Union Officials Ride the Catfish Down the Ways

On Sunday, at twelve noon, amid the 4th Army-Navy "E" presentation ceremonies, November 19th, Bernard Ezhaya, B. A. of the SMEU (AFOFL), Mr. Buster Rice, B. A. of the Teamsters and Warehousemen, AFOFL, and President of the Conn. State Central Labor Union, Peter O'Malley, Asso. Ed. of the SUB and Chairman of the Executive Committee, SMEU (AFOFL), and Rowland Bishop, Col. Ed of the SUB and Acting Financial Secretary of the BOILERMAKERS, were guests of Mr. Andy Hilding, labor liason officer of the E. B. Personnel Dept. at the launching of the Submarine "CATFISH."

This was a great thrill for these boys, we can tell you. After the boat was towed to the "C" Wet Dock, Main Yard, Andy showed the boys over the SUB and the grand workmanship of our E. B. Mechanics.

Mr. Ezhaya is even more convinced now that the welders should receive PREMIUM rates for obstruction welding, and he is enthusiastically looking forward to his coming Washington trip for the welders of this yard.

Mr. Buster Rice feels that now the Sixth War Loan is on that the Central Labor Union should raise funds through their locals in the sale of War Bonds in order that the State A. F. of L. can buy a SUB for VICTORY at the E. B. More will be printed on this score in our next issue of the SUB, and just how far this idea has progressed and materialized.

Congratulations E. B. on your receipt of your fourth Army and Navy "E", and the launching of the 22nd SUB of this year!

FLASH!

The Management of the Electric Boat Company has promised the Union that during the week of Thanksgiving there will be no lay-off list. The Management has also stated that the same ruling will hold for Christmas week.

Mr. Peter O'Malley who has had the job of Liason Officer between the Union and the Management will take Thanksgiving day off and visit his hometown, Clinton, Mass.

Boilermakers to Vote for Officers

On Friday, December 8, the Boilermakers are planning to cast their ballots for president, vice president, financial-secretary, corresponding - recording secretary, trustees, inside guards and inspectors. This story and the nominees are on page 12.

Metal Trades Council Congratulates Com Eagan

Former State Secretary of the American Federation of Labor Eagan has been appointed by our progressive Republican Governor Baldwin to the time honored post of Conn. State Commissioner of Labor. The Metal Trades Council of the Electric Boat Company, with its subsidiary Unions wish to take this opportunity of congratulating Commissioner Eagan and also Gov. Baldwin for his forthright step in this recognition of 90% of the voters of this state.

Walter Harvey Named Installation Supt.

Mr. Walter Harvey, who was formerly in charge of the test crew and assistant to Mr. Carl Franzen, has been named Installation Superintendent, it was announced by the Management of the Electric Boat Company last Wednesday.

This job was held by Mr. Franzen who is now the Shipbuilding Supervisor of the E. B. Co.
