BRIEF TELEGRAMS

Yale university has the largest enrollment in its history, the University of Toronto has issued showing a total of 4,362 students in attendance.

Mrs. Agnes Risberg was granted a divorce in the superior court in San Francisco from Charles "Swede" Risberg, former Chicago White Sox ball player.

Sir Keith Smith, famous British aviator has arrived in San Francisco to prepare for a round-the-world flight he proposes to make next spring.

Six men were injured, two probably fatally, when a boiler in the steamship Pittose, in dry dock in Brooklyn, exploded.

The general agricultural situation in the United States has improved slightly as indicated by the University of California Bulletin of the department of agriculture.

A disabled motor launch, carrying 150 gallons of liquor was seized by coast guards at Sandy Hook who answered signals for aid.

Postmaster James H. Hoar, died at his home in Fall River, Mass. He had been in ill health a long time. His term of office would have expired in 1924.

Five persons were arrested for peddling of coal in Boston, who have been found giving short weight when their cases come up in court today.

J. Bradford Price, 82, a former governor of New Mexico, and a noted humorist, died in Flushing, N. Y. hospital.

David B. Ogden, formerly trustee of the Christian Science Publishing Society, has been dropped from membership in the latter church by the board of directors.

James M. Cox, defeated Democratic candidate for president in 1920 is the father of a nine pound baby girl, born Friday night at his home, Trail's end, near Dayton, Ohio.

Five persons were killed, three of them children, and five other injured when a motor car ran off a culvert and fell into a ditch of water near Oklahoma City, Okla.

The Yale Corporation elected Robert Maynard Hutchins, B. A. 1921, to the position of secretary of the university, succeeding Rev. Anson Phelps Stokes, resigned.

The strike of the 5,000 anthracite mine workers at the six collieries of the Hudson coal company at Larksville, Pa., came to an end Saturday.

Mrs. Edith K. Roosevelt, widow of Theodore Roosevelt was elected to the council of the National Civil Service Reform League. A. E. Kinda of Waterbury was re-elected chairman of the league council.

Mrs. Theresa Marangi was arrested in Boston on a secret indictment charging her with the murder of her brother-in-law Leo Marangi, Ignazio Coluccio, who was shot in the back of the head in connection with the shooting of Marangi.

After being marooned in midstream for more than four hours in an open boat in the Connecticut river about a mile north of Hartford, Curtis P. Sherman, a draftsman, was rescued by police and freed by means of a "life gun" and line.

Four persons are known to be dead and several were injured Saturday in an explosion which destroyed the glassing mill of the Eraz Diamond Powder Company, near Dupont, Pa., about eight miles south of Scranton.

The plea of Douglas Fairbanks to restrain Hyman Wink and others from restraining films in which Fairbanks appeared several years ago was denied by Supreme Court Justice Wagner in New York.

Harold H. Mendell, 42, a draftsman, was the victim of a robbery in Bay City, Mich., charged with being slain by Michael Morgan, 33, a metallurgist, when the latter was believed to have met death by accidental drowning.

President Harding asked congress to pay the Chinese government \$5,913 damages growing out of the killing of a Chinese policeman and the robbing of two Chinese citizens by an American military deserter and the sinking of a Chinese junk by an American ship.

The Famous Players-Lasky corporation announced that the contract held by Mary Miles Minter, one of its most prominent screen stars, would not be renewed after she finishes a picture upon which it is now engaged. No reason was given.

Christmas trees will be scarce in England this year. The trees have been cut in such large numbers of late that it has been found necessary to reduce the supply in order to save them from extermination.

Taxpayers in Massachusetts will be required to pay taxes on their real estate within one year instead of the two years now allowed, if a bill filed by Henry P. Long, commissioner of corporations and taxation, becomes a law.

College presidents and other educators of New England, attending meetings of three educational associations in Boston, enlisted in a campaign to add to the fund already established for rebuilding the University of Louvain.

Mrs. Emma E. Brigham, who on the face of the election returns in Springfield last Tuesday was defeated for a common council seat by John O'Brien by a majority of 23 votes, was declared elected by a majority of 17 1/2 on account Saturday.

Police Commissioner Peter Carr of Lawrence, Mass., removed Police Officer Frank L. Dwyer, following a public hearing of a petition by Dwyer to be reinstated after he had been suspended for alleged failure to report at the police station the seizure of three gaming machines.

Patrolman James Kelly, the state's heaviest patrolman, weighing 400 pounds, acted as a human battering ram during a gambling raid in a club in Haverhill, Mass. Throwing himself against the door, after other policemen had failed to break it, Kelly opened the way. Twenty men were arrested.

Shantung Has Been Restored to China

China Has Effected a Compromise With the Bandits of the Province by Payment of \$100,000.

Peking, Dec. 10.—(By The A. P.)—The province of Shantung was restored to China at noon today by the Japanese.

