## PROHIBITION PARTY PLANS CAMPAIGN

Seeking Funds Enough to Launch Nationwide Drive

Kansas City, July 18.—Efforts are being made by the prohibition party to obtain a fund large enough to finance a vigorous nationwide campaign. H. P. Faris, of Clinton, Missouri, the party's presidential nominee, said here today.

Mr. Faris asserted that the party is seriously handicapped in presenting the issues to the people because of lack of funds and added that "if we had one dollar to the hundreds the parties have, we'd win this election."

The presidential nominee made it plain that he will not be surprised or disappointed if his fortunes are crushed under an avalanche of votes, but he said he is ready to go to the White House in the event of a prohibition landslide.

"We've been electing the issues for fifty years and the other fellows have been electing the officers," he said "it ought to be our turn to elect the officers, and if men voted the way they talked, you would see us win. Everywhere people are clamoring for a square deal; everywhere there is dissatisfaction with prohibition enforcement."

"Our party is the real progressive party. Our party has advocated all the great issues that have been put into effect in the last fifty years."

"Four constitutional amendments—the sixteenth, seventeenth, eighteenth and nineteenth—found birth in our party and were advocated by our par-

ty before they were accepted by any party. This is a great record of constructive progress—the popular election of United States Senators, the income tax, prohibition and women's suffrage."

Mr. Faris is 65 years old and a pioneer Missouri business man. He is treasurer of the Brinkerhoff-Faris Trust and Savings company of Clinton. He is an elder in the Presbyterian church.

**MORE THAN 22,000 VETS ASKING BONUS DAILY**

War Department Has Received 300,000 Applications, While Navy's Total is 33,000

Washington, July 18.—Application for benefits under the bonus law are being received at the rate of 20,000 a day at the navy department. This number, it was said by Adjutant General Davis, in charge of the adjusted compensation branch of the war department, indicates that the veterans are not delaying filing their applications.

A total of 200,000 applications have been received by the war department. The applications have been available since July 1. The navy department, however, has received only 33,000 applications in the last two weeks.

The war department's adjusted compensation branch is fully functioning now, and efforts are being made to assemble the information in the case of each veteran for certification to the veterans' bureau for payment. The first payments are not to be made before next year.

Recent a woman sent four pounds to a London hospital in restitution for articles she had taken while a patient there.

## AMERICAN BOXERS WIN EASILY IN OLYMPICS

Labaraba of Los Angeles And Jackie Williams Carry Off Honors in The Roped Arena.

By The Associated Press.

Paris, July 18.—Fidel Labaraba, the Los Angeles flyweight, handily defeated Rennie of Canada in a one-sided bout in the Olympic boxing competition today. In the first round the Californian landed early to the ribs and then to the chest and head with short choppy lefts and rights, driving the Canadian to the ropes. In the second he sent Rennie down for the count of four with a right to the jaw. The Canadian was saved by the gong.

Labaraba tried inching in the third round and knocked his opponent down for a count of two.

Jackie Williams, the American bantamweight, defeated Benjamin Peruzzo, of Argentina, on points. The Argentine lost after one of the greatest fights of the Olympic bouts. He led the milling from the start, but his Firpo-like swings were often wild and he was pitted against one of the cleverest dodgers of the American team.

Ray Fee, the San Francisco flyweight, defeated Bergstrom, the Swedish hope, in a closely contested bout in which Fee led in the first and second rounds but took a great deal of punishment in the third. In the opening round Fee landed strong jabs to the stomach at will and in the second reached the Swede's head and jaw with left and right up-pershots, thoroughly outboxing him. Bergstrom, with a burst of speed, broke down the American's guard in the third and waited him around the ring, pummeling him mercilessly. Fee was obviously pretty well exhausted, but he rallied at the end.

## EUROPE'S AIR JUNCTION

Czechoslovak Government Emphasizes Fact It Seeks to Make Capital Center of Aeroplane Travel.

Prague, July 18.—The third international aircraft exhibition, recently concluded here, served to emphasize the effort of the Czechoslovak government to make this city a center of European air travel on both the north-south and east-west routes, already in operation or contemplated.

English, French and German firms were among the 88 exhibitors. Mr. Srba, the minister of public works, in an address at the opening said that the movement to make Prague the junction for European air routes was gaining ground and it was now only a question of the conclusion of suitable treaties between the various states relating to aerial communications and commerce.

A new route between Brunn and Marisch-Ostrau is soon to be established and a great airdrome is to be built in the latter city, which in addition to its peace functions, is designed as a base for military air operations in event of war.

## SHERIFF IS SHOT

Penn. Official Fatally Wounded By Criminally Insane Prisoner Who First Throws Red Pepper.

Huntington, Pa., July 18.—While taking two men to the state hospital for the criminal insane at Friesview today, Deputy Sheriff Meyer Van Lewen of Allegheny county, was shot through the abdomen and probably fatally wounded by one of the prisoners who first threw red pepper into the officer's face. The prisoner who did the shooting is Andrew Jackson, a negro. The other prisoner escaped but was captured after a seven hours hunt. The shooting occurred in a sleeping car while the men were temporarily separated from their handcuffs. Jackson seized the officer's pistol, after throwing the pepper.

Every person uses an average of 12 pounds of soap annually.

## Even Grandma Gets It Shingle Bobbed

Notis are proving a salvation to bobbed-haired women, who are learning a new trick. They have their hair cut for greater comfort, but if the husbands or employers of some of them knew of the removal of the tresses they would be even more uncomfortable than before, so they resort to hair nets to conceal the awful fact from the world. In this way girls are able to retain their positions in establishments where bobbed hair is officially proscribed.

New Britain hairdressers report that most of the women who have their hair bobbed are willing to advertise that fact. This is generally the case even with the older women, and the maximum age of bobbed-haired flappers is continually advancing and has long since reached the gray-haired grandmothers who were once so unequivocally opposed to the cutting of their granddaughters' hair.

A further development is the growing demand of women to be served in barber shops along with the men. The "National League Barber" has already taken a stand against this, claiming more or less seriously that women have already broken into the colleges, the clubs, and politics, have abolished the saloon, and are now attacking the barber shop, the last remaining place where men can get away from what was formerly called the weaker sex.

## CONCLUDE CONVENTION

22nd Annual Meeting of American Institute of Banking Ending Its Session at Baltimore.

Baltimore, July 18.—The twenty-second annual convention of the American Institute of Banking, junior organization of the American Bank-

ers' association, will be concluded today, the election of officers and the selection of the place for next year's convention being the most important business on the program. Kansas City seemed to be the favorite with the delegates for the 1925 meeting. Caucuses held last night for today's election resulted in the nomination of Edwin V. Frick of San Francisco, for president, and Bruce Baird, of New Orleans, for vice-president. An executive council of four members also will

be chosen. Five nominations were made.

**Boy Leads Reds**  
Berlin—A 13-year-old boy is one of the leaders of the communist party at Gera, in central Germany. His fluency of speech and commanding manner on the platform attracts large crowds to his meetings.
