WESTERLY NEEDS AMBULANCE

Would Prove Life-Saver in Many Accidents—Walter Keegan, 7, Struck by Automobile, Seriously Injured—Block of Westerly Granite Attracts Attention in Elm City—Jury Fails to Agree in Ellis Case—Collings-Purtill Marriage.

A group of Westerly men were talking Tuesday of getting subscriptions for the purchase of a motor ambulance, not for the soldiers at home or abroad, but for the benefit of emergency cases in Westerly. That there is real need of an ambulance has been demonstrated almost every time there is an accident that requires hospital treatment. There is no public hospital in Westerly, although Mrs. William Hoxsey furnishes a nucleus of \$10,000 that will be available when the fund reaches \$100,000. Still there is actual need for the ambulance service as a real life-saver. Accidents have happened here, and the injured have died due to delay in reaching hospitals at New London, Providence or Norwich.

Most of these cases are sent to New London and Providence, all depending on the availability of train service. There have been times when persons seriously injured have been at the station waiting an hour and even longer for an east or westbound train to be taken to a hospital, and due to delay have died while on the way.

With a modern motor-driven ambulance the service would be greatly improved, as the injured could be delivered at a hospital in New London in less than an hour and in Providence sooner than by train, under the present circumstances. The committee suggested that twenty cents representing every resident of the town of Westerly would be ample for the purchase of a high grade reliable ambulance, and include maintenance for the first year. This could be readily raised by a general subscription, as one of the men who talked on the subject said: "I don't believe there's a person in the town that has an income of a dollar, and I don't believe there are people in town who would not gladly give ten times that amount for such a purpose, and it is worthy success. All that is needed is for some of the people to influence in the town to make a move. Perhaps those prominent in other worthy collections taken in the town, would be the proper persons to make the move in this purely local proposition."

Walter Keegan, age seven, son of Mr. and Mrs. Denis Keegan, resident of Solomonsville, in the Westerly section of the town, was struck by an automobile in front of his home on Tuesday morning. The car was stopped as quickly as possible and the accident was reported to the police. The boy was severely injured, and besides many cuts and bruises, the left hand and the left arm were dislocated. The fracture was reduced and the ankle replaced later in the day.

Mrs. Devos, owner of the automobile that caused the injuries, and bearing Massachusetts registry plate No. 110,809, warned the physician a loud tone not to divulge her name to the reporter, and further announced that she would give no information of the accident for publication, as it was purely a matter that concerned herself and the parents of the injured boy. The automobile physician came from New York, but bears Massachusetts registry as the party was in that state long enough to require registration there.

John Pollock, while at play during recess at the West Broad street school, was struck by a freight car, which rendered him unconscious. He was taken into the schoolhouse and Dr. John L. May was summoned. The boy sustained a severe cut over the right eye that opened the flesh to the skull, and five stitches were required to close the wound.

A huge block of granite drawn by a motor tractor attracted much attention in New Haven, Monday, as it was moved through the center of the city. The block on the tractor was pictured in a New Haven newspaper and described as follows: "The large boulder weighing over thirty tons, is of red granite from a quarry in Westerly, R. I. Great difficulty was experienced in moving this mass of granite, and it required seven months' time to split and remove it from the quarry. The unloading of the great block from the freight car proved a gigantic task, as neither of the crane derricks at the freight yards could lift it, the job was finally accomplished by jacks and rollers, and it was placed on a specially reinforced truck. "Permission had to be obtained from the city engineers to haul the stone over the city pavements and certain streets were specified on which the pavements were hard enough to stand the enormous weight. The stone was delivered to a local manufacturer of monuments, and after it has been shaped and carved will be placed in Evergreen cemetery."