CHINA COMPROMISES WITH BANDITS OF SHANTUNG

Peking, Dec. 10.—(By The A. P.)—The government announces that it has effected an arrangement by which the bandits in the province of Shantung have been temporarily appeased. The bandits have received \$100,000 on condition that they refrain from violence after the withdrawal of the Japanese.

One thousand bandits have been incorporated into the Tsingtao police force. The central government, without military power, was compelled to make this compromise in order to avoid the appearance of being unable to administer the restored territory.

In expiating which Japan had not exterminated the bandits which Japan exercised authority in Kiaochow, the Japanese authorities made the following declaration: "As the date for the restoration of Shantung approached, bandits from other provinces joined the bandits in Shantung. They concentrated outside Japanese jurisdiction, but within reach of Tsingtao. General Yui, the Japanese military governor, was instructed to suppress banditry within Kiaochow."

Bandits entered Tsingtao early and conferred with the Chinese political leaders in a plot to wrest control of Shantung from the Peking government. The Japanese offered to furnish a new "refuge" for the bandits, but the Japanese police force was "retreated" to the diplomatic forces in Peking. However, the Japanese refused to be further inflated by opening new mines.

CHINESE FLAG IN SHANTUNG FOR FIRST TIME IN 24 YEARS

Tsingtao, Shantung, Dec. 10.—(By The A. P.)—The territory of Kiaochow was restored to China at noon today with flag and gun salute. The Chinese flag for the first time in 24 years raised over the administration building which had been used by the Germans and later by the Japanese who seized the territory during the World war.

A small group of Japanese and Chinese officials exchanged formal addresses and drank mutual toasts before handing over the final documents which completed the transfer. A salute was fired by the Japanese police headquarters were taken over by the Chinese.

General Yui, Japanese governor general of Kiaochow and the remaining Japanese troops in the territory will depart December 14. The staffs which have been on the docks and wharves will remain in place longer, then be replaced by Chinese.

A thousand Shantung troops arrived here before the territory was taken over. Wang Chen Ting, foreign minister, who received the territory from the Japanese, said he was confident there would be no trouble from the bandits. He declared that now the only possibility of danger is from Japanese rogues.

General Wang in an interview, repeatedly expressed his inability to understand why the arms promised by the Japanese for the police had not arrived. He said he had been promised the delivery of arms three times. He said he had 2700 police troops within the city and 10,000 troops on the boundary.

He said he did not wish to accuse the Japanese authorities of double dealing but he asserted relations existed between the Japanese subordinates and the bandits. Wang denied there was friction between himself and the Shantung Chinese.

IRISH REBELS ARE NOW RESORTING TO INCENDIARISM

Dublin, Dec. 10.—(By The A. P.)—The opponents of the Irish government repeatedly expressed their indignation against the rebels tonight. Attacks with bombs and gasoline were made on the residence of J. J. Walsh, postmaster general, and others identified with the government. The Walsh residence, which is in Frederick street, was not badly damaged, and the promptness of the firemen and neighbors prevented spread of the fire in every case.

BITUMINOUS COAL MINING INDUSTRY OVERDEVELOPED

Coal Commission Finds There Are Too Many Soft Coal Mines and Too Many Miners—Mine Capacity Ranges From 30 to 60 Per Cent. Above the Country's Normal Demand

—Production of 300 Work Days a Year Would Exceed Needs of the Country at Least 40 Per Cent.—Consumers Are Paying for a Vast Surplus of Investment and Capacity.

Washington, Dec. 10.—The studies already made by the United States coal commission all point to the fact that the bituminous coal mining industry is overdeveloped. The many soft coal mines and too many miners, describes the situation in plain English.

In these coal mines more capital is invested and more miners are employed than are needed to produce the coal the country requires. This condition, of course, involves waste on a country-wide scale.

How great is the present inflation of the industry can not be stated exactly at this time, but estimates of the excess mine capacity range from 50 to fully 60 per cent. above the country's normal demand. The industry's output has averaged about 416 million tons per year. Priced on the basis of their actual output for the best week in 1921, the capacity of the bituminous coal mines is 852 million tons. Since 1915, approximately, the mine capacity has been further enlarged, and another estimate of it can be made from the average daily output last year. The daily output at that time would have resulted in 846 million tons being mined, or fully 63 per cent. more than the normal needs of the normal needs of the country.

How serious is the over-inflation of the industry can not be stated exactly at this time, but estimates of the excess mine capacity range from 50 to fully 60 per cent. above the country's normal demand. The industry's output has averaged about 416 million tons per year. Priced on the basis of their actual output for the best week in 1921, the capacity of the bituminous coal mines is 852 million tons. Since 1915, approximately, the mine capacity has been further enlarged, and another estimate of it can be made from the average daily output last year.
