

WASN'T ON THE MAP

The Coral Reef on Which the Charleston Was Broken.

MAJ. JOHN A. LOGAN KILLED

The Filipinos Finally Made a Desperate Stand at San Jacinto Where Seven Americans Fell.

Manila, Nov. 14.—Further details regarding the grounding of the United States cruiser Charleston show that she struck on an uncharted coral reef ten miles east of Kamaguin Island.

After the first efforts to right her the officers feared she might slide off because of the heavy sea and they abandoned the attempt to save her.

REFUSES TO MAKE A STAND. Washington, Nov. 14.—The following has been received at the war department from General Otis:

"Manila, Nov. 14. "Rain continues, typhoon prevailing; General Lawton has passed beyond telegraphic communication.

DEATH OF JOHN A. LOGAN. Washington, Nov. 14.—A cable dispatch received at the war department announces that Major John A. Logan of the Thirty-third volunteer infantry has been killed in a fight in Luzon.

General Otis cables: "Wheaton reports under date of November 12: There was an engagement near San Jacinto between the Thirty-third volunteers and 1,200 entrenched insurgents.

"Lawton reports from San Jose in the vicinity of San Nicholas, north of Tayuig: Wesells has captured thirteen carts with the insurgent war department records, a printing press complete of the insurgent newspaper, and a large quantity of rice.

VIA LONDON. London, Nov. 14.—Special dispatches from Manila say that seven Americans were killed and fifteen wounded in General Wheaton's daybreak attack this morning on the town of Salimo.

SUPERIOR TO THE MEGAPHONE. Washington, Nov. 14.—The war department has been informed of an interesting device invented by an Englishman and now being tested in the British coast forts which promises to

serve as a substitute in a limited measure for wireless telegraphy.

It is claimed to be superior to the megaphone now universally used on shipboard. It is a simple parabolic reflector with a flexible speaking tube pointed at the focus of the reflector.

The report does not say what extreme range has been attained, but indicates that the experiments have been quite satisfactory.

MEXICO OF TODAY.

Vice-President Marelal Tells Something of His Country.

New York, Nov. 14.—In a paper on the "Mexico of Today" which will appear in the forthcoming issue of the Independent, Vice President Marelal says: "For 300 years she has produced one-third of all the silver that was mined. The production at present is more than \$60,000,000.

The writer further says: "It will not do for Americans who do not understand the language or habits of the people to go to Mexico to live, unless they have some employment.

SUBJECT OF WATER

The Matter Extensively Discussed at Prisco Yesterday.

San Francisco, Nov. 14.—About 500 representative men from every section and most of the important public and quasi-public bodies in the state, assembled this morning in maple hall of the Palace hotel to organize a California state association for the storage of food waters.

First—To prevent annual losses from the overflowing of streams; second, to relieve agriculturists from the evil consequences of droughts.

DEPARTMENT MYSTIFIED

Unable to Explain Dispatch Hinting at Strange Diplomatic Doings.

Washington, Nov. 14.—Officials here are at a loss to know what was meant by the mysterious London dispatch relative to Anglo-American relations as to China, which was of such a startling character that it could not be published.

The government is not averse to having it known broadly that it has been steadily engaged in negotiations looking to the maintenance of whatever rights in the matter of trade that we now enjoy in Chinese ports.

Nothing has been heard from France on this subject as yet, though it is assumed that the returning ambassador, M. Cambon, will bear some instructions on that subject.

NEW MEXICAN DUEL

A Sudden and Deadly Hatred Between Two Men.

Gallup, N. M., Nov. 14.—A Mexican courier arriving this evening brought the news that L. E. Densmore and J. A. Maxwell, both prominent citizens of Gallup, have fought a duel at sundown this evening, one with a Winchester and the other with a six-shooter, about fifteen miles northwest of here on Little Water road, in which Maxwell was killed and Densmore mortally wounded.

Washington, Nov. 14.—The war department has been informed of an interesting device invented by an Englishman and now being tested in the British coast forts which promises to

PLEA OF DELAWARES

A Controversy Before Three Branches of Government.

