

CITIES DESTROYED

Valparaiso and Other Chilean Places Laid in Ruins by Earthquake and Fire.

EIGHTY-TWO SHOCKS FELT

DEATHS CONSERVATIVELY ESTIMATED AT ABOUT 2,000.

Loss Will Probably Reach Quarter of a Billion Dollar Fire Starts Immediately After the First Shock—Whole Population Now Sleeping in the Hills, Parks and Streets—Situation Said to Be Worse Than in San Francisco After the Disaster in That City—Food Very Scarce.

Valparaiso, Chile, Aug. 19.—At 7:52 o'clock last Thursday evening Valparaiso experienced an earthquake of great severity, and during that night eighty-two shocks were felt. Most of the buildings of the city were either ruined or damaged. The loss will be enormous, probably reaching \$500,000,000. Two thousand persons killed is considered to be a fair estimate of the casualties. Vina Del Mar (three miles from Valparaiso, and having a population of over 10,000); Quilhue (225 miles to the southward, with a population of 2,500); Salta, Llanquihue (fifteen miles to the northwest, with a population of 6,500); Quillota (twenty-five miles to the northwest, with a population of 10,000), and villages all around were destroyed.

Most of the damage was due to fire, which started immediately after the first shock. The whole population is sleeping in the hills, parks and streets. Food is very scarce. Milk costs two Chilean dollars a liter, and it is almost impossible to obtain meat, even at high prices. The railroads are all destroyed. Rain, which began to fall immediately after the first shock, stopped an hour afterwards. The nights are very cold and windy, and the people sleeping in the open are suffering greatly. The captain of a steamship which has arrived from San Francisco says that the situation here is worse than that following the disaster at San Francisco.

DAMAGE IN SANTIAGO.

Many Public Buildings, Particularly Churches, Are Demolished. Santiago de Chile, Aug. 19.—It is known that at least eight lives were lost in this city by the earthquake, but it is believed that others were killed by the falling buildings and that their bodies will be discovered later. Several persons became so panic-stricken during the tremblings of the earth that they threw themselves from the balconies of their homes and were killed. The fires which followed the earthquake in this city were promptly extinguished, but while they lasted they greatly augmented the terror of the people. As all telegraph and telephone lines were more or less damaged the exact situation throughout the country is not yet known, but advices have been received to the effect that the towns of Village and Casablanca were entirely destroyed, and that Fellepa, Rancagua, Malpilla and Llalial were severely damaged. At Concepcion the shock was severe and a number of persons were killed or injured. The towns of Rengo, San Fernando, Quillota and San Antonio and many villages are in ruins. All railway service in the central zone is either interrupted entirely or greatly delayed, and commerce is practically at a standstill.

In the city of Santiago much damage was done. Many public buildings, particularly churches, were dismantled. The buildings of congress, the municipal buildings, the normal school, the courts, the Peruvian legation, the residence of President Llerena, the Central market, the prefecture of police and the national telegraph office all were seriously damaged. The lines of the electric tramway system and the electric light wires were short-circuited, interrupting street car travel and plunging the city into darkness. The scenes at the hospitals and prisons during the excitement were distressing in the extreme. The prisoners tried to escape from the jails in the hope that they might reach a place of safety, and prison guards were obliged to fire into the air in order to intimidate and quiet their panic-stricken charges. There have been several return shocks of slight intensity. These shocks have served to continue the public alarm, and a state of panic still prevails. The astronomical observatory, however, has given out a statement to the effect that it does not appear to be possible that there will be a repetition of the severe shocks. Last night many persons slept in the tramway cars, in carriages and in the open air in the public squares and streets. The government has taken steps to restore order. An inspection of all houses left standing has been ordered, and directions have been issued.

MAKE SERIOUS PROTEST.

Thousands of Bulgarians Ask That Greek Outrages Be Stopped.

