 feet of gas daily is just north of this eighty acres. The Ventura well, which has been mentioned frequently in the newspapers as having such a good showing, is east. Three quarters of a mile southwest work on a deep test well has already commenced. Drake in one of his State Bulletins traces a structure from the north heavy producing fields in a southerly direction to this property.

COMANCHE COUNTY: A valuable block two and one half southwest of Knowles-Duke pool. Some of these wells you no doubt remember, are producing 10,000 barrels each and this pool is perhaps the most spectacular of all the oil fields of Texas.

10 acres off the Bally survey in the Duke field. This land is surrounded by a large number of drilling wells and recent developments has made its worth several times more than it was when we acquired it. Contracts for drilling of Duke will begin this week.

EASTLAND COUNTY: We have a very valuable block in this county lying directly between the Duke-Knowles wells and the Hog-Creek well, about three quarters of a mile from one and practically the same distance from the other and surrounded close by such wells as the SINCLAIR, COSDEN, CARRUTH, MAGNOLIA, DAVIS and FOOTE.

EDWARDS COUNTY: We have 640 acres in this county. This section is part of a tract that was personally inspected by Dr. Cook and approved by him in a geological report. This tract is surrounded by holdings of the SUN OIL CO. and of COL GREEN the Capitalist of NEW YORK who has already started to drill and is sparing no expense to make thorough tests.

We have but a very small block to offer at \$15.00.

July 4 will be our closing date on Texas Eagle at this price

## BUY RIGHT NOW

During the past two weeks hundreds of people in all walks of life have invested in stock at \$15.00 per share. DURING the next few days this list of stockholders will be doubled or TREBLED.

The question that every stockholder wishes answered is, "What will my TEXAS EAGLE stock be worth?"

How much it may be worth in the FUTURE it is useless to ESTIMATE—the POSSIBILITIES are STAGGERING. But it is a simple matter to tell what it is worth RIGHT NOW—this very DAY.

For EVERY DOLLAR invested in TEXAS EAGLE there is MORE than a dollar's worth of ASSETS. TEXAS EAGLE has a large WORKING FUND in CASH which belongs to its stockholders. TEXAS EAGLE holdings could BE SOLD at ONCE for as much as its ENTIRE CAPITALIZATION. BECAUSE TEXAS EAGLE HAS BEEN HONESTLY ORGANIZED—WITHOUT WATERED STOCK—WITHOUT INFLATED VALUATIONS—WITHOUT RAKEOFFS TO ANYBODY—IT COULD QUIT RIGHT NOW AND PAY EVERY STOCKHOLDER A GOOD PROFIT ON HIS INVESTMENT.

If that is the case NOW, just try to IMAGINE the VALUE of TEXAS EAGLE stock six months from this time—after TEXAS EAGLE has fully completed some of the BIG DEALS which its ORGANIZATION is working out NOW.

AND DON'T FORGET that TEXAS EAGLE is now drilling TWO WELLS—in the WANDER POOL OF BURKBURNETT and RANGER and have 8 more contracted for.

You still have the chance to get TEXAS EAGLE stock at \$15.00 per share. When you subscribe for the largest amount your purse justifies, remember that for EVERY DOLLAR you send there is MORE THAN a DOLLAR'S worth of VALUE to BACK IT UP. The TIME GROWS SHORT. TODAY is a FAR BETTER DAY than TOMORROW.

# YOUR LAST CHANCE

## This Is the Last Day to Buy Home Oil Co. Stock at 20c Per Share

Midnight tonight the price advances 50%---to 30c per share. We predict Home Oil Stock will be in demand at \$2.00 per share inside of 60 days. Get in on the sure winner at the present ground floor price.