Work has been commenced on a beautiful summer residence, on Ocean View Highway, Watch Hill, for Geo. Hewitt Meyers, of New York. The residence will be of stone and wood, two and one-half stories, 125x50, and there will be a two-story garage 22x40, and servants' building, two and one-half stories, 22x36. The cost will be \$350,000 and will give some idea of the grandeur of the place. It is noticeable that nearly all the summer residences at Watch Hill, built during the past few years, have increased in size and attractiveness, and that there is a tendency to build in the direction of the magnificent Golf course, and at a distance from the colony wherein the hotels are located.

At the superior court in Kingston, Tuesday, the jury could not agree in the case against Isaac Ellis, of Westerly, found guilty of violating the traffic law by driving an automobile past a trolley car while discharging passengers. It was an appeal from the judgment of the Third District court. Next week the court will hear other cases and will probably come in at Westerly, October 8th, the assignment being as follows:

Local Lacerations.
Frank Mallon died Tuesday in Buffalo, N. Y. He was a former resident of Pawcatuck.
"Matches are scarcer than papers and tobacco at Camp Devens," writes a soldier from Westerly.
Luther A. Tarbel, a former athletic instructor in the Westerly High School has been promoted to be a corporal in Battery A, at Boston.
Rev. John G. Dutton, minister of the Broad Street Christian church, is attending the annual convention of the Christian churches, being held in Fall River.
John Pinder, an employe of the Bradford Dyeing association, will leave today for Boston to enlist with the Canadian troops for service abroad.
Official orders have been received directing the third increment of 40 per cent of Rhode Island's quota, 384 men, be sent to the federal cantonment at Ayer, October 3rd.
Lawrence Clark, the boy whose skull was fractured while at work in the Lorraine Mill and taken to Lawrence hospital, New London, was reported to be in a critical condition, Tuesday afternoon.

At the nuptial mass in St. Michael's church, Rev. John J. Fitzgerald, celebrant, Miss Mary Purtil and Ernest Collings were married. They were attended by Miss Kathleen Mackay and Harry Clancy.
The Second District board has given an individual discharge from military service to Calvert E. Cottrell, 3rd, of Westerly, a student at the University of printing presses and 400-horse-power gasoline marine motors.
That there is no favoritism at Camp Devens is shown in the fact that a professor who speaks six languages and has lived in eight foreign countries, is required to peel potatoes when not engaged in actual military duty.
Eight soldiers from Rhode Island have been found to be disqualified physically and sent home from Camp Devens. Those from Westerly are Earl S. Palmer and Palmer E. Smith, Jr., of East Greenwich.

Sixteen Rhode Island young men have been indicted by the grand jury in the United States District court at Providence, as alleged draft act violators, by failing to register as required by law. In the number is Clyde Franklin Champlin, of Westerly.

STONINGTON
Announcement at Town Meeting That Registration of New Town Hall and Site Was to Be Deferred—Identity of Donor Guessed.

At a special town meeting held several months ago the matter of the purchase of a site and the erection of a town hall came up, action was deferred when announcement was made against a tree with a prominent name would be announced at the annual town meeting, contemplated presenting a town hall to the town. Presenting a tree with a prominent name would be announced at the annual town meeting, contemplated presenting a town hall to the town. Presenting a tree with a prominent name would be announced at the annual town meeting, contemplated presenting a town hall to the town.

Stonington Pointers.
The board of registration has made 73 new voters divided in voting districts as follows: Borough 18; Pawcatuck 33; Road 0; Mystic 21; Old Mystic 1.
The engagement is announced of Miss Mabel Walton James of Pawcatuck to Edgar Lawrence Cook, of Stonington. Mr. Cook is member of B Company, 101st Engineers, and is stationed at the Wentworth Institute, Boston. He is son of Mrs. Isaac F. Gavitt.