Philippopolis, Bulgaria, Aug. 19.—A monster meeting of 20,000 inhabitants of this city and surrounding districts, and which also was attended by 1,900 delegates from Macedonian associations in all parts of Bulgaria, to-day adopted resolutions protesting against Greek outrages, and urging the government and the nation to use all means to secure a strict enforcement of article 23 of the treaty of Berlin; to break off diplomatic negotiations with Greece, to meet the Greek outrages with all reprisals permitted by international law, and to affirm the inadequacy of the Muersteg programme, which provides for the maintenance of the status quo in the Balkans. The meeting further recorded an expression of regret for acts of intolerance by certain Bulgarians on Greek provocation. The meeting was quite orderly, and at its conclusion those present formed into an imposing procession, and left copies of the resolutions at the Russian, French and British consulates.

Annapolis, Md., Aug. 19.—Midshipman Kingiro Matsukato of Tokio, Japan, died at the naval academy hospital this afternoon, after nearly two weeks' illness with typhoid fever, complicated with pneumonia. Bloodgood of the Johns Hopkins hospital, Baltimore, at 2 o'clock this morning. The young man was nineteen years of age and entered the academy in June of this year by special arrangement with the Japanese government. The remains will probably be buried in Arlington cemetery, Washington.

"MEPHISTO" MORRISON DEAD

NOTED ACTOR PASSES SUDDENLY AWAY AT YONKERS.

Taken Ill But a Week Ago—Unable to Survive Shock of Operation for Stomach Trouble—Members of the Family at His Bedside—Gained Fame for His Work in Goethe's Faust. New York, Aug. 19.—Lewis Morrison, the actor, whose work as Mephisto in "Faust" gained him fame, died suddenly of shock on Saturday afternoon in St. John's hospital Yonkers, after undergoing an operation for stomach trouble. Taken ill suddenly last week Mr. Morrison was informed by his physicians that an immediate operation was necessary. He was under engagement to start for San Francisco on Friday, but wired that he would delay a few days. He cheerfully went to the operating table. He recovered from the influence of the ether administered to him, but the shock proved too much for a man of his age—sixty-one years.

Mr. Morrison resided each summer with his daughter, Mabel, wife of Richard Bennett, Mr. Bennett and Mr. Morrison's wife, Florence Roberts, were at his bedside when he died. Few members of the theatrical profession were more widely known in the United States than Mr. Morrison. He was born of English parentage in Kingston, Jamaica, in 1845. He came to this country at an early age and enlisted on the union side in the civil war. He rose to the rank of lieutenant and on his honorable discharge at the close of the war he received the rank of captain for distinguished service. He won the personal friendship and praise of General Grant during the siege of Vicksburg, when he swam the Mississippi under fire of the batteries with dispatches for the federal army.

After his discharge from the army Mr. Morrison entered the theatrical profession as an actor in the Old Varieties theater, New Orleans, making his first appearance with Lawrence Barrett in 1865. He was afterwards associated with Edwin Booth, Edwin Forrest, Tommas Salvini, Adelmide Neilson, Charlotte Cushman, Januschek, Rose Coglan and Agnes Booth. He was also associated for nine years as leading man with the old Walnut street stock company in Philadelphia. He played next with the old California theater stock company in San Francisco and then took up Faust with himself as Mephisto, and for fully twenty years starred this country and Canada with wonderful success and popularity.

CZAR CALLS WAR ON TERRORISM IN POLAND

SENDS TELEGRAM OF CONGRATULATION TO GOVERNOR GENERAL OF WARSAW.

Thanks Divine Providence for Escape of That Official From Bombs of Would-be Assassins—Establishment of Practically a Dictatorship for Poland Hinted at by the Court Organ—Practice of Flogging Attacked. St. Petersburg, Aug. 19.—A call to an uncompromising war with terrorism and revolution in Poland was sounded in the imperial telegram of congratulation to Governor-General Skalon, of Warsaw, on his escape from the bombs of would-be assassins at Warsaw Saturday. In this telegram Emperor Nicholas, after thanking Divine Providence for saving the governor-general's life "for me and Russia," continues: "Do not be discouraged; be resolute in the battle with insensate anarchy and sedition."

