

TO DEFEY DEATH IN FEAT TODAY AT FAIR GROUNDS

"Daredevil" Campbell Will Leap From One Plane To Another—Program of Auto Races To Entertain Crowd

Defying death, flirting with the coroner, in the most sensational and daring of all aerial feats, "Daredevil" Campbell will leap from one flying airplane to another at an altitude of about 1,500 feet this afternoon at the state fair grounds as a part of the aero-auto race program presented by Barr's Flying Circus. And Campbell will make the change without the use of ropes or ladders, according to the positive announcement of Leo Kessler, business representative of the Flying Circus, who is arranging the big New Year's day program.

Campbell already has made one successful leap at an altitude of 1,400 feet at Venice, Calif. Photographs and newspaper clippings substantiate his claim. On his second attempt the upper ship came too close to him as he rode the top plane of the lower machine, striking him on the shoulder and driving the daring aerial acrobat through the plane, which was damaged by the collision. Today, according to his own announcement, he will either make the change or risk his life in the attempt.

Race Event is 50 Miles
The "Daredevil," during his performance this afternoon at the fair grounds, will not only leap from plane to plane, but will climb to all parts of the "ship," stand on the upper wing at the extreme tip, hang by one foot from the landing chassis, hang by one hand from a ring underneath the tip of the lower wing, stand upon his head on the radiator, crawl out upon the tail, and perform other feats that even the sagacious Orville Wright and Glenn Curtis declared were quite impossible only a few months ago.

The main automobile event will be over a course of 50 miles. Representative Kessler has lined up some speedy entries for this event, and it is predicted that a few new track records will be hung up at the fair grounds this afternoon, when the speed demons begin rounding the track. Cal Messner has entered his "Blue Bird" Hudson speedster, which he says is in the best possible condition. Jim Thorpe will pilot the car in the main event. Omer Toft, one of the fastest drivers in the country, will be behind the wheel of the Essex Special, which is said to be one of the fastest boats ever appearing in the southwest. Charles J. Goldtrap will drive his Dodge Special.

Auto and Plane to Race
Glen Thomas, driving a Mercer Special, will race one of the Barr airplanes for two miles. Howard Patterson will pilot the airplane. This will be one of the added feature attractions on the afternoon's big bill.
Arrangements have been completed to handle a capacity crowd at the fair grounds this afternoon and many ushers will be on hand to assist patrons in finding their seats in the big grandstand. All acts will be within plain view of the stands.

PLANETARY NEIGHBORS

The suggestion that elsewhere in the solar system there is to be found intelligence equal to that of man, or considerably further advanced, is an old, and far from being an impossible one. Mars and Venus are two planets on which might live creatures paralleling man.

At least since man has been here.

the earth has had no visitor nor has man gone voyaging into space. Now, however, we are beginning to look abroad; physicists assert that interplanetary travel is at least theoretically possible.

If, for instance, there are intelligent inhabitants on Mars, a globe judged to be much older than the earth, it follows that the Martian race is far older than humanity and should be more learned. What is only theory with us ought to be practicable to our neighbors on the red planet, granting their existence.

"Martians Land On Earth" is a newspaper head that some day may be flashed before us. What would follow? Would they come with death like the beings of Wells' imagination or would we increase our store of knowledge without being put to a fight against extermination?
However, this is certain: If we don't hear from the other planets, sooner or later they will hear from us.

It makes no difference what your wants may be you can have them supplied by using and reading The Republican Classified Pages.

