BUILDING ACTIVITY IN EASTERN CONNECTICUT

Contractors Pushing Along Work

Progress Shown on Dwellings and Factory Buildings—Alterations and Additions Being Made to Structures in City and Suburbs.

The work on the houses of Mr. E. J. the last week has been busier than ever. A new addition has been made to the residence of Mr. W. E. Smith, on N. Water street. The structure is being erected by the firm of J. and T. J. Smith, who are also doing the alteration of the house of Mr. J. W. Smith, on West Main street.

Seven New Bases in Past Office Leased

The office of the Past Office, on the second floor of the building of Mr. J. W. Smith, has been leased to seven new tenants. The office will be used as a temporary office for the post office.

New Buildings on Lafayette Street

Two new buildings are being erected on Lafayette Street, opposite the corner of Franklin Street. The buildings will be used as warehouses for the storage of materials.

Agricultural Interests

GULL YOUR PULLETS

Before They Start on Their Hurricane Course

It is possible to pick out the best pullets by looking at their feet. The pullet with the best feet will be the one that is most likely to lay eggs.

CLEARING THE PASTURE

How to Advance Their Value in Grain

Clearing the pasture is an important step in the production of good eggs. The pasture must be cleared of all weeds and grasses.

ALPHAZINE FEED

Aids in the Production of Good Eggs

Alphazine feed is an excellent aid in the production of good eggs. It contains all the essential nutrients needed for laying eggs.

FOODS TO PREVENT GNO

Some foods that are good for laying eggs are:

1. Potatoes
2. Corn
3. Beans
4. Rice

Double Use of Hotbeds

One of the secret ingredients of good eggs is the use of hotbeds. The hotbeds must be kept at a temperature of 60°F.

Prepare Asparagus Now

Asparagus is a great source of nutrition for laying hens. It contains all the essential vitamins and minerals needed for good egg production.

You Demand Good Cement

Good Band and Gravel Are Just as Important.

All Our Products Are proceed and Washed and Cured to Our Standard.

THE NEW LONDON SAND & STONE COMPANY

Notice

Owing to the combined increase in the cost of production, we are compelled to advance our Electric Power rates.

Commencing December 1, 1917, our interior Electric Power rates will be as follows:

First 500 kw. ...................................................... 6 cents per kw.
Next 1,500 kw. ...................................................... 3½ cents per kw.
All over 2,000 kw. ...................................................... 2½ cents per kw.

The rates are for electric energy used in any one month.

Time to Get Ready for Next Year's Crops

More attention should be given to the raising of corn and other crops for the coming year. It is necessary to make progress toward the production of larger crops.

Farming and Account

Collected by State, Will Be Returned Ready to Give Help.

Poultry

Use Cheaper Feeds—Save Grain

The cost of high school teachers' salaries is now 20 percent higher than last year. The increase is due to the demand for more teachers and the cost of living.

An Effective Remedy

Mealworms are the best food for laying hens. They are easy to keep and provide a good source of nutrition.

Lime and Fertilizers

The farm is the center of all agricultural activities. It is important that the farm be well managed and that the soil be properly fertilized.