Under present conditions in Poland it will be difficult to execute the imperial will, as the police have practically been driven from the streets of the Polish capital, and the prevailing military measures are believed to be inadequate to cope with the revolutionists. Hence the text of the telegram is regarded here as indicating the intention of the emperor to strengthen the hands of General Skalon or his successor by furnishing more troops, empowering the use of sterner methods than hitherto were permissible, and the formation of a special ministry to take over the government of the Polish provinces.

The establishment of what is practically a dictatorship for Poland is hinted at by the Svet, the court organ. It is considered extremely probable that General Skalon, even if he is not a victim to a second and more successful attempt on the part of the terrorists, may retire of his own volition, as did his predecessor after a similar nerve-shaking experience, or at the request of the emperor, made as the result of representations from both the court and army factions, which have been urging his replacement by a stronger man for some time past.

The Russ, which has made a new appearance as the Okeoys, turns its rums upon flogging, which, in spite of the imperial manifesto of 1904 abolishing it, is still employed in the repression of agrarian disorders. Professor Kozminskavich contributes an essay on the subject in which he cites numerous examples of this method of punishment, and declares it to be barbarous as well as absolutely illegal.

It is stated that the Pacific squadron will be formed again in the autumn, when practically all the available ships of the Baltic squadrons, the Czarevitch, the Slava, the Gromobol, the Bogatyr and the Rossiya, will be dispatched to the Far East. The grand manoeuvres at Krasnoyarsk have practically come to an end with the departure of the imperial personages. Part of the troops, including the Horse Guards, already have broken camp and returned permanently to St. Petersburg.

To-day was the anniversary of the proclamation of the first, or Bouligan, parliament, and the newspapers devote their leading editorial articles to it. The Straits writes in an especially optimistic tone, declaring that in a year's time the people have definitely won the battle for popular representation, and that the struggle now will be for the rights of the representatives in the assembly, which often have been suppressed.

STRIKE DECLARED OFF.

New Bedford Trolleyman Lose Their Short Hard Fight.

New Bedford, Mass., Aug. 19.—The strike of the carmen of the Union Street railway, which began five weeks ago, lacking one day, was officially declared off this afternoon by vote of the carmen's union. This action followed the decision of the Central Labor union to refuse to recognize the strike after 3 o'clock this afternoon. The Central Labor union regarded the strike as practically dead, many of the men having gone back to work for the company, and others having left town to work in other cities, so that the number of men actually remaining on strike was small.

SEVEN KILLED IN WRECK.

Fast Freight on the Pennsylvania Crashes Into Work Train.

Johnstown, Pa., Aug. 19.—Plunging through a blinding rainstorm at the rate of forty-five miles an hour early to-day a fast freight train on the Pennsylvania railroad crashed into a slowly moving work train at Sang Hollow, killing seven and seriously injuring seven others of the work train crew. Those of the injured probably will die. Only one of the crew on the freight was injured. The work train had stopped at a water plug near Sang Hollow to take water. A Fort Wayne freight was following and because of the driving rain the engineer was unable to see the work train until just before the crash. The engineer of the freight jumped and received injuries from which he will die. The fireman remained on the engine and was uninjured. When the freight engine crashed into the work train it ploughed its way through the cars. All the laborers and others of the work crew were asleep.

CUBAN GOVERNMENT NIPS CONSPIRACY IN THE BUD

HALF DOZEN LIBERAL PARTY LEADERS ARRESTED.

Charged With Plotting Revolution and the Assassination of President Palma—Juan Gomez and Demetrio Castillo Among Them—Necessity Realized of Putting Down the Open Outlawry in the Western Part of the Island. Havana, Aug. 19.—Half a dozen prominent leaders of the liberal party have been taken into custody on the charge of conspiracy against the government and plotting to assassinate President Palma.

The events of to-day have shown that the government was fully aroused to the necessity of putting down not only the open outlawry in western Cuba, but also to the necessity of capturing and confining the alleged leaders of this movement, who were strongly suspected of plotting the assassination of the president and overthrowing the present government by force. To that end the six members of the liberal party were arrested here by General Carlos Garcia Velez and his brother Faust, ex-Cuban consul at Bremen, ex-Senator Montegudo, Colonel Manuel Piedra, chief of police in the house of representatives and General Enrique Loynaz del Castillo, a former congressman from Puerto Principe province. The five above mentioned men are charged with conspiracy. Telegrams were sent to Santiago directing the arrest of Juan Santibon Gomez, of Havana, known as the colored czar and one of the most influential of the liberal leaders. Gomez has been campaigning lately throughout Santiago province against the government. The police of Santiago were also ordered to arrest Demetrio Castillo, Gomez and Castillo are charged with inciting to outlawry and revolution.

