### Russian Account of Naval Engagement of June 23

#### THE ISSUE YET IN DOUBT

#### It Is Said To Be Admitted at St. Petersburg That Three Warships Were Lost—A Chinese Report That as Many Jap Vessels Were Damaged.

St. Petersburg, June 26.—Under date of June 26 Viceroy Alexieff telegraphed the emperor as follows: "Our Port Arthur squadron, commanded by Rear Admiral Wieschoff, consisting of six battleships, five cruisers and ten torpedo boats, put to sea at 8 o'clock on the morning of June 23.

"According to reports received from signal stations on Liao Tiesh Shan promontory, the ships went out without accident.

"When our vessels reached open water the enemy's fleet, consisting of nine large ships, of which three were battleships and twenty-two torpedo boats, was sighted on the horizon. Our squadron attacked the enemy.

"Up to present I have received no news of the result of the fighting.

#### HOW IT WAS DONE.

#### A Tokio Account of the Sinking of the Ships.

London, June 26.—Central News has received a dispatch from its Tokio correspondent, dated June 26, saying that a detailed account of the naval battle at Port Arthur has just been published there.

during the night, and lasting until dawn of Friday.

The Chirataka twice torpedoed a battleship of the Peresviet type and sank her. A battleship of the Sevastopol type, and a cruiser of the Diana type were disabled and towed away.

#### HEARD THE BATTLE.

#### The Big Guns Were Fired at Sea and Not at Port Arthur.

The Foo, June 26.—Steamers passing thirty miles to the westward of Liao Tiesh Shan last night did not hear any firing. This leads to the supposition that reports of the guns heard here were in a naval battle southeast of Port Arthur.

Chinese arriving here report that the Japanese army is within several miles of Kaiping and that the Russians have fallen back to Yamchiang just north of Kaiping, where the gunboats will not be so effective.

#### MYSTIFYING MOVEMENTS.

#### An Abandonment of the Japanese Junc-ture in Front of Kuropatkin.

St. Petersburg, June 26.—The general staff has received the following dispatch from Lieutenant General Sakhharoff dated June 25: "On the morning of June 25, the enemy's advance guard which was occupying the valley of the Kho river, ten miles southwest of Kai Chau, fell back six miles.

"On June 24, a Japanese detachment of two companies of infantry and two squadrons of cavalry approached the village of Siadian in the mountains seven miles from Kai Chau in a southerly direction. The patrols of the enemy also appeared at Khoualvan in a locality fifteen and a half miles east of Kai Chau, and four and a half miles northwest of Chapan Pass.

"The Japanese patrols are also posted between Kriadahon and Madiavassa on the road from Khanza to Slakhon Tanou. Paddizlatey and Panchanlon passes on the road from Siu Yen to Kai Chau continue to be occupied by the enemy.

New York, June 26.—The Knickerbocker Steamboat company, according to Attorney Alpheus S. Frank, has been guilty of such negligence in the protection of the General Slocum that it has made itself liable to suits that must inevitably drive it into bankruptcy.

Not the mere value of the Slocum's hull, but the extent of the owners' assets, says Mr. Frank, constitutes the limit of the company's liability.

On behalf of injured persons and relatives of victims of the disaster, he said, "we shall bring immediately in the state courts suits for damages. The suits will be brought by those concerned who aggregate more than \$6,000,000.
