Foster caught two fine salmon at Toddy pond, eight miles from Castine, and at Alamoosick lake Mr. Foster caught nineteen pounds of pickerel, the largest weighing three pounds and the smallest one pound. He also caught two fine black bass. This is a sample of the piscatorial luck enjoyed by the fishermen. At Craig pond the party enjoyed seeing splendid trout in the deep water. THE DOG AND THE TRAIN.

Thrown Into the Manhan, the Former Swam Ashore and Went On.

Just as the train came down from Winsted at 5:30 Sunday afternoon, August 15, a big black dog that had been running about for his master, who had been driven away by the sudden shower, took a notion to do his running on the railroad track. He bounded onto the track perhaps 300 yards from the train and directly in its path. He seemed utterly bewildered and did the very last thing in the world that he should have done, rushing up the track before the rails to meet the locomotive. Spectators had not long to wait to see what would happen, but the result was a surprise, although perhaps the dog was as much surprised as any of them. There was a yelp of pain, a brief glimpse of the dog going toward the Klondike region and a splash in the waters of the Manhan canal and the train sped by. That was the surprise for the dog. Then came the surprise for the spectators, for that dog, that should have been a mangled corpse with not a whole bone in it, did not do a thing but clamber back upon the track and resume his wild run toward Winsted, just as though that was his usual way of meeting an emergency when an express train disputed his right to the road.

He was perhaps a little more bewildered than he was previous to the collision, but he ran on four feet as never dog ran before, and made no remarks about his impressions of the incident, if he had any.—Waterbury American.

THIRD RAIL VICTIM.

Man Probably Fatally Injured in Hartford—Struck by an Electric Car.

Hartford, Aug. 15.—William Gorman, fifty years old, was struck by a third rail electric car this morning near the Parkville crossing.

Gorman was on the track of the Consolidated road when he saw a train approaching. To avoid this train he stepped on the third rail track in front of a car, which struck him, the locomotive being unable to stop the car in time to prevent the accident.

Gorman's right leg was crushed from the knee downwards and, if he lives, it will be amputated.

He had an ugly flesh wound in the left and his skull is injured. He is not expected to live.

In Gorman's pocket was found a pledge card, showing that he took the pledge some time ago from a Catholic priest in Lawrence, Mass.

MAY ACCEPT THE CALL.

The Rev. Mr. Kimber Has Been Called to Oxford.

Seymour, Aug. 16.—The Rev. Robert B. Kimber, rector of Trinity church, has been tendered an offer by the vestry of St. Peter's church, Oxford, to accept the rectorship of that parish, which was made vacant by the resignation of the Rev. L. F. Morris June 1, after having served that parish faithfully for about ten years. The salary offered to the Rev. Mr. Kimber is \$150, but it is understood that the diocesan missions double this amount. The archdeaconry of New Haven is reported to favor the Rev. Mr. Kimber accepting the office, as it would probably be the wisest thing the Oxford parish could do.

It is not known yet what answer he has made to the proposal. He will probably accept the Oxford parish without interfering with his work in his own parish.

WON BY GLENCAIRN II.

Second Race for the Seawanhaka Corinthian Cup.

Pointe Claire, Que., Aug. 15.—10:15 a. m. To-day's race for the Seawanhaka Corinthian challenge cup for one-raters was over the triangular course. Saturday's race, notwithstanding the accident to Glencairn II, was pretty generally accepted by the Canadian yachtsmen as showing that Momo, in a moderate breeze is the better boat. Consequently, the hopes of Mr. Dugan and the crew of the Canadian defender fell with the wind this morning. About 7:30 o'clock the weather had become very muggy and the wind had fallen to less than three miles an hour. At 10 o'clock more favorable conditions began to prevail. The wind had freshened somewhat and was blowing from the south at a rate of a trifle over four miles. Then weather began to clear and the prospects of a good race began to look brighter.

SEWER GIVES UP MAIL.

Authorities Think It May Have Been Stolen at the Depot.

Officer Cooney of the Howard avenue precinct yesterday morning found a filled United States mail pouch, which may serve as a clue to a recent robbery. He noticed the article protruding from the mud where some city workmen were cleaning out a sewer at the corner of Salem street and Columbus avenue. John Flury, who had dug it out, said it looked like an old sack, but the officer saw a lock on it, and upon further investigation found it to be a United States mail pouch, with a slit in one side about a foot long. He sent it to the Howard avenue station, and yesterday afternoon it was turned over to the postoffice authorities. They unlocked it but could find nothing to show where it came from. They have not lost any pouches of late, and they are not aware that any have been lost in this part of the country. The postoffice inspectors, however, will investigate the matter. It may have been stolen from the local depot on a delayed mail.

DEATH OF A NOTED ACTOR.

London, Aug. 15.—Charles Compton, the actor, is dead. Charles Compton was the son of a famous old English comedian, Henry Compton, who for so many years played leading parts in comedy at the old Haymarket theater in London. The younger man inherited some measure of his father's ability, and, having a pleasing voice, manner and presence, he soon came to be in demand as a leading man. In that capacity he visited the United States in the support of Adelaide Neilson and other actresses, being received with much favor. On his return to England and his marriage, he organized a company of his own, and during the last few years he had won considerable reputation in all the largest cities of England and Scotland by his productions of plays of good quality, both ancient and modern. Some of his Shakespearean revivals have been commended especially for the earnestness and general intelligence displayed in them. He also achieved distinction as an actor in high comedy.