The Havana arrests were made by the city police on charges preferred by the chief of the government secret service. General Enrique Loynaz del Castillo managed to make his escape. After his arrest he was placed in a carriage in charge of all-outlawry of police. He asked that his brother-in-law, Senor Ariana, be allowed to accompany him to bring a change of clothing. This

GREAT DAMAGE BY STORM.

Telegraph and Telephone Communication Interrupted in Pennsylvania.

Pittsburg, Aug. 19.—Reports from points in Allegheny and neighboring counties indicate that great damage has been done by a storm that passed over western Pennsylvania late to-day. Telegraph and telephone communication was interrupted at many points. Railroads suffered from washouts. Part of Sutersville is reported to be under water, which is said to be fifteen feet deep in many places. There are no reports of loss of life, however. The crop damage appears to be heavy. At Kittanning several buildings were struck by lightning and destroyed, five bridges were washed away and Garrettts Run, a small stream, rose twenty feet in fifteen minutes. At Scottdale street car traffic was suspended and the residents were forced to take refuge on the second floor. Through the Sewickley, near a number of bridges, mines were flooded and three small dwellings were destroyed by lightning. Part of the Sewickley branch of the Pennsylvania railroad is also reported washed away.

Hunt of Hartford, Edwards, with his brother Charles, were out on the river in a launch, when R. D. Faxon, his wife and Miss Hunt, all of Hartford, appeared in a sailboat. Mrs. Faxon and Miss Hunt accepted an invitation to ride in the launch. Later Mrs. Faxon returned to the sailboat but Miss Hunt, together with the Edwards brothers, got into a dory, which was meant to hold but two persons, and which capsized. Charles Edwards saved himself by grasping the boat, but Frederick Edwards made an attempt to rescue Miss Hunt. It is supposed he became exhausted for he sank suddenly. Miss Hunt and Edwards' brother were picked up by Faxon.

He accompanied his two daughters to San Antonio to a dentist's office, and while he was waiting there Burton, who had a grievance against the dentist, whose name is Nichols, came to the door and asked if Nichols was in. Wishart replied that he was, and Burton, thinking it was Nichols whose voice he heard, fired a load from the shot gun into Wishart's body, killing him instantly. When Burton fired he called out: "Nichols, you have ruined my wife!" Wishart came to Florida from Lambert, N. C., eight years ago, and owned considerable property on the west coast of Florida.

EXTREME NERVOUSNESS.

Proof of the Condition of High Circles in Peking.

Paris, Aug. 19.—The explosion of the gasoline tank used in a lantern show last Friday which gave rise to rumors of attempted assassinations, took place while Tuan Fang, governor of a province of Hunan, was trying a moving picture machine which he had brought here for the amusement of the dowager empress before taking it to the palace. The sensation this incident created in official circles indicates the extreme state of nervousness prevailing in high quarters. All the residences of officials have been heavily guarded by troops since the explosion. Tuan Fang was a member of one of the imperial Chinese missions sent abroad to study foreign political methods and visited the United States last winter.

H. C. ROWE'S YACHT BURNED

EXPLOSION ON THE OWEENE—ONE MAN INJURED.

Crash and Big Illumination—Occurs Near Summer Residence of Mr. Rowe at Pine Orchard—Large Party Witnesses Sight—A Costly and Beautiful Boat—Bought by Mr. Rowe Last Spring.

