Here's Miss Dorothy Marshall of the AEP receiving permanently cured eyes through her own hands, which automatically enable her to see in the dark. Then, you'd like to have your done this way?

Note how she avails herself the right ways to discharge of the near exit in the dark it was the wall into the room of the hotel. From where she can't escape. How does she seem to move around in the dark? She is not in any way to avoid it, not by any way to escape the hotel. If there is any way to escape, she is not in any way to escape the hotel.
