CONTROLLER MAY BORROW

SO AUTHORIZED BY THE BOARD OF FINANCE.

In Accordance With the Resolution Which Passed Common Council and Signed by the Mayor—City's Balance in the Bank Will be Used at Present—Small Sums to be Borrowed Later as Needed.

The resolution passed by both branches of the court of common council and signed by the mayor, authorizing the board of finance to borrow, "to the best advantage for the city of New Haven, the sum of \$20,000," was brought before the board of finance at its meeting last evening.

After the resolution authorizing the borrowing had been read by City Clerk Lyon, Mayor Farnsworth said that the common council had acted on his suggestion and the question before the board was as to where the money should be borrowed.

Controller Brown announced that he had received an offer from the Yale National bank to loan any amount up to \$35,000 at 4 per cent, payable on demand.

Commissioner Forsyth asked if there was not some source from which money could be borrowed without paying any interest.

Mayor Farnsworth said that he knew of no such fund. He said that he could see no objection, however, to paying bills from the money on hand, without borrowing just now, and that "as long as we have money in the bank I don't see why we should borrow until we run ashore."

Commissioner Forsyth said: "Mr. Mayor, hasn't the city now some money that we can use for purposes named in this resolution without paying interest?"

The motion of Commissioner Mansfield, mentioned above, was then put and carried.

The request from the lamp department for permission to transfer \$100 from the gas account to the sundry account in that department, to pay expenses of the street lighting convention in Columbus, as the lamp committee may direct, was next brought up.

The mayor called attention to section III of the city charter, which reads as follows: "The treasurer of the city shall receive the amount of school money to which the district is entitled from the school moneys of the state, from the town of New Haven, from state appropriations for school purposes, from gifts and from the tax laid within the district for school purposes, which moneys shall be subject to the order of the board of education under such rules and regulations as the board of finance may from time to time establish."

There was not a dissenting voice among the 191 committee-men present when the resolutions, which stated that it is "the duty of the convention to nominate a ticket of its own selection representative of the sentiment and purpose of the republican party," were offered by General Collins. They were declared carried.