HAYDEN I. O. O. F., AND O. E. S. NAME OFFICERS

HAYDEN, Dec. 30.—Winkelman lodge of the F. and A. M. No. 24, together with the Eastern Star chapter No. 19, held their annual installation of officers last Saturday and installed the members who will hold office for the year 1920. Following the installation the members and their friends enjoyed a banquet prepared for them in the annex to the hall. After doing full justice to the spread everyone adjourned to the lodge room, which had been prepared for dancing, there to spend the remainder of the evening. The Masons have elected the following men for their new officers: T. S. Richards, W. M.; G. M. Sabean, S. W.; Nels Johnson, J. W.; L. S. Griffin, treasurer; S. H. Sudder, secretary; L. S. Barker, S. D.; W. A. Turner, J. D.; R. F. Gould and R. MacMartin, stewards; W. T. MacDonald, chaplain; J. H. Kerr, marshal; P. L. Hutton, tyler. The Eastern Star will have for officers: Beulah Dodds, W. M.; H. S. Snyder, W. P.; Maggie Story, A. M.; Aurelia Laborious, secretary; Mary Richards, treasurer; Martha Morfoot, conductress; Luvena Hill, associate conductress; Minnie Grange, chaplain; Pauline Hutton, marshal; Jennie Griffin, organist; Myrtle Weaver, Adah; Ruby Masterson, Ruth; Isabelle Wright, Esther; Katie Weaver, Martha; Ella Carson, Electa; Sally M. Well, warden; Mr. Cowden, sentinel.

The members of lodge No. 24, F. and A. M., attended the evening services at the Presbyterian church, Sunday, the 28th. The brethren met at the lodge hall, donned their aprons and marched to the church in a body. The service was conducted by the Rev. James Slack, pastor of the church, and was most impressive. The theme of the sermon was Love, and it was very helpful to all who heard it. Special numbers were rendered by Mrs. Janney, Mrs. Mills, Mrs. Pruitt, and several others helping to make the service one to be remembered.

The dance given for the employees of the smelter at the Y. M. C. A., on Sunday evening, was well attended, the large gymnasium being taxed to hold the crowd. The gym was beautifully decorated with pines and flags, the orchestra being seated in a bower of pines and mistletoe. The crowd also did full justice to the efforts of the refreshment committee and voted this, the first dance of its kind, a great success.

A conference of the workers who will make the survey of this district in connection with the Interchurch World movement will be held January 8 by Mr. S. C. Hoover, who is in charge of the work of the state. The exact hour and place of meeting will be decided on during the next few days. Mr. E. E. Dagley has been appointed chairman

GREETINGS

We most sincerely wish every one in the Salt River Valley a VERY HAPPY, PROSPEROUS AND SUCCESSFUL NEW YEAR.

We thank our many friends for their patronage during the year past, and anticipate with pleasure future pleasant relations.

of the work in the southern part of the county. Chairmen of the sub-committees are being appointed and the work will be on in earnest soon after the first of the year.

Done Milne, daughter of Mr. and Mrs. D. R. Milne, underwent a successful operation at the Ray Con. hospital on December 27. She is reported as doing nicely.

A. Scharingson, grandson of Mrs. Everett, has returned from service in the navy. He is a radio electrician and has spent the past two and a half years on the Ajax with the Asiatic fleet. Thinking that he will like solid ground under his feet for a change he intends to stay here for a while. Mr. and Mrs. Sam Torbert were very agreeably surprised Christmas eve when their son Rex, who is in the Marines, walked into their home and an-

nounced that he would be with them for Christmas. He had just sent a letter saying that he could not be with them when he received word that furlough had been granted him, and he lost no time in getting home. He is now stationed in San Francisco.

J. H. McCord and "Rags" Gebhart returned from their vacations Sunday. They have been visiting with their many friends in Phoenix.

J. Reichenbach made his annual trip to Globe for the week end. His chums here are eagerly awaiting some news. Miss G. Phinney and Miss A. Candler of the teaching force here returned Sunday from a vacation spent in San Francisco, Calif.

Jack McQuiston, who is attending the university at Tucson, is home for a few days. M. P. Halladay of the Halladay Drug

company left for Gilbert. He has purchased 400 acres adjacent to Gilbert and will stay on his land, preparing it for cotton.

Mr. and Mrs. R. H. Mills have moved from Winkelman and will now have their home on Hillcrest, Hayden.

ing and will answer to a charge of bootlegging. The local lodge of the K. of P. held their annual roll call meeting on Monday and practically every member was present. Mrs. L. W. Wallace, principal of the San Simon school, is visiting her daughter, Mrs. Fred Hasue, for the holidays and will return to her duties on Friday.

Hello 'lil feller!

Resolved:

That during 1920 I will save money on my tires and Auto Supplies and get dependable goods by trading with "Western Auto".

SIGNED - Every Motorist.
