AMERICAN INSTITUTE.

Preparing for the Reception of Three Hundred Members at the Annual Meeting. Bridgeport, Sept. 14.—It is especially gratifying to the representatives of the copper and brass industries hereabout that the American Institute of Mining Engineers has chosen Black Rock as the place for its annual meeting the first week in October.

from all parts of the country. It is the intention of the Bridgeport business men to do all in their power to make the visit of these people enjoyable. The Consolidated will furnish a special train for the party.

Scene in the Klamath Country.

(From the Morning Oregonian.) A camping party of Salem men is just home from the Klamath country. The Klamath reservation is a fine region and inhabited by a hearty race of Indians. Mr. Patterson says an Indian that weighed two hundred and seventy-five pounds, who had curly hair and a number of other singular characteristics, was noticed. But the grandest sight, says the hunters, was Crater Lake. This is a body of water four and a quarter by six and a quarter miles in dimensions, having no apparent outlet. Not a fish of any kind inhabits the water. Two efforts were made to plant the lake with trout, but it seems that they have no means of living, and die off in a short time. While the party was at the lake they encountered a surveying outfit, who were making a geodetic survey, and their figures showed that the lowest bluff on the lake was two hundred and fifty feet from the top of the level of the water. It was found that the depth of the water was 1,996 to 2,000 feet, clear as French plate glass.

Every member of the board is requested to be present. Important business, including action on applications, I would impress upon the members the importance of being present at all meetings, that the important issues of the campaign may be discussed, also the time and place for holding a meeting of the club will be decided upon. H. S. Hamilton, President.

Sixth Ward. Republican electors of the Sixth ward will meet Friday evening, September 21, at 69 Court street, at 7:30, for the purpose of electing delegates to the justice of the peace convention. I. M. Ullman, Chairman.

The republican congressional convention of the Second district will be held at Veru hall, 156 Orange street, New Haven, on Saturday, September 22, at 11:30 a. m., for the purpose of nominating a candidate for congress and for the transacting of any other proper business. THEODORE H. MacDONALD, JOHN T. BROATCH, GEORGE B. CLARK, Congressional Committee.

A Good Indication. Medical practitioners of prominence are prescribing for the cure of diseases springing from derangement of the digestive organs, Dr. David Kennedy's Favorite Remedy. This professional endorsement is justified by the fact that no other preparation has been found so efficacious in that class of disorders, even in the most advanced and severe cases. It has cured gravel in the kidneys, stones in the bladder and inflammation of the kidneys, where all other medicines had failed. It can be purchased of any druggist. A book is wrapped about each bottle, explaining its use.