Branchford, Aug. 19.—The large auxiliary two-masted schooner yacht Oweene, sixty-five feet long, belonging to Henry C. Rowe of New Haven, was burned to-night by the water's edge while moored in the harbor at Pine Orchard in front of Mr. Rowe's summer cottage. The burning of the vessel followed an explosion of gasoline aboard, carried to operate the fifty horsepower engine, with which the boat was provided. The cause of the explosion has not yet been determined. Almost immediately after the explosion Senator M. A. Chatfield and Captain Magnus Manson, who were seated on the veranda of Mr. Chatfield's cottage, saw a man hanging over the side of the vessel. Mr. Chatfield at once put out to go to the man's assistance, but in the meantime this man and one other, comprising the crew, made their escape in a small boat over the other side of the yacht. One of the men is the engineer of the vessel, James Boucher, and he was severely burned. The name of the other man has not yet been ascertained, but he was not injured.

The yacht was newly purchased this season and was valued at \$10,000. Mr. Rowe and a party of friends had just returned from a cruise to Long Island on the yacht, and had been off the boat only half an hour, and the engineer was preparing to take the vessel to its regular mooring off Governor's Island, when the explosion occurred. The noise of the explosion was heard all over the colony, and was followed by a sudden flare of flame, which lit up the harbor and the shore. Soon the yacht was a mass of flames, the fire climbing rapidly up the two masts, and giving them the appearance of giant torches, and at the same time spreading over the hull of the boat until the whole was encased in a sheet of flame. The fire burned for more than two hours, lighting the harbor and the shore, the latter crowded with the residents of Pine Orchard, and neighboring summer colonies, watching the flames slowly eat the magnificent yacht, until, as the fire began to die down, little remained of the boat beyond the part below the water. The engineer, Mr. Boucher, said that he and his assistant went down into the cabin of the yacht, and struck a match to light the gasoline, when suddenly the explosion occurred. How he and his companion got out to the deck of the yacht, they do not recollect. They were too excited to take notes. They got out somehow in a big hurry, as there were 200 gallons of gasoline on the yacht.

TWELVE LOSE LIVES IN WATER ABOUT NEW YORK

NUMBER OF HEROIC RESCUES REDUCES THE DEATH LIST.

Most of the Victims Bathers Who Either Ventured Out Too Far From Shore or Who Were Seized With Illness—One Particularly Sad Case—Father Gives Repentedly to Recover Body of Son—Man Breaks His Neck Diving. New York, Aug. 19.—Twelve persons lost their lives in the waters about New York to-day. Most of the victims were bathers, who either ventured out too far from shore and became exhausted or who were seized with illness and became senseless. A number of heroic rescues of imperilled swimmers were made and these reduced what would otherwise have been a much larger death list. Three persons were drowned in a group near Manhattan Beach in a manner that could not be ascertained and the police are conducting an investigation. The only eye witness to the drowning disappeared. The victims in this instance were Morris Grosse, Martin Anderson and an unknown bather about twenty years old.

A particularly sad case of drowning was that of Harry Sellers, twenty-five years old, who was swimming with his father in Jamaica Bay. The men were diving from a launch. On one plunge the young man did not resurface. The father dived frantically in the hope of rescuing his son, and continued to plunge into the water until he became unconscious from exhaustion and was with difficulty rescued and resuscitated. William O'Keefe, twenty-four years old, was drowned in Gravesend bay becoming exhausted while swimming far from the shore. John Blinski, nine years old, of Jersey City, was drowned while swimming in the Hudson river. William Hill, twenty-six years old, of Long Island City, was swimming in the East river when he became ill and went down before rescuers could reach him. The bodies of two unknown men were found floating this afternoon in the East river off the foot of Tiffany street. One was supposed to be the captain of the sand barge near-by.

Albert Hagenborn, twenty-six years old of Brooklyn, was instantly killed to-night when he dived from a balcony twenty feet high into five feet of water in the swimming tank at a pleasure park in Coney Island. He neck was broken. Edward Moore, seven years old, was drowned in the Hudson off West Twenty-ninth street while trying to climb aboard a barge. Sven Remsen, thirty-five years old, was drowned early to-day off Yonkers, in some mysterious manner.

Branch of Peace. Loretto Mongello was arrested last evening by Sergeant Doherty and Officer Hyde, charged with breach of the peace. It seems that Mongello was mixed up in the fight at Romano's saloon on Silver street Saturday night and had got away. He was located last night and arrested.
