

Your Opportunity Ends June 30th

To share with big men in a big company organized to do and now doing big things in the greatest of the proven oil fields

Invest in a company where your investment is properly safeguarded and where there are also the speculative profits in prospect

Our Woods No. 1 Ready to Spud In

Beginning this week our drill bit will be pounding its way toward the tremendous pool of oil beneath the Woods tract.

Located on the greatest structure ever discovered in the United States. Producing more oil per well than any pool in Texas.

On this anticline you will find such wells as the Norwood, the Connelle, the Roper, and the Perkins, with maximum production of from 4,000 to 14,000 barrels per day. Are you going to overlook this opportunity, or are you going to follow the lead of the wise men and lay the foundation now for future prosperity?

OFFICERS & TRUSTEES: J. J. Mundy, Pres.; W. S. Crombie, Vice-Pres.; Crawford Harvie, Treas.; J. W. Barker, Sec'y; Ed M. Whittaker, E. P. Lerner, all of El Paso; M. E. Cassidy, Bisbee, Ariz.; Jas. J. Flanagan, Bisbee, Ariz.; and Rex Ricos, Douglas, Ariz.

Three Wells to Be Drilling at Once

Arrangements also made to drill our Woods No. 2, on same survey. Equipment being assembled on the ground.

Machinery purchased this week for the drilling of a well on our Walker tract. This machinery is being rushed to the field with all possible dispatch.

All drilling operations in the field under the direct supervision and charge of J. C. Barkwell, formerly with the Phelps Dodge Corporation, and a deep well driller of many years experience.

We should have production within the next few weeks. But this does not mean that you will have that long in which to buy stock in this company at the present price and terms.

Shares, par value, \$1.00 each, minimum purchase 25 shares, cash to accompany all applications. Rights reserved to discontinue without notice the giving of free option certificate. Right also reserved to return any subscription.
