OXFORD AND CAMBRIDGE'S CHAL-LENGES TO YALE AND HARVARD.

fext of the Oxford-Cambridge Letter-Suggestions Concerning the Events-Vale Crew to Prepare to Meet Oxford, London, June 17 .- Following are the hallenges sent by the Oxford and Camoridge university athletic clubs to the Yale and Harvard clubs, which are on the way to America by mail and should reach New York by the steamer Ger-manic on June 20. An identical chalenge was sent to each of the American iniversities:

"Hertford College, Oxford, June 10, 1895 To the captain of the Yale (Harvard) Athletic Association:

Dear Sir: A joint committee of th Oxford University Athletic club and the Cambridge University Athletic club at a conference held at Oxford resolved to send a challenge to the universities of Yale and Harvard, inviting them to partake in an athletic competition to take place in America at some date in the autumn as may mutually be agreed upon. The committee considered the possibility of sending a joint team in the middle of July, but on going into the question, found it would not be practicable because some of the best thletes would be unable to feave England at that time, being detained by the public examinations, while others who had already engaged themselves to take part in the forthcoming competition of the London Athletic club versus the New York Athletic club were not prepared to go to America in July and also in September. You will see therefore, that our only course was to suggest to you an autumn meeting which may come before or come after the fixture already agreed upon between the London Athletic club and the New York Athletic club, as may hereafter deemed best, and we send a challenge ubject to all the preliminaries being satisfactorily arranged.

We would suggest that the program entain the following events: "Flat races-110 yards dash, ¼ mile run, ¼ mile run, mile run and three

"Hurdle races-120 yards, one according to English rules and one according American rules.

"High jump, long jump, hammer throwing and weight putting. "We shall be glad to be favored with your reply at your earliest convenience as all arrangements have to be concluded before the end of this term.

Yours very truly, W. J. Oakley, President of the Oxford University Athletic Club. S. Horan, President of the Cam bridge University Athletic Club."

WHAT MR. SHERRILL SAYS. New York, June 17 .- Charles C. Sherill, jr., a member of the Yale Graduate Advisory committee, when shown the text of the Oxford-Cambridge challenge to Yale and Harvard, cabled to this country by the Associated Press, ex-pressed the belief that the American universities would win if the challenge were accepted. He pointed out that this year Yale had Richards in the 100 yards and quarter mile events, whom they did not have last year, and Har-vard could be depended upon to win the high jump with Paine. While Mr. Sherrill would have preferred that this international inter-collegiate contest had been fixed for July instead of the fall, he would be glad, personally, if the contest did take place and he favored the challenge being accepted. WHAT MR. DAY SAYS.

A copy of the challenge was delivered to Sherman Day, the newly elected president of the Yale Athletic associaion, this afternoon by a representative of the Associated Press. President Day received it with evident pleasure and said: "While it is impossible for me to state definitely at this time what will be done, I can see no reason why it should not be accepted. But understand, I cannot speak authoritatively When the challenge has arrived the matter will then come up before our asociation for official consideration. We shall then inform our alumni and will be largely governed by their advice. presume that our association will advise with the Harvard Athletic associa-tion, but all this depends on circumtances. It is likely that the whole mat ter of dealing with the challenge will also be referred to the U. T. C. A. In that case it will be taken out of the hands of the undergraduates. I do not wish to say anything at this time that will prejudice Yale's position in the future, but I can say this much, that Yale is perfectly willing to take part in the proposed games."

FROM OTHER SOURCES.

Captain Sheldon of the Yale Athletic eam, when interviewed last evening n regard to the reported receipt of the challenge from Oxford and Cambridge said that he had received no official information on the subject. He refused to say anything further concerning the proposed contests with the English uni-

CHARTER OAK PARK KILLED. Meeting to be Held to Consider the Ques-

tion to Close, Hartford, June 17.—The failure of the last week has practically ended the exstence of the Charter Oak Park ass clation. On Saturday evening the directors of the association held a meet-ing and decided to declare off the races announced for this year. They also decided to issue a call for a meeting of the stockholders of the association to determine whether or not the affairs of the association shall be wound up.

Prominent Man Killed. New Orleans, June 17 .- An explosion courred at the Union cotton press works at 10 o'clock this morning. Penrose, one of the best known men in the city and part owner of the Union Cotton Press, was instantly killed by the explosion. It is reported that a number of others were badly hurt.

MEDICINE IN BREAD.

The acids most generally employed in baking powders for the purpose of libe rating the gas are the sulphuric (alum) nd tartaric (cream tartar) which are objectionable for the reason that their salts possess medicinal properties and produce upon the human system effects which may not be needed at the time or at least as often as food is taken; for to one would like to take a dose of medleine every time he eats bread. a happy thought of Prof. Horsford that suggested the employment of an acid, (phosphoric) which, while it sets free the carbonic gas, also restores to the flour much of its nutrient ingredients which were lost in its manufacture This, together with the fact that it communicates no unpleasant taste, and at the same time effectually secures the purpose of all baking powders, should nmend his preparation to all desiring palatable and wholesome bread.