The Descendants of the Lenni Lenapes Want Pay for the Land Which They Bought but Which They Were Deprived of.

COALS TO NEWCASTLE

Peru May Come to America to Secure a Display.

Buffalo, Nov. 14.—When one thinks of ancient Peru the bygone glories of the romantic country are immediately conjured up and the memory drifts back to the days of untold gold and glory before the Spaniards came and destroyed.

But knowledge puts a different phase upon it and the facts learned recently by Special South American Commissioner William Elroy Curtis when traveling through that country in the interests of the Pan-American exposition will no doubt prove astonishing to many.

Mr. Curtis, who landed in Peru some few weeks ago, went there in the hope of persuading the Peruvian government to make at the Pan-American exposition at Buffalo in 1901 a grand display of the antiquities of the country.

It is probable there never would have been any trouble as to these lands but for the discovery thereon of oil, gas, coal and other valuable minerals.

RELATIONS WITH SPAIN

Negotiations Proceeding for the New Treaty.

Washington, Nov. 14.—The Duke de Arcos, the Spanish minister, was among the callers at the state department today. It is understood that the negotiations for the new treaty of friendship, commerce and navigation have opened at Madrid, and while not directly participating, the authorities here are exchanging views on the various features of the treaty.

The Spanish minister has taken no official cognizance of the indignities of Cuba, but it is understood the minister's attention has been attracted to the frequency of these affairs and that he greatly deprecates them, although he does not doubt that the United States military authorities are doing everything possible to give adequate protection to Spanish citizens and their interests.

CENSUS TAKING IN CUBA

Lieut.-Col. Sanger to Make a Personal Inspection of the Work.

Washington, Nov. 14.—Lieutenant-Col. Joseph P. Sanger, inspector-general U. S. A., formerly brigadier-general, U. S. volunteers, will sail from New York for Havana on Saturday to make a personal inspection of the work of taking the census of Cuba, of which he is in charge.

Several reports have connected Major Rathbone's mission with the civil government of the island, and three leading Havana papers have endorsed him for that post.

NOISELESS CONFLICT

Nothing Heard Yesterday From the African War.

Cronje and Baden-Powell Find a New Cause for Quarrel Different Interpretations of the Geneva Convention.

LET UP ON KIMBERLEY

Hopetown, Nov. 14.—An undated dispatch received from Kimberley says the Boers ceased shelling on November seventh at about 1 p. m., having fired at intervals all day long some seventy shells, a majority of them falling in debris heaps and open spaces.

ARRIVAL OF TRANSPORTS

London, Nov. 14.—It is officially announced that the troopships Britannic, Lusmore Castle and Yorkshire arrived at the Cape safely. The admiral has chartered the White Star steamer Majestic.

That General White's relief is considered a matter of pressing importance is again evidenced by the satisfaction with which the officials heard of the arrival of the transport Armentian at Capetown yesterday.

The war office knows nothing about the dispatch from Capetown saying that Secretary Reitz of the Transvaal has demanded the release of Nathan Marks, a supposed spy, and threatened to shoot six British officers if Marks is executed.

AFFAIRS IN CUBA

They Are Prosperous, According to Director of Posts Rathbone.

Washington, Nov. 14.—E. G. Rathbone, director of posts for Cuba, is in the city. He came from New York last night, where he has been quite ill for nearly two weeks with acute gastritis.

"Affairs in Cuba are prosperous. The people are catching up in their business, slowly to be sure, but there is an air of contentment and a feeling of security among the people that has not been known before.

DROPPED THE RITUAL

Yale College Returns to Orthodox Methods.

New Haven, Conn., Nov. 14.—After a week's trial of ritualistic chapel services against which members of the college choir and undergraduates protested, the Yale faculty dropped the innovation today and went back to the plain orthodox psalm reading and hymn singing.

Prof. Perrin said tonight: "Aside from the general change in the chapel service, made necessary by the choice of a layman for president, there had been a general desire expressed by the co-operation that the chapel service be enriched. Last week, with that idea in mind I read the Ten Commandments with the choir chanting.