Mystic
Sons of Veterans Hold Campfire, Entertaining Numerous Guests—Death of Mrs. Earl Nason—New Organ for Methodist Prayer Meeting Room.
The campfire held in G. A. R. hall Tuesday evening, under the auspices of A. C. Latham Camp, Sons of Veterans, was largely attended by members of Williams Post, G. A. R., Williams Woman's Relief Corps and Phebe Parker Rathbun tent, Daughters of Veterans.
Mrs. H. W. Withee gave a very interesting address and Willard W. Keigwin sang several religious songs. After the program all went to the banquet room where a clam chowder was served.
New Organ Secured.
A new organ has been placed in the prayer meeting room of the Methodist church. Through the efforts of Mrs. John Hirst the money has been raised.

OBITUARY.
Mrs. Earl Nason, who has been ill for a long time, died at the home of her brother, Daniel N. Park, at Mason's Island. She was the widow of Earl Nason, who was her only surviving relative. She was born in Mystic March 5, 1841, the daughter of James S. and Sarah M. Clark Park. The funeral was held Tuesday afternoon at 2 o'clock. Rev. Wel-

Physicians Recommend Castoria
YOU know the real human doctors right around in your neighborhood: the doctors made of flesh and blood just like you: the doctors with souls and hearts: those men who are responding to your call in the dead of night as readily as in the broad daylight; they are ready to tell you the good that Fletcher's Castoria has done, is doing and will do, from their experience and their love for children.
Fletcher's Castoria is nothing new. We are not asking you to try an experiment. We just want to impress upon you the importance of buying Fletcher's.
Your physician will tell you this, as he knows there are a number of imitations on the market, and he is particularly interested in the welfare of your baby.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.
Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."
Dr. William Belmont, of Cleveland, Ohio, says: "Four Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."
Dr. J. H. Tatt, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."
Dr. H. J. Haskins, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. From a case that there are imitations in the field, but I always see that my patients get Fletcher's."
Dr. Wm. J. McCann, of Omaha, Neb., says: "As the father of thirteen children I naturally know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."
Dr. J. E. Clason, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."
Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

You Can Tell The People Who Have Iron in Their Blood - Strong, Healthy, Vigorous Folks

Doctor Says Ordinary Nuxated Iron Will Make Nervous Run-down People 100 Per Cent Stronger in Two Weeks' Time in Many Cases.

NEW YORK, N. Y.—"One glance is enough to tell which people have iron in their blood," said Dr. E. Sauer, a Boston physician who has studied widely both in this country and in Great European medical institutions. In a recent discourse, they are the ones that do and dare. The others are in the weakling class. Sleepless nights spent worrying over supposed ailments, constant dosing with habit forming drugs and narcotics for nervous weakness, stomach, liver or kidney disease and useless attempts to brace up with strong coffee or other stimulants are what keep them suffering and vainly longing to be strong. Their real trouble is lack of iron in the blood. Without iron the blood has no power to charge food into living tissue and therefore, nothing you eat does you any good; you don't get the strength out of it. The moment iron is supplied the multitude of dangerous symptoms disappear. I have seen dozens of nervous run-down people who were ailing all the time, double and even triple strength and endurance and entirely get rid of every sign of dyspepsia, liver and other trouble in from ten to fourteen days time simply by taking iron in the proper form. And this, after they had in some cases been doctoring for months without any benefit. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day for two weeks. Then test your strength again and see for yourself how much you have gained. There is nothing like good old iron to put color in your cheeks and give you a sound healthy flesh on your bones. But you must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless.

NOTE—Nuxated Iron recommended above by Dr. E. Sauer, is one of the newer organic iron products. It is mostly assimilated, does not irritate the teeth, make them black, nor upset the stomach. Unlike the older inorganic iron products, in nearly all forms of indigestion, as well as for nervous run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 on any chest-plate institution if they cannot take any man or woman under 60 who lacks iron and increase their strength 100 per cent. or over in four weeks' time provided they have a serious organic trouble. They return your money if you do not get at least double your strength and endurance in ten days' time. It is dispensed in this city by Star, Osmond Co., Lee & Osmond, and all other druggists.