After Saturday midnight, June 21st, if we find it necessary to offer additional stock for sale, the price will be advanced to 30c, an increase of 50%. We are a home company in every respect, not in name only for we are incorporated under the laws of the state of Arizona, over 1000 Arizonians stockholders in the company. We are surrounded by the most famous

## PRODUCING WELLS

IN THE HISTORY of the OIL BUSINESS. WE ARE IN THE CENTER OF THE WONDERFUL DUKE-KNOWLES OIL POOL. The Duke-Knowles, Magnolia, Terrell, Peerless, Dixie, Gadsden Foote, Herrington, Phoenix, Gladstone and many others form a ring around Home Oil Co.'s DUKE-KNOWLES LEASE.

HOME OIL IS NOT A GAMBLE.

With ten acres in this marvelous field without one dry hole, certainly Home Oil offers a safe investment that will pay Tremendous Profits.

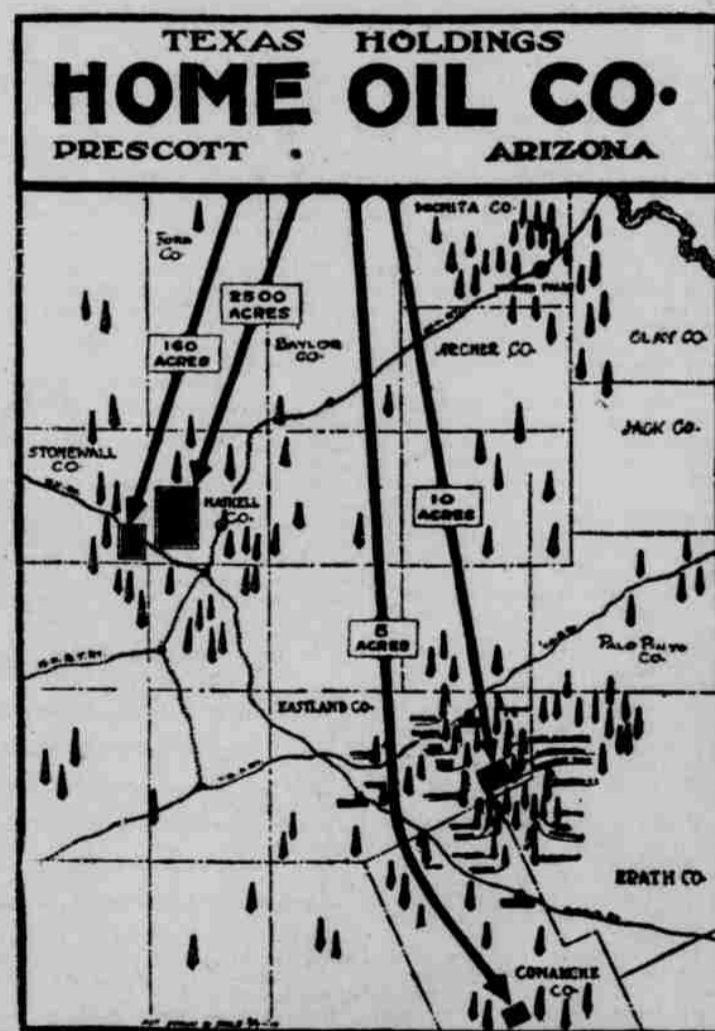

## We Are Going After the Oil With Two Drills

We expect to have word, before you read this ad, that our drill has started down on our big 2500 acres in Haskell Co. Our derrick is being rushed to completion on our Duke-Knowles pool lease and actual drilling will start soon as completed.

Remember, Home Oil has in Texas 2,675 ACRES in the greatest oil fields the world has ever known, and every acre is in line with greatest development with geological conditions the best. The largest and most successful oil companies and operators in mid-continent field are drilling twelve wells in Haskell Co.

Home Oil Co. has in their Duke-Knowles Pool Lease a SURE THING, that will create earning power to send Home Oil stock to many times its present value, and in our big 2,500 acres in Haskell Co., we have one of the best speculative opportunities ever offered to Arizona investors. Oil on this big tract of land (and we are going to get it) will make Home Oil Co. one of the biggest companies in mid-continent fields.
