Did You Get That Hat?

There were hats of blue,
There were brown ones, too,
There were hats of every kind
and of every hue,
And the prize I drew,
Said eighteen due,
So I got an aeroplane and
away I flew.

Miss Iva Seyfer's millinery opening Monday, attracted a large crowd and the display of fashionable finery was simply dazzling. The styles this fall are still large enough to require several yards of material to reach around but this amount can be saved by wearing a hobble gown.

Since the day when the supply of bread stuffs was a most serious question, McCormick machines have remained continuously at the head of the procession in the harvesting machine world. Since the first world's fair, held in London in 1851, the McCormick has remained first in international leadership. McCormick machines are designed and constructed to harvest the grain and grass crops of the world. These machines have maintained their pre-eminence because they have been kept far in advance of ordinary machines. The durability of McCormick materials and workmanship has never been rivalled. These machines can be bought of The

MURPHY-NEWCOMB

HARDWARE COMPANY

who will be pleased to show you the superiority of McCormick construction, and give you any other information