"I did not regard this as introducing a ritualistic feature to the service. The sole purpose was to enrich the

Imports Have Fallen Off 37-1-2 Percent While Exports Have Increased Twenty-five Percent.

INCREASE OF TRADE BALANCE

Imports Have Fallen Off 37-1-2 Percent While Exports Have Increased Twenty-five Percent. The United States Suffers Less Than Any Other Country from the Mikado's New Policy.

NUMBER OF DEATHS

Washington, Nov. 14.—The total number of deaths in our armies, including regulars and volunteers, from May 1, 1898 to June 30, 1899, were 6,619.

STAFF OF A HOSPITAL SHIP

London, Nov. 14.—Col. F. Hensman, late of the Second Life Guards, has been appointed chief medical officer in charge of the hospital ship Maine. Of his assistants one officer and four sergeants will be English, the rest Americans.

ASTOR'S SUBSCRIPTION

London, Nov. 14.—William Waldorf Astor has sent £1,000 to the mayor of Maidenhead on behalf of the local branch of the national fund.

FOR ARIZONIANS

Patents Granted to Phoenixians. Pensions and Civil Service.

Washington, Nov. 14.—(Special.)—A patent has been granted to Ewing M. Wickerham of Phoenix for fastening device for neckwear. A design has been granted Charles O. F. Youngstrom of Phoenix for casing for water heaters.

The United States civil service commission announces that a special examination will be held by its postoffice board of examiners in the city of Prescott, Ariz., on December 2, 1899, commencing at 9 a. m., for the positions of clerk and carrier in the postoffice in that city.

The examination will consist of spelling, arithmetic, letter writing, penmanship, copying from plain copy, geography of the United States, and reading addresses. The arithmetic will consist of tests in the fundamental principles, extending as far as common and decimal fractions and embracing problems.

The age limitations for this examination are as follows: Clerk, not less than 18 years; carrier, between 21 and 40.

Applicants for carrier must weigh at least 125 pounds, must be not less than 5 ft. 4 in. in height and must file with their applications a medical certificate on form 119, showing them to be not under the required weight and to possess the required physical qualifications.

No application will be accepted for this examination unless filed in complete form with the board at the postoffice in the city named above, before the hour of closing business on November 24, 1899.

MOLINEUX ON TRIAL

For the Death by Poisoning of Mrs. Adams.

New York, Nov. 14.—The case of the people vs Roland B. Molineux, charged with the murder of Mrs. Kate J. Adams on December 28, 1898, was called for trial today. Recorder Goff on the bench. According to the prosecution Molineux, who was a member of the Knickerbocker Athletic club, sent poison through the mails to Harry Cornish, the club's instructor in athletics, because of a grudge growing out of a contest over the control of certain matters in the organization.

This poison which was contained in a bottle, of what was supposed to be headache medicine, was taken by Mrs. Adams with fatal results. The day was occupied in the selection of a jury.

SCORPION TO LOOK ON

Washington, Nov. 14.—The Scorpion has sailed from Kingston for Cartagena, Colombia, to look after United States interests during the revolution in that country.

NUMBER OF DEATHS

Washington, Nov. 14.—The total number of deaths in our armies, including regulars and volunteers, from May 1, 1898 to June 30, 1899, were 6,619.

STAFF OF A HOSPITAL SHIP

London, Nov. 14.—Col. F. Hensman, late of the Second Life Guards, has been appointed chief medical officer in charge of the hospital ship Maine. Of his assistants one officer and four sergeants will be English, the rest Americans.

DUTCH CRUISER'S TRIP

London, Nov. 14.—A dispatch from the islands of Seychelles, in the Indian ocean, says the Dutch cruiser Friesland had arrived there on her way to Delagoa bay.

ASTOR'S SUBSCRIPTION

London, Nov. 14.—William Waldorf Astor has sent £1,000 to the mayor of Maidenhead on behalf of the local branch of the national fund.