YACHT RACING AT PORTSMOUTH.

Bona Winner on Time Allowance Over Meteor and Aurora.

Portsmouth, Aug. 16.—At the regatta to-day of the Royal Albert Yacht club the Duke of Abruzzi's Bona, in a splendid breeze, obtained the weather berth and led to the Nab, where Emperor William's Meteor overhauled her. At Stoke's bay the Meteor was first and the Aurora, the property of Charles Day Rose, was second, being two lengths ahead of Bona, then third in the race. At the end of the first round the Meteor was seven minutes ahead of Aurora, and the latter was one minute ahead of the Bona. The Bona won on time allowance and the Aurora was disqualified for fouling the Bona at the start. The following were the times of the yachts at the finish: Meteor 3:08:21, Aurora 3:22:21, Bona 3:25:54.

HYPNOTIC SLEEPER AWAKES.

He is a hypnotic subject and once traveled with Professor Mar of Canada. He remembers nothing of what occurred during his sleep, although he was subjected to burning and other severe ordeals to awaken him. Physicians consider it a remarkable case.

GOLD IN CHIHUAHUA.

New Placer Mines of Great Richness Said to Have Been Found There. El Paso, Tex., Aug. 16.—Placer gold mines are reported to have been found in Chihuahua, not far from here. Dirt has been found that pans out \$1.65 to three pans. Discoverers are getting ready to secure their claims and perfect their titles under the mining code of Mexico. One man was hunting for a person who would lend him \$25 so that he could secure his claim. He was willing to give the lender a half interest in the property if he would invest that much in the claim. Gold opportunities are cheaper in the southwest and in northwestern Mexico than in Alaska. Persons in search of gold can do better on a small amount of capital anywhere in Arizona, Sonora, Sinaloa or Chihuahua than in the Klondike.

WON BY GLENCAIRN II.

Second Race for the Seawanhaka Corinthian Cup. Pointe Claire, Que., Aug. 15.—10:15 a. m. To-day's race for the Seawanhaka Corinthian challenge cup for one-raters was over the triangular course. Saturday's race, notwithstanding the accident to Glencairn II, was pretty generally accepted by the Canadian yachtsmen as showing that Momo, in a moderate breeze is the better boat. Consequently, the hopes of Mr. Dugan and the crew of the Canadian defender fell with the wind this morning. About 7:30 o'clock the weather had become very muggy and the wind had fallen to less than three miles an hour. At 10 o'clock more favorable conditions began to prevail. The wind had freshened somewhat and was blowing from the south at a rate of a trifle over four miles. Then weather began to clear and the prospects of a good race began to look brighter.

Glencairn II is none the worse for her accident. A strip of new plank about three feet long has replaced the hole in her side. At 10:30 o'clock, about half an hour before the start, the wind was stiffening considerably, and was blowing about seven miles an hour, with the prospects of growing stronger. This, it was thought, would favor the Canadian boat. Momo and Glencairn had previously arrived at Dorval in tow, and Momo bolstered her mainsail and proceeded under canvas to the starting point.

The yachts started at 11:30 a. m. The course is one and one-third miles on each leg. The first leg is to windward. Glencairn crossed the line first. Glencairn passed the 1-1/3 mile mark at 11:33, with the Momo 250 yards behind and to windward. The wind was increasing. Glencairn passed the first buoy one and one-half minutes ahead of the Momo.

The Glencairn turned the four-mile buoy at 12:11 p. m., followed two minutes later by the Momo. The wind continued to freshen, and at 12:14 both boats were compelled to reef sails.

The Glencairn rounded the first buoy on the second round at 12:34, three minutes 45 seconds ahead of the Momo. The Glencairn passed the 2-1/2 mile buoy at 12:50, a good half mile ahead of the Momo.

At the nine mile mark the Glencairn was three-quarters of a mile ahead of the Momo. The wind was then blowing at the rate of twenty miles an hour. The Glencairn crossed the finish line at 1:36, winner of the second race.

THE WHEAT MARKET.

Cuthbert & Co. say: Wheat was strong and excited yesterday with very active trading and sensational fluctuations, prices advancing 3 to 4 cents here, and 2 to 2 1/2 at Chicago from Saturday's closing. September here opened up 2 cents at 91 1/2 and later sold at 92 1/2, while December opened 89 1/2, or 3 cents higher, and sold up another cent, to 90 1/2. At Chicago, prices opened 1 1/2 cents higher, at 85 1/2 for September and 84 for December. From these quotations there was a sharp reaction immediately on realizing. This was followed later by general buying, and the high prices were made before the end of the first hour, September in Chicago sold at 89 1/2 and December 84 1/2. All the news was bullish.

Liverpool closed 1 1/2 higher, for futures and 1d for spots, and Paris wheat and flour 15 to 45 centimes higher. The visible supply in this country showed a decrease of 424,000 bushels. Exporters took 25 to 30 loads here and at the ports, and the total clearances for the day were 687,400 bushels wheat and 787,305 corn.

In the last hour realizing sales, and some re-selling for foreign account caused an easing from the top of 3/4 to 1 1/4 cents. The close, however, was firm, with the sentiment still bullish on the foreign demand and supply situation. Corn was stronger and higher, and was active, with good buying by commission houses. Prices advanced 1 1/2 for September and 1/2 cent for December, but later receded on selling by scalpers on predictions of warmer and more favorable weather, finally closing 1/2 higher for September and 1/4 to 1/2 for December. In Europe prices closed 3/8 higher.
