FOR SALE

"For Sale" Advertisements in The Farmer bring ready purchasers. Try one, you will be surprised at the immediate results.

TO LET

Take down that spotted placard and secure a tenant or roomer in the modern way---through a Farmer classified advertisement.

HELP WANTED

Many men and women call at The Farmer and look over the Help Wanted Ads. If you need help---advertise.

SITUATIONS

If you are out of work, The Farmer Wants Ads ought to be of material assistance to you. Read them over carefully each day.

Today's Wants

Wants Ads will be received for this page up to 12-o'clock noon. Those sent in at a later hour---up to 2:30---will appear on the second or third page of this paper under the heading, "Latest Wants."

EDUCATION NOTES.

Denver has 10 public playgrounds, with a teaching corps of 19 men and women.

Women teach practical agriculture in the elementary schools of Tippecanoe County, Indiana.

Swimming lessons, sex hygiene instruction, aviation, and wireless telegraphy are some of the new subjects in city public schools as reported to the United States Bureau of Education.

The best think in my section this year was the introduction of industrial education for the negroes by means of a negro supervisor," writes a division superintendent of schools in Virginia.

It costs 35 typical American cities an average of less than a dollar a year per pupil to provide free textbooks, according to W. S. Duffenbaugh, of the United States Bureau of Education.

The course of study in the Alabama normal schools is to be radically changed to include such subjects as: Rural sociology, biology, domestic science, home art, library methods, school gardening, and agriculture through club work.

Some of the rural schools in the state of Washington have college graduates as teachers. In that State they pay good salaries to country teachers because they believe that the country school should be as well taught as the city school.

Kentucky is having a real educational awakening so real that people are not afraid to pay what it costs to spread and maintain an efficient system of schools. One tax collector reports that citizens who have been in the habit of complaining because of higher taxes said it was "all right," when informed that the increased rates were in order to give more money to the public schools.

Consolidation of schools is going on to such an extent in the United States that even with a building boom in progress, many localities report fewer schools each year. Tennessee offers some notable examples. Knox County has erected 14 new buildings during the year, yet the total number of schoolhouses in use has been reduced from 154 to 136. How consolidation helps attendance is shown by another Tennessee county (Lauderdale), where a new consolidated school had twice the enrollment of the combined three schools which it replaced. The better consolidated school attracts better attendance, despite the fact that it is less easy to reach.

White voile robes, embroidered in white or colors, are by any means in the background. Too many women are glad to buy something partly made up.
