

C-B Corsets in the New, Natural, Easy Lines.

C/B a la Spirite corsets for Spring are the last word in correct corseting.

We think so much of them that we are making a special show of the leading models in our Main street windows.

These are the corsets that women can wear all day long with the greatest comfort. They are made of soft clinging materials which yield with every movement of the figure.

They define the new lines of fashion perfectly and they come in a variety of models to suit the requirements of every figure.

You are cordially invited to see our corset show this week. Prices from \$1.00 to \$5.00.

GOOD STATE JOB FOR WILTON MAN

As the time draws near for the civil service amendment passed by the General Assembly last week, to go into effect, interest begins to center in probable changes in the office of the secretary of the state, Charles D. Burnes of Greenwich. It is generally understood that Chief Clerk Thomas B. Myers will be one of the first to go, and it is also said, on good authority, that his successor will be Raymond Comstock of Wilton. Mr. Comstock has been at the Capitol the past week on at least one occasion, familiarizing himself with his new duties.

STOCK MARKET

New York, March 1.—Opening. A one point advance in Union Pacific and a two point decline in Louisville & Nashville to 119, its new minimum, were the principal features of today's early stock market. Prices otherwise inclined irregularly. Reading responded favorably to a moderate inquiry while Pennsylvania was heavy on its poor statement of earnings for January. Shares of the motor companies were again active.

Noon—Imports of \$750,000 gold from London where the metal was obtained at the low exchange rates of a fortnight ago, acted as a partial stimulant in the early dealings but prices fell under their best before the end of the first hour with especial heaviness in New York Central and Canadian Pacific. United States Steel yielded most of its gain when a lot of 8,000 shares had changed hands at 42. By midday trading became exceedingly dull. Latest developments in the eastern war zone being reflected in another severe decline in grain options.

(T. L. Watson & Co.) Indications are not wanting of slow business revival. Steel mills are operating at increased capacity, coke shipments have jumped 10 per cent, and the bank clearances are less unfavorable when compared with last year. A big buying power no doubt lies under the market and the country is too big and too wealthy to be kept down always. In view of the uncertainties referred to, however, it's a good time to pick one's way carefully.
